## 1.0 INTRODUCTION

I-75 (SR 93) from south of SR 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County was presented to the public as a PD&E Study evaluating managed lanes. The project direction was revised to a Master Plan in December 2020. The project location map, shown in **Figure 1**, illustrates the location and limits of the study.

The purpose of the Master Plan (Plan) is to address the existing operational deficiencies of I-75 within Sarasota and Manatee counties and to accommodate future travel demand projections as a result of forecasted population and employment growth. Other goals of the project are to preserve the operational integrity and regional functionality of I-75 (and, therefore, the regional transportation network) by complementing similar corridor improvements to the south and to enhance emergency evacuation and response times. The Plan also aims to develop interchange and managed lanes design concepts to address any segments identified as operating below the Level of Service (LOS) target adopted for this facility as part of the Strategic Intermodal System (SIS) designation.

The Plan shall provide recommendations based on alternatives analysis that bring the corridor into compliance with the Department standards, enhance mobility, and improve safety. The Plan shall include a Priority List which identifies interim and long-term improvements. The recommendations and Priority List will support the development of the District Interstate Implementation Plan, which will be developed by the Department.

The purpose of this report is to document the public and agency participation accomplished throughout the **Plan development** process. FDOT recognizes that the success of any transportation improvement is dependent upon a comprehensive public outreach effort. The program focused on soliciting community participation regarding local issues and concerns throughout the project development process. The balance of this report describes the following components of the program: Advance Notification, public communications (emails, newsletters, website, media coverage, etc.), agency presentations and meetings, and public meetings. The final project schedule showing these milestones is shown in **Figure 2**.

### 1.1 Project Description

The study area is I-75 (SR 93) from south of SR 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County. The study area is approximately 39 miles in length and traverses the major urban areas of Sarasota and Bradenton in southwest Florida. It also crosses the navigable Manatee River in Manatee County near the northern project terminus.

The Plan evaluates the current and future needs that improve safety, operational capacity, functionality, efficiency, and connectivity along and across the I-75 corridor. Alternatives to be evaluated shall include the addition of managed lanes, including supporting additional

general use lanes, collector-distributor roadways, and auxiliary lanes; interchange operational improvements will also be considered.

Figure 1: Project Location Map

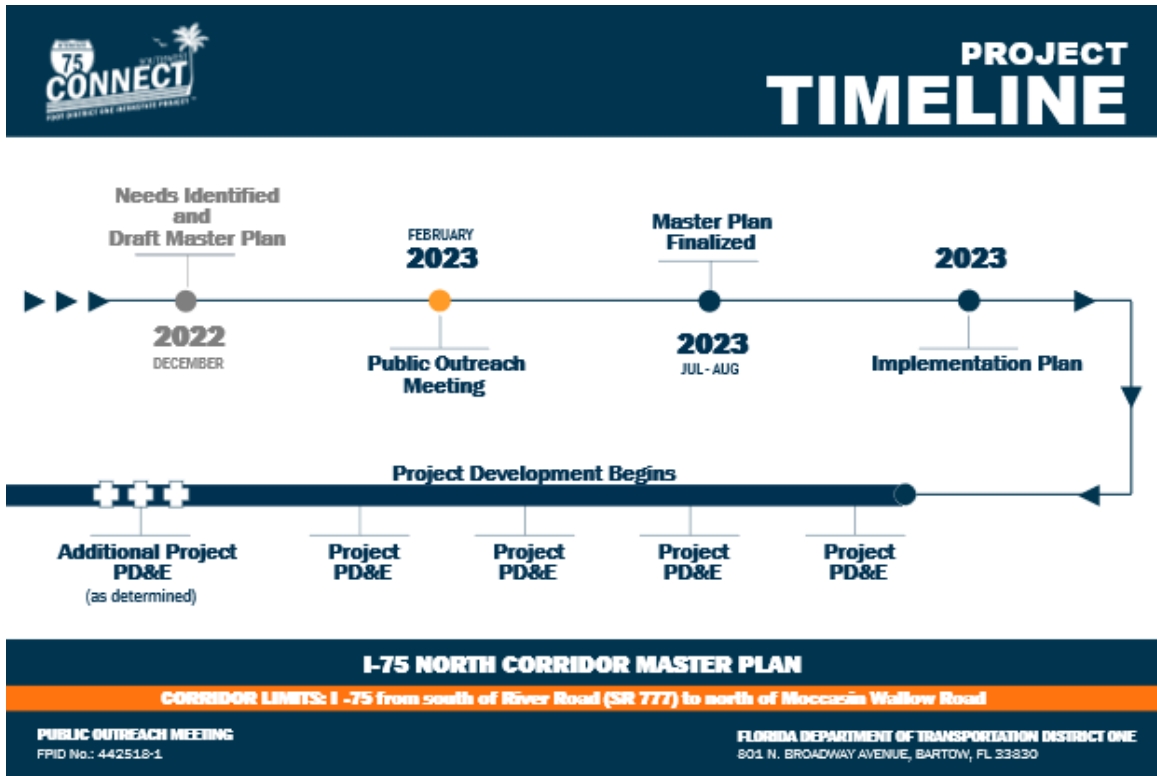

Figure 2: Final Project Schedule

## **2.0 PROJECT KICKOFF**

### **2.1 Efficient Transportation Decision Making (ETDM)**

Consistent with FDOT’s ETDM process, the proposed project was evaluated during the ETDM programming screen, (ETDM Project Number 14399) published on [October 11, 2019](#). Through ETDM, early agency and public comments were obtained to provide project information on potentially environmentally sensitive areas and identification of project issues. The ETDM Programming Screen Summary Report dated [October 11, 2019](#) is available on the ETDM public web site (<https://etdmpub.fl-a-etat.org/est/>).

### **2.2 Advanced Notification**

An Advance Notification package was completed for this project and mailed to the Florida State Clearinghouse and local and federal agencies on [June 28, 2019](#), in accordance with Governor’s Executive Order 95-359 – Florida State Clearing House and President’s Executive Order 12373 – Intergovernmental Review of Federal Programs. Any comments received are addressed in the final environmental document. The Advance Notification package is included in **Appendix A**.

