WHY IS FDOT STUDYING THIS CORRIDOR?

FDOT is studying the future needs of the corridors to efficiently plan for needed improvements that enhance mobility, reduce congestion, and improve safety.

- I-75 and I-4 have experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- The Planning and Feasibility phase will document current and future needs of the interstate in corridor Master Plans and provide recommended improvement priorities for implementation.