### **2.3 Public Involvement Plan**

A Public Involvement Plan (PIP), included in Appendix A, was created for this project outlining community outreach efforts. It presents the approach used to involve the public, public officials, the media, and government agencies throughout the project. A property owner mailing list was developed for mailing of newsletters and public meeting invitations. A public officials mailing list was also developed to notify representatives in the project area with newsletters, and meeting invitations. The PIP is in compliance with the “Project Development and Environment Manual” and Section 339.155, Florida Statute.

## **3.0 PUBLIC MEETINGS**

### **3.1 Public Kickoff Meeting – April 9 through 22, 2020**

[Due to limitations on public meetings during the COVID-19 pandemic, FDOT created a Virtual Preview in place of the in-person kickoff meetings.](#)

[FDOT scheduled Public Kickoff Meetings for April 9, 2020, in Sarasota County and April 16, 2020 in Manatee County, but these meetings were postponed due to COVID-19 restrictions. Public Kickoff Meetings were also scheduled for the I-75 South Corridor in March and notifications were sent out for the South Corridor. The project team felt that since notifications had been sent for the originally scheduled meeting for the South Corridor, and the materials were ready for public viewing, it was important to follow through with sharing the information with the public for both the North and South Corridors. The in-person meetings were reformatted as a Virtual Preview where all the materials planned for the Public Kickoff Meeting were posted on the project website for the public to review and provide comment.](#)

This virtual preview was hosted on the project website, [www.swflinterstates.com](http://www.swflinterstates.com) and was available to the public from April 9, - April 22, 2020. The information provided introduced the project and the study process. This preview consisted of the information that was to be shown at the in-person public meeting posted on the project website. The public was also able to contact the project team with any questions or comments.

Emails with an invite to the virtual preview were sent to elected/appointed officials by Kati Sherrard, Interstate Program Manager on March 16, 2020 and April 6, 2020. Nicole Harris, the Southwest Connect Project Manager, sent the invite email to the other interested parties when the materials were available on April 9, 2022. Information was posted on social media by FDOT. Notification emails, screenshot of the website, and social media announcements can be found in **Appendix B**.

A total of 408 citizens visited the North Corridor Preview webpage between April 9 and April 24, 2020. This meeting sought the public's input on the study in general, shared the study's schedule, and presented a preview of the next steps to be taken. No formal presentation was made, but project display boards, traffic data, as well as information on the noise evaluation process were available. Additionally, a video describing managed lanes was available for viewing and download. A handout was also available for attendees to download when they entered the virtual preview on the website. The website analytics, meeting handout, and the 3 comments received during the preview timeframe and in the 10 days following can be found in **Appendix C**.

### **3.2 Virtual Public Outreach Meeting - June 15 through 25, 2021**

A Virtual Public Outreach Meeting was held June 15 through June 25, 2021, with a live Q&A on June 15, 2021 from 5 to 6:30 p.m. online via GoToWebinar. FDOT held the Q&A and virtual public outreach meeting to provide important information on the project and to collect any comments attendees/participants would like to submit into public record during its initial phase. Exhibits included a Welcome Video, Display Boards, Right of Way Acquisition Handout, Traffic Noise Evaluation Process Brochures, Interchange Information, and Managed Lanes Presentation.

Emails inviting elected officials to attend were sent by Kevin Ingle, Interim Director of Transportation Development on May 18, 2021. Emails inviting appointed officials to attend were sent by Kati Sherrard, Interstate Program Manager on May 18, 2021. An email was also sent to stakeholders/interested parties on May 18, 2021 by Nicole Harris, Southwest Connect Project Manager. The outreach event was posted on the FDOT public meeting website on May 25, 2021. A postcard invite was mailed to property owners whose property lies, in whole or part, within at least 300 feet of the right-of-way of each project alternative (Section 339.155 FS), 300 feet from the centerline of cross streets, and 1,000 feet on either side of I-75 at interchanges, as well as other local citizens who may be impacted by the construction of this project. This postcard also listed how to request project information in Spanish. FDOT also published a legal advertisement in the Sarasota Herald-Tribune as well as an advertisement in the *Florida Administrative*

*Register* on June 4, 2021. FDOT distributed a press release on June 10, 2021 to inform the local media of the outreach event. Notification emails, advertisements, screenshot of the website announcements, press release, mailing list and newsletter invite can be found in **Appendix D**.

Attendees were provided with a presentation and an opportunity provide questions or comments. The website analytics, meeting handout, and the 37 comments received during the outreach period can be found in **Appendix E**.

### **3.3 Public Outreach Meeting - February 20 through March 6, 2023**

A hybrid (virtual and in-person) public meeting was held from February 20 through March 6, 2023 with a live online Question & Answer Session held on February 21, 2023 at 6 p.m. and an in-person open house held on February 23, 2023 from 5:00 p.m. to 7:00 p.m. at the Realtor Association of Sarasota & Manatee, 2320 Cattlemen Road, Sarasota, FL 34232.

Emails inviting elected officials to attend were sent by John Kubler, Director of Transportation Development on January 26, 2023. Emails inviting appointed officials to attend were sent by Kati Sherrard, Interstate Program Manager on January 26, 2023. An email was also sent to stakeholders/interested parties on January 26, 2023 by Nicole Harris, Southwest Connect Project Manager. The public meeting was posted on the FDOT public meeting website on January 25, 2023. A newsletter invite was sent to 1,347 property owners in Sarasota County and 3,277 property owners in Manatee County. These were property owners whose property lies, in whole or part, within at least 300 feet of the right-of-way of each project alternative (Section 339.155 FS), 300 feet from the centerline of cross streets, and 1,000 feet on either side of I-75 at interchanges, as well as other local citizens who may be impacted by the construction of this project. This newsletter also listed how to request project information in Spanish. An advertisement was also placed in the *Florida Administrative Register* on February 13, 2023. FDOT distributed press releases on February 15, 2023 and February 21, 2023 to inform the local media of the outreach event. FDOT also published a legal advertisement on February 10, 2023 in the Sarasota Herald-Tribune. Notification emails, legal advertisements, screenshot of the website announcements, press releases, mailing list and newsletter invite can be found in **Appendix F**.

A total of 70 (38 virtual Q&A; 32 in-person) citizens including 0 elected officials signed in at the public meeting. Attendees were offered the opportunity to express their views to FDOT staff regarding specific location, design, social, economic, and environmental effects associated with the Master Plan. During the in-person public meeting, project information was shared on 18 exhibit boards with staff on-hand to answer questions. A video explaining the managed lanes concept played continuously. Exhibit boards included a variety of information including aerial photographs of the typical sections, identified Year of Need, proposed projects.

Attendees were provided with project newsletters, FDOT noise brochures and Right of Way handouts. Comment forms were also available and 10 completed comment forms

were collected at the in-person meeting. Additionally, 8 comments were received through the project website during this outreach period for a total of 18 comments received. The sign-in sheets, meeting handout, and comment sheets from the meeting, as well as those received in the 10 days following, can be found in **Appendix G**.

## **4.0 AGENCY AND STAKEHOLDER COORDINATION**

### **4.1 Agency Presentations**

Numerous agencies were identified that would have an interest in the [I-75 North Corridor Master Plan](#). Meet and Greet meetings were held in December 2019 with staff from the [Sarasota/Manatee Metropolitan Planning Organization \(MPO\)](#) and [Charlotte County MPO](#), [Manatee County](#) and [Charlotte County](#), the cities/towns of [Longboat Key](#), [Palmetto](#), [Punta Gorda](#), [Sarasota](#), [Venice](#), and [Port Manatee](#). Additionally, an update presentation was made to the [Sarasota/Manatee MPO](#) on February 22, 2021. An update presentation was made to the [Joint Technical Advisory Committee](#) between the [Sarasota/Manatee MPO](#) and the [Charlotte County-Punta Gorda MPO](#) on January 9, 2023. Meeting dates, attendance and topics of conversation are included in **Appendix H**.

## **5.0 OTHER PUBLIC OUTREACH ACTIVITIES**

### **5.1 Project Website**

A project website was available at <http://www.swflinterstates.com/i75-north-corridor>. The website was updated monthly to keep the public apprised of the project's status. The website featured [a project location map](#), [project goals](#), [project schedule](#), [project documents](#) and [public meeting materials](#). The site also included a form to leave a comment or to register for the project contact list.

### **5.2 Additional Public Comment**

Additional public comment was received through the website and by mail/email throughout the course of the study. These comments are included in **Appendix I**.

### **5.3 Other Outreach Methods**

Additional outreach methods used to notify and involve the public in the project include [social media posts](#). Much of this was done in conjunction with the public meetings and the posts can be found in those sections of this report.

Mr. Chris Stahl, Clearinghouse Coordinator  
State Clearinghouse Project Review  
Office of Intergovernmental Programs  
Department of Environmental Protection  
2600 Blair Stone Road, Mail Station 47  
Tallahassee, FL 32399-2400

**SUBJECT: Advance Notification**  
**I-75 (SR 93) North from CR 777 (North River Road) to Moccasin Wallow Road**  
**ETDM Number: 14399**  
**Federal Aid Project Number: TBD**  
**Work Program Item Segment Numbers: 442518-1-22-01, 442518-2-22-01,**  
**442518-3-22-01, & 442518-4-22-01**  
**Sarasota and Manatee Counties, Florida**

Dear Mr. Stahl:

This Advance Notification (AN) Package is being sent to your office for distribution to state agencies that conduct federal consistency reviews (consistency reviewers) in accordance with the Coastal Zone Management Act and Presidential Executive Order 12372. Although we will request specific comments during the permitting process, we are asking that consistency reviewers examine the attached information and provide us with their comments.

Consistency reviewers have forty-five (45) days from the Programming Screening Notification to provide their comments. Once you have received their comments, please submit a consistency determination for the State of Florida within sixty (60) days of the Programming Screen Notification. If you need more review time, send a written request for an extension to our office within the initial sixty (60)-day comment period.

This is a federal action. The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT. FDOT will determine what type of environmental documentation will be necessary. The determination will be based upon in-house environmental evaluations and comments received through coordination with other agencies. Please provide a consistency review for this project in accordance with the State's Coastal Zone Management Program.

Mr. Chris Stahl  
Page 2 of 2  
June 28, 2019

In addition, please review this project's consistency, to the maximum extent feasible, with the requirements of Chapter 163 of the Florida Statutes.

The project is currently under review through the Environmental Screening Tool (EST) as part of the Efficient Transportation Decision Making (ETDM) Programming Screen phase. The project is listed as #14399 I-75 (SR 93) North from CR 777 (North River Road) to Moccasin Wallow Road [Sarasota and Manatee Counties]. It is important to note that this project works together with ETDM Project #14400 I-75 (SR 93) South and ETDM Project #14398 I-4 (SR 400) to form a set of regional improvements to the interstate system.

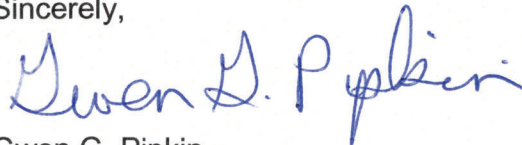

The Environmental Technical Advisory Team (ETAT) members may review this project on the ETDM website. Non-ETAT agencies may review this project on the public access website located at: <http://etdmpub.fl.a-etat.org/>.

Consistency reviewers have forty-five (45) days from the Programming Screen Notification to provide their comments. Once you have received their comments, please submit a consistency determination for the State of Florida within sixty (60) days of the Programming Screen Notification. If you need more review time, please send a written request for an extension to our office within the initial sixty (60)-day comment period.

Your comments should be submitted via the EST if you are an ETAT representative, or emailed or mailed to the District contact below:

Ms. Gwen G. Pipkin  
District Environmental Manager & ETDM Coordinator  
Florida Department of Transportation District One  
P.O. Box 1249  
Bartow, Florida 33831  
[gwen.pipkin@dot.state.fl.us](mailto:gwen.pipkin@dot.state.fl.us)

Sincerely,

Gwen G. Pipkin  
District Environmental Manager & ETDM Coordinator

**Snapshot Data From:** Current Draft Data

### a. Purpose and Need

The purpose of this project is to address the deficient operational capacity of Interstate 75 (I-75), also known as Florida's State Road (SR 93), from CR 777 (North River Road) in Sarasota County to Moccasin Wallow Road in Manatee County in order to accommodate future travel demand projected as a result of population and employment growth along the corridor. The project will evaluate the potential addition of managed lanes, including supporting additional general use lanes, collector-distributor roadways, and auxiliary lanes; interchange operational improvements will also be considered. Other goals of this project are to 1) preserve the operational integrity and regional functionality of I-75 (and, therefore, the regional transportation network) by complementing similar corridor improvements to both the north and south and 2) enhance emergency evacuation and response times. The need for this project is based on the following criteria:

#### **CAPACITY/ TRANSPORTATION DEMAND: Improve Operational Conditions**

The project is anticipated to improve traffic operations along I-75 by increasing capacity and better dispersing traffic (i.e., separating managed lanes traffic from general use traffic). The traffic dispersal and reduced congestion can decrease vehicle conflicts and, therefore, enhance travel conditions of the corridor.

According to the Sarasota/Manatee Metropolitan Planning Organization's (MPO) 2040 Long Range Transportation Plan (LRTP), Sarasota County's population is projected to increase by 36.5% from 379,448 persons in 2010 to 518,100 persons in 2040; employment is expected to increase by 25.8% from 213,000 jobs in 2010 to 267,900 jobs in 2040. Likewise, the LRTP reveals a 45.3% increase in Manatee County's population as it is projected to grow from 322,833 persons in 2010 to 469,100 persons in 2040; employment is expected to increase by 49.7%, from 153,000 jobs in 2010 to 229,000 jobs in 2040. Areas of concentrated population and employment growth within each county are present along the I-75 project segment.

The 2040 Future Delay/Congestion Map of the LRTP depicts severe congestion along the entire length of the I-75 project corridor. Under each of the five 2040 transportation network scenarios modeled for the development of the LRTP, most segments of I-75 have a volume to capacity (V/C) ratio of either 1.05 - 1.20 or higher than 1.20. Based on Federal Highway Administration guidance, a V/C ratio less than 0.85 generally indicates that adequate roadway capacity is available and vehicles are not expected to experience significant queues and delays. As the V/C ratio approaches 1.0, traffic flow may become unstable, and delay and queuing conditions may occur. Once the demand exceeds the capacity (a V/C ratio greater than 1.0), traffic flow is unstable and excessive delay and queuing is expected; the roadway is deemed deficient as it has surpassed its designated service volume and Level of Service (LOS) standard. The LRTP additionally identifies I-75 as a constrained corridor. The designation of "constrained" indicates that either physical (due to

environmental or geographic reasons) or political (due to environmental justice or local policies/planning) challenges will likely be associated with the corridor if a widening or capacity improvement is implemented.

The 2018 Annual Average Daily Traffic (AADT) volumes on the project segment range from 75,000 vehicles per day to 139,000 vehicles per day (1); as such, the existing LOS on the corridor ranges from B to E (2). Traffic volumes on the corridor are projected to increase in the range of 113,000 vehicles per day to 211,000 vehicles per day by 2045 (3). If the proposed project improvements do not occur by 2045, the operating conditions along the corridor will deteriorate resulting in LOS D through F. If the proposed improvements do occur, the project corridor is expected to operate at LOS A through D.

Sources:

(1) AADT derived from Florida Traffic Online, 2018.

(2) LOS based on FDOT Generalized Annual Average Daily Volumes - Table 1 Freeways.

(3) Future AADT (2045) derived from 2% growth rate.

### **AREA WIDE NETWORK/SYSTEM LINKAGE: Preserve Operational Integrity and Regional Functionality**

As part of Florida's Strategic Intermodal System (SIS) highway network, I-75 plays a significant role in facilitating commuter and freight traffic within the state. The proposed project improvements are part of a larger, regional set of projects on the interstate system to both the north and south (in Hillsborough, Pinellas, Polk, Charlotte, Lee, and Collier Counties) that are considering managed lanes and additional general purpose lanes, auxiliary lanes, etc. to increase the operational capacity of not only I-75 but I-4 and I-275 as well. The intent is for all of these project improvements to work together to improve the overall reliability and performance of the interstate system in moving high volumes of goods and people at efficient speeds. It is important to note that managed lanes also create an opportunity for the provision of efficient and reliable transit service. As such, these improvements are critical to enhancing regional mobility. They are also key in preserving the operational integrity and regional functionality of the I-75 corridor as a whole.

### **SAFETY: Enhance Emergency Evacuation and Response Times**

I-75 serves as part of the emergency evacuation route network designated by the Florida Division of Emergency Management. Also designated as an evacuation facility of Sarasota and Manatee Counties, I-75 is vital in facilitating traffic during emergency evacuation periods as it connects to other major arterials and highways of the state evacuation route network [such as CR 777 (North River Road) and US 301]. The project is anticipated to:

- Improve emergency evacuation capabilities by enhancing connectivity and accessibility to other major arterials designated on the state evacuation route network,
- Increase the volume of traffic that can be evacuated during an emergency event, and
- Allow for enhanced emergency access and incident response times due to the ability to maintain operational speeds within the managed lanes.

### **PROJECT STATUS**

The proposed improvements on I-75 from CR 777 (North River Road) to Moccasin Wallow Road are identified in the SIS FY 2018/19 - FY 2022/23 First Five-Year Plan for the Planning and Project Development and Environment (PD&E) phases and the SIS Long Range Cost Feasible Plan FY 2029 - FY 2045 for the Preliminary Engineering and Right-of-Way/Construction phases. This project is also included within the FY 2019 - FY 2024 FDOT Five-Year Work Program and the FY 2018/19 - FY 2021/22 FDOT State Transportation Improvement Program (STIP) with funding allocated for the Planning and PD&E phases. In addition, the project is identified in the Sarasota/Manatee MPO FY 2018/19 - FY 2022/23 Transportation Improvement Program (TIP) with funding allocated for the PD&E phase. Further, the project is depicted as a 2040 need on Figure 2-12: Roadway Needs Plan Map within the Sarasota/Manatee MPO 2040 LRTP.

## **b. Project Description**

This capacity improvement project involves the potential construction of managed lanes in each direction on Interstate 75 (I-75), also known as Florida's State Road (SR) 93, from CR 777 (North River Road) in Sarasota County to Moccasin Wallow Road in Manatee County. Additional general use lanes, collector-distributor roadways, and auxiliary lanes, as well as interchange operational improvements, are also being considered. As such, up to a fourteen-lane typical section is being explored.

It is important to note that there is opportunity to operate reliable, efficient transit service within the managed lanes, as well as provide connections to park and ride or kiss and ride lots located within the project area. Further, there is opportunity to provide improved or new bicycle and pedestrian accommodations as well as landscaping/streetscaping treatments on roadways connecting to or passing under the interstate to enhance bicycle and pedestrian circulation and access to area transit service.

I-75 (SR 93) supports vital commerce and tourism of the state as it connects employment and population centers within the western regions of Florida. It functions as the only north-south limited access facility on the state's west coast. I-75 (SR 93) is a designated state hurricane evacuation route and part of Florida's Strategic Intermodal System (SIS) highway network.

The project is approximately 39 miles in length and traverses the major urban areas of Sarasota and Bradenton in southwest Florida. It also crosses the navigable Manatee River in Manatee County near the northern project terminus. The functional classification of I-75 within the project limits is Urban Principal Arterial - Interstate. The project segment of I-75 (SR 93) consists of a six-lane divided typical section. Existing right-of-way along the corridor ranges from approximately 300 feet to 550 feet in width. While the proposed improvements are anticipated to be constructed primarily within the existing right-of-way, some additional right-of-way may be required. Specific right-of-way requirements will be determined during the Project Development and Environment Study.

## **c. Preliminary Environmental Discussion**

### **i. Social and Economic**

#### **1. Land Use Changes**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

The project corridor is located within Sarasota and Manatee Counties and traverses seven U.S. Census Designated Places including Bee Ridge, Bradenton, Ellenton, Fruitville, Lake Sarasota, Sarasota Springs, and Venice. The 500-foot project buffer primarily consists of residential, agricultural, commercial/retail/office, and vacant nonresidential land uses; a number of private golf courses also line the project corridor. There are additionally 22 Developments of Regional Impact and 41 Planned Unit Developments within the area. The 500-foot project buffer also includes two brownfields [Fruitville Brownfields Area and Former Workman Electronics Area] located southwest of the I-75 (SR 93) and SR 780 (Fruitville Road) interchange; five Florida Managed Areas; and one Florida Forever Board of Trustees (BOT) Project [Terra Ceia], which coincides with one of the Florida Managed Areas [Tampa Bay Estuarine Ecosystem - Terra Ceia]. According to the Future Land Use Maps of Sarasota and Manatee Counties, the area surrounding the project corridor is expected to continue to support current urban uses, particularly with the conversion of existing agricultural land. The project is anticipated to accommodate existing and proposed development within the area. For these reasons, minimal impacts or changes to proximate land uses are anticipated as a result of the project. A Sociocultural Effects Evaluation will be included in the Project Development and Environment Study scoping recommendations.

#### **2. Social**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

The project area primarily consists of residential, agricultural, commercial/retail/office, and vacant nonresidential land uses. Within the 500-foot project buffer, there are 22 Developments of Regional Impact, 41 Planned Unit Developments, and protected public lands. Other specific community features within the 500-foot project buffer include: six mobile home and RV parks; four homeowner and condominium associations [Townhomes at Lighthouse Cove II, Lagoon I at Tidewater Preserve, Riverside at Tidewater Preserve, and Westwood at Sunrise Country Club Section 1]; three group care facilities [Live Oak Manor, Aston Gardens at Pelican Point, Bradenton Alzheimer's Special Care Center]; one cemetery [Rubonia Terra Ceia Cemetery]; one civic center [Ellenton Ice Sports Complex]; three cultural centers [libraries]; one fire station; 17 health care facilities; one hospital [Complex Care Hospital at Ridgelake]; six laser facilities; one law enforcement facility; three religious centers; two schools [Keiser University and Everglades University]; four golf courses; six park and recreational facilities; seven existing recreational trails; six Office of Greenways and Trails (OGT) multi-use trail opportunities [three of which are also OGT hiking trail priorities and two of which are part of the Shared-Use Nonmotorized (SUN) Trail Network]; two OGT paddling trail opportunities [Paddle Manatee Trails Corridor and Paddle Sarasota Blueway]; and cultural resources. Compared to the demographic characteristics for Sarasota and Manatee Counties, the 500-foot project buffer contains a higher White population percentage than Manatee County and a near equal percentage to Sarasota County. Similarly, the 500-foot project buffer contains a lower Other Race population percentage than Manatee County and a near equal percentage to Sarasota County. Both counties have higher African American and Hispanic population percentages, as well as higher percentages of housing units with no vehicle available, compared to the 500-foot project buffer. While the 500-foot project buffer contains a higher percentage of individuals age 65 and over compared to Manatee County and a lower percentage compared to Sarasota County, the buffer area contains a lower percentage of individuals age 18 and under compared to Manatee County and a higher percentage compared to Sarasota County. The 500-foot project buffer has a higher median family income and a lower percentage of persons who speak English less than very well compared to both counties. Limited English Proficiency (LEP) accommodations will not likely be required during public involvement efforts of the Project Development phase. No further neighborhood division or social isolation is expected to occur as a result of the project. In the long term, the proposed project is anticipated to have positive effects on the social environment and cohesion of surrounding communities by enhancing access to residences, job opportunities, and essential services; enhancing safety conditions; and improving transit reliability. Potential improved or new bicycle and pedestrian accommodations, as well as the provision of landscaping/streetscaping treatments, on roadways connecting to or passing under the interstate will serve to enhance quality of life aspects of adjacent communities. However, given that access to residences, businesses, and community features could temporarily be affected during project construction and potential visual impacts to surrounding communities could occur if an additional elevated structure(s) is needed to accommodate the proposed improvements, overall impacts to community social elements are anticipated to be minimal. Both a Sociocultural Effects Evaluation and a Public Involvement Plan will be included in the Project Development and Environment Study scoping recommendations.

### **3. Relocation Potential**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

The project area predominantly consists of residential, agricultural, commercial/retail/office, and vacant nonresidential land uses. Numerous residences and businesses abut the right-of-way of the project corridor. Existing right-of-way along the corridor ranges from approximately 300 feet to 550 feet in width. While the proposed improvements are anticipated to be constructed primarily within the existing right-of-way, some additional right-of-way may be required. In addition, access to proximate residences and businesses may temporarily be affected and/or modified as a result of the project. Encroachment into surrounding parcels (if necessary) will be coordinated with the appropriate property owners. The proposed project improvements will be designed to minimize right-of-way acquisition to the greatest extent practicable. Specific right-of-way requirements will be determined during the Project Development and Environment Study. Based on the foregoing, moderate involvement regarding relocation potential is anticipated. Both a Sociocultural Effects Evaluation and Conceptual Stage Relocation Plan will be included in the Project Development and Environment Study scoping recommendations.

#### **4. Farmlands**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

The 200-foot project buffer consists of 1847.72 acres [47.09%] of soils classified as Farmlands of Unique Importance of which 69.77 [1.79%] are designated for agricultural purposes [crop and pastureland, nurseries and vineyards, other open lands (rural), row crops, specialty farms, and tree crops]. These soils are scattered along the length of the project corridor. It should be noted that most of the area along the project corridor has been developed. In addition, the majority of the project corridor occurs within the Sarasota - Bradenton Urbanized Area. Further, the Future Land Use Maps of both Sarasota and Manatee Counties indicate that the corridor will largely continue to support urban uses. However, since some farmland will remain along the project corridor and NRCS coordination will be required, minimal involvement regarding farmlands is anticipated. A Farmland Conversion Impact Rating Form [NRCS-CPA-106] will be included in the Project Development and Environment Study scoping recommendations.

#### **5. Aesthetic Effects**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

The project area is composed primarily of residential, agricultural, commercial/retail/office, and vacant nonresidential land uses; the corridor traverses seven U.S. Census Designated Places including: Bee Ridge, Bradenton, Ellenton, Fruitville, Lake Sarasota, Sarasota Springs, and Venice. Aside from 22 Developments of Regional Impact and 41 Planned Unit Developments within the 500-foot project buffer, specific community features associated with aesthetics that occur within this same buffer area include: six mobile home and RV parks, four homeowner and condominium associations, three group care facilities, one cemetery, four golf courses, five Florida Managed Areas, six park and recreational facilities, seven existing recreational trails, six Office of Greenways and Trails (OGT) multi-use trail opportunities [three of which are also OGT hiking trail priorities and two of which are part of the Shared-Use Nonmotorized (SUN) Trail Network], two OGT paddling trail opportunities [Paddle Manatee Trails Corridor and Paddle Sarasota Blueway], and cultural resources. While an additional elevated structure(s) could be needed to accommodate the proposed project improvements, impacts of views/vistas from/of the interstate and surrounding area are anticipated to be limited. In addition, proximate land uses along the corridor are not expected to change; as such, the project appears to be consistent with the future land use vision and aesthetic character of the corridor. Further, as part of the project, potential inclusion of improved or new bicycle and pedestrian accommodations as well as the provision of landscaping/streetscaping treatments on roadways connecting to or passing under the interstate could enhance aesthetic aspects of adjacent communities. Overall, minimal involvement regarding aesthetic effects is anticipated. A Sociocultural Effects Evaluation will be included in the Project Development and Environment Study scoping recommendations.

#### **6. Economic**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

I-75 (SR 93) is part of Florida's Strategic Intermodal System (SIS) highway network, providing regional access to employment centers, agricultural lands, and residential areas across the state as well as facilitating the movement of significant commuter, visitor, and freight traffic. Specific economic features that occur within the 500-foot project buffer include: two brownfields, 22 Developments of Regional Impact, and 41 Planned Unit Developments. The proposed project improvements are part of a larger, regional set of projects on the interstate system to the north and south [in Hillsborough, Pinellas, Polk, Charlotte, Lee, and Collier Counties] that are considering managed lanes and additional general purpose lanes, auxiliary lanes, etc. to increase the operational capacity of not only I-75 (SR 93) but I-4 and I-275 as well. The intent is for all of the project improvements to work together to improve the overall reliability and performance of the interstate system in moving high volumes of goods and people at efficient speeds. This, in turn, is expected to enhance access to existing employment centers and attract new employment to the area. While

the proposed improvements to I-75 (SR 93) intend to enhance economic conditions of the surrounding area by accommodating travel demand projected as a result of population and employment growth along the corridor, access to proximate businesses along the corridor may temporarily be affected and/or modified during project construction. In addition, depending on project right-of-way needs, some businesses have the potential to be displaced due to the proposed improvements. For these reasons, overall economic impacts are anticipated to be minimal. A Sociocultural Effects Evaluation will be included in the Project Development and Environment Study scoping recommendations.

## **7. Mobility**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

I-75 (SR 93) is classified as a six-lane divided Urban Principal Arterial - Interstate with a maximum speed limit of 70 miles per hour. As part of Florida's Strategic Intermodal System (SIS) highway network and one of the only limited access facilities on the west coast of Florida, I-75 (SR 93) supports vital commerce and tourism of the state as it connects employment and population centers within the western regions of Florida. The project is anticipated to improve traffic operations along I-75 (SR 93) and accommodate future travel demand projected as a result of population and employment growth along the corridor by increasing capacity and better dispersing traffic [i.e., separating managed lanes traffic from general use traffic]. The traffic dispersal and reduced congestion can decrease vehicle conflicts and, therefore, enhance travel conditions of the corridor. This, in turn, will enhance evacuation capabilities as well as emergency access and incident response times within the area as I-75 (SR 93) serves as part of the emergency evacuation route network of the state. The project is within two transportation disadvantaged service provider areas [Manatee County Area Transit and Sarasota County Area Transit]. Nine local transit routes cross or operate along I-75 (SR 93); existing and future trails are additionally present within the project vicinity. It is important to note that there is opportunity to operate reliable, efficient transit service within the managed lanes as well as provide connections to park and ride or kiss and ride lots located within the project area. Further, there is opportunity to provide improved or new bicycle and pedestrian accommodations as well as landscaping/streetscaping treatments on roadways connecting to or passing under the interstate to enhance/encourage bicycle and pedestrian movements/circulation and access to area transit service. The proposed improvements are part of a larger, regional set of projects on the interstate system to the north and south [in Hillsborough, Pinellas, Polk, Charlotte, Lee, and Collier Counties] that are considering managed lanes and additional general purpose lanes, auxiliary lanes, etc. to increase the operational capacity of not only I-75 (SR 93) but I-4 and I-275 as well. The intent is for all of the project improvements to work together to improve the overall reliability and performance of the interstate system in moving high volumes of freight and people at efficient speeds. Overall, the project improvements are critical to enhancing regional mobility and key in preserving the operational integrity and regional functionality of the I-75 (SR 93) corridor as a whole. A Sociocultural Effects Evaluation will be included in the Project Development and Environment Study scoping recommendations.

## **ii. Cultural**

### **1. Section 4(f) Potential**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

Potentially protected Section 4(f) resources within the 500-foot project buffer include: six park and recreational facilities; seven existing recreational trails; six Office of Greenways and Trails (OGT) multi-use trail opportunities [three of which are also OGT hiking trail priorities and two of which are part of the Shared-Use Nonmotorized (SUN) Trail Network]; two OGT paddling trail opportunities [Paddle Manatee Trails Corridor and Paddle Sarasota Blueway]; five Florida managed areas; and one Florida Forever Board of Trustees (BOT) Project [Terra Ceia], which coincides with one of the Florida Managed Areas [Tampa Bay Estuarine Ecosystem - Terra Ceia]. Other potentially protected Section 4(f) resources within the noted buffer area include: one National Register of Historic Places (National Register)-eligible resource group as well as a number of other cultural resources which have not been evaluated by the State Historic Preservation Officer (SHPO) for National Register-eligibility [including previously recorded archaeological sites, previously recorded and unrecorded historic resources, and potential or unmarked burials]. Moderate involvement regarding Section 4(f) potential is anticipated due to the presence of recreational features as well as known and potential additional National Register-eligible cultural resources within proximity to the project corridor. A Section 4(f) Determination of Applicability Form [Form No. 650-

050-45] will be included in the Project Development and Environment Study scoping recommendations.

## **2. Historic and Archaeological Sites**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

Much of the project corridor was previously surveyed between 2008 and 2016. Eight previously recorded archaeological sites are within 500 feet of the corridor; none have been evaluated by the State Historic Preservation Officer (SHPO). There are 15 previously recorded historic resources within the 500-foot buffer, including structures, resource groups, and one ca.1912 historic cemetery. Most of these resources are either National Register-ineligible or have not been evaluated by the SHPO. There is a potential for unmarked burials to extend outside the currently defined boundaries of the cemetery; any proposed subsurface improvements will need to consider this. Property appraiser data suggests the potential for over 70 unrecorded historic resources within 500 feet of the corridor. Based on the number of known and potential resources within the project vicinity, moderate involvement regarding historic and archaeological sites is anticipated. This degree of effect may be revised to substantial if any subsurface improvements are proposed adjacent to the historic cemetery. A Cultural Resource Assessment Survey will be included in the Project Development and Environment Study scoping recommendations.

## **3. Recreation Areas**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

The following recreational areas/features are reported within the 500-foot project buffer: five Florida managed areas; one Florida Forever Board of Trustees (BOT) Project [Terra Ceia], which coincides with one of the Florida Managed Areas [Tampa Bay Estuarine Ecosystem - Terra Ceia]; four golf courses; six park and recreational facilities; seven existing recreational trails; six Office of Greenways and Trails (OGT) multi-use trail opportunities [three of which are also OGT hiking trail priorities and two of which are part of the Shared-Use Nonmotorized (SUN) Trail Network]; and two OGT paddling trail opportunities [Paddle Manatee Trails Corridor and Paddle Sarasota Blueway]. While the proposed improvements are anticipated to be constructed primarily within the existing right-of-way, some additional right-of-way may be required. As such, moderate involvement regarding recreation areas is anticipated given the proximity of some of these amenities to the project corridor and the fact that access to and enjoyment of these noted features may temporarily be impacted during project construction.

## **iii. Natural**

### **1. Wetlands and Surface Waters**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

The National Wetlands Inventory database reports a total of 389.43 acres [9.92%] of palustrine, estuarine, riverine, and lacustrine wetlands within the 200-foot project buffer; palustrine wetlands compose the majority. The SWFWMD Wetlands 2011 database identifies a total of 301.08 acres [7.66%] of wetlands within the same designated area consisting of cypress, emergent aquatic vegetation, freshwater marshes, intermittent ponds, mangrove swamps, saltwater marshes, shorelines, stream and lake swamps (bottomlands), wet prairies, and wetland forested mixed. Since the project area is mostly urban in nature, many of the noted wetlands are predominantly associated with ponds, canals/creeks, golf courses, and preserved areas within subdivisions that line the corridor. Other areas of concentrated wetlands are associated with the Manatee River, Braden River, and Myakka River as well as natural creeks, state and local parks, and Florida Managed Areas. Avoidance and minimization measures will be incorporated into the project's design, best management practices will be utilized during project activities, and compensatory mitigation will be provided for any adverse wetland impacts resulting from the proposed project improvements. Further, the proposed stormwater management

system for the project will be developed to meet the design and performance criteria established in the SWFWMD Environmental Resource Permit Applicant's Handbook Volumes I and II for the treatment and attenuation of discharges to nearby waterbodies. As such, stormwater runoff from the proposed project will be treated to prevent water quality impacts to nearby wetlands. Additional right-of-way acquisition may be necessary to accommodate improved stormwater management facilities. While the project improvements are anticipated to be constructed primarily within the existing right-of-way, some additional right-of-way may be required to accommodate the proposed added lanes as well as any new or enhanced stormwater management facilities. Given the proximity of the noted wetlands to the project, moderate involvement regarding wetland resources is anticipated. A Natural Resources Evaluation will be included in the Project Development and Environment Study scoping recommendations.

## **2. Water Quality and Quantity**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

Within the project corridor, stormwater runoff from I-75 (SR 93) is currently being collected and treated via vegetated swales located on both sides of the roadway before offsite conveyance to adjacent waterbodies, including existing stormwater ponds. The 200-foot project buffer occurs within the watersheds of 10 impaired waters; 30 waterbodies with verified nutrient or dissolved oxygen impairment or adopted/planned Total Maximum Daily Loads (TMDLs) also exist within the buffer area. Additionally present within the 200-foot project buffer are one Outstanding Florida Water (OFW) [Myakka River (lower part)], two principal aquifers of the State of Florida [Surficial Aquifer System and Other Rocks], one recharge area of the Floridan Aquifer, 10 Super Act wells, three National Pollutant Discharge Elimination System (NPDES) stormwater permits, 13 SWFWMD Dredge and Fill Permits, 705 SWFWMD Environmental Resource Permits, 16 SWFWMD Stormwater Management Permits, 34 SWFWMD Water Use Permits, and 585 SWFWMD Well Construction Permits. Further, the project crosses and/or abuts a number of rivers, canals, and creeks. The proposed stormwater management system will be developed to meet the design and performance criteria established in the SWFWMD Environmental Resource Permit Applicant's Handbook Volumes I and II for the treatment and attenuation of discharges to impaired waters and OFWs; the design will make every effort to maximize the treatment of stormwater runoff from the proposed roadway improvements. A Storm Water Pollution Prevention Program (SWPPP) will also be implemented [as required by the NPDES permits] to control the effects of stormwater runoff during construction. In addition, the Basin Management Action Plan for the Manatee River Basin will be consulted. For these reasons, minimal involvement regarding water quality and quantity resources is anticipated. A Water Quality Impact Evaluation, and potentially a Pond Siting Report, will be included in the Project Development and Environment Study scoping recommendations.

Within the project corridor, stormwater runoff from I-75 (SR 93) is currently being collected and treated via vegetated swales located on both sides of the roadway before offsite conveyance to adjacent waterbodies, including existing stormwater ponds. The 200-foot project buffer occurs within the watersheds of 10 impaired waters; 30 waterbodies with verified nutrient or dissolved oxygen impairment or adopted/planned Total Maximum Daily Loads (TMDLs) also exist within the buffer area. Additionally present within the 200-foot project buffer are one Outstanding Florida Water (OFW) [Myakka River (lower part)], two principal aquifers of the State of Florida [Surficial Aquifer System and Other Rocks], one recharge area of the Floridan Aquifer, 10 Super Act wells, three National Pollutant Discharge Elimination System (NPDES) stormwater permits, 13 SWFWMD Dredge and Fill Permits, 705 SWFWMD Environmental Resource Permits, 16 SWFWMD Stormwater Management Permits, 34 SWFWMD Water Use Permits, and 585 SWFWMD Well Construction Permits. Further, the project crosses and/or abuts a number of rivers, canals, and creeks. A Storm Water Pollution Prevention Program (SWPPP) will also be implemented [as required by the NPDES permits] to control the effects of stormwater runoff during construction. In addition, the Basin Management Action Plan for the Manatee River Basin will be consulted. For these reasons, minimal involvement regarding water quality and quantity resources is anticipated. A Water Quality Impact Evaluation, and potentially a Pond Siting Report, will be included in the Project Development and Environment Study scoping recommendations.

## **3. Floodplains**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

According to the DFIRM (SFHA) 100 Year Flood Zones data, 511.18 acres [13.02%] of the 200-foot project buffer occur within the 100-year floodplain [Flood Zones AE and A]. The 100-year floodplain is located throughout the length of the project corridor; it is primarily concentrated where the project crosses the Manatee River and Myakka River. Floodplain compensation associated with project impacts will be addressed through necessary agency coordination. For this reason and due to the extent of 100-year floodplain within the project vicinity, moderate involvement regarding floodplains is anticipated. A Location Hydraulic Report will be included in the Project Development and Environment Study scoping recommendations.

#### **4. Coastal Zone Consistency**

Coastal Zone Consistency Determination is Required: **Yes**  
Project is subject to a consistency review as required by **15 CFR 930**.

#### **5. Wildlife and Habitat**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

The 200-foot project buffer occurs within the Greater Charlotte Harbor, Greater Tampa Bay, and Sarasota Bay Ecosystem Management Areas; FWS Consultation Area and Service Area for the Florida scrub jay; Occasional Range for the Florida black bear; critical habitat for the West Indian manatee; Rare and Imperiled Fish Habitat for the mangrove rivulus; and Core Foraging Area for the wood stork. The project also crosses and/or abuts Tom Bennett Park [a Manatee County owned park that contains conservation areas]; five Florida Managed Areas [Tampa Bay Estuarine Ecosystem - Terra Ceia, Sleeping Turtles Preserve North, Fox Creek, Sleeping Turtles Preserve South, and Scherer Thaxton Preserve]; one Florida Forever Board of Trustees (BOT) Project [Terra Ceia], which coincides with one of the Florida Managed Areas [Tampa Bay Estuarine Ecosystem - Terra Ceia]; priority Ecological Resource Conservation Areas of The Nature Conservancy; and three prescribed burning areas [portions of three of the Florida Managed Areas]. Per the Florida Natural Areas Inventory (FNAI) database, five endangered or rare plant and animal species have the potential to occur within the 200-foot project buffer [American alligator, elongate june beetle, Florida long-tailed weasel, golden leather fern, and gopher tortoise]. Other wildlife and habitat related resources located within the 200-foot project buffer include: three bald eagle nesting territories, two FWC Manatee Protection Zones, and two Florida black bear nuisance reports. Avoidance and minimization measures will be implemented for the noted species to the greatest extent practicable. In addition, agency coordination will take place to address potential project impacts to each species. While the project is predominantly urban in nature, moderate involvement regarding wildlife and habitat resources is anticipated due to the number of sensitive resources within proximity to the project and the fact that the project crosses protected lands. A Natural Resources Evaluation will be included in the Project Development and Environment Study scoping recommendations.

#### **6. Coastal and Marine**

##### **Project PED Comments**

Refer to Analysis Area PED Comments.

##### **Analysis Area PED Comments**

###### **Alternative #1**

One Outstanding Florida Water (OFW) [Myakka River (lower part)] is reported within the 200-foot project buffer. The project occurs within four Coastal Assessment Framework drainage areas [Charlotte Harbor Estuarine Drainage Area, Sarasota Bay Estuarine Drainage Area, Tampa Bay Estuarine Drainage Area, and Coastal Drainage Area G056 (Sarasota Bay)] and two NOAA marine protected areas [manatee protection zones]. It also occurs within coastal counties pursuant to the Coastal Zone Management Act (CZMA) and crosses the Manatee River, Braden River, Myakka River, and Salt Creek [which is tidally-influenced at this location]. Therefore, additional interagency coordination associated with the CZMA noticing requirements is anticipated. The project [including the proposed stormwater management system] will be designed to meet state water quality and quantity requirements, avoidance and minimization measures will be utilized for the proposed design, and best management practices will be adhered to during construction to prevent impacts [primarily siltation] to nearby estuarine habitats. For these reasons, minimal involvement regarding coastal and marine resources is anticipated. A Natural Resources Evaluation will be included in the Project Development and Environment Study scoping recommendations.

## **iv. Physical**

### **1. Noise**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

Large residential subdivisions and golf courses line the project corridor. Protected public lands are also in proximity to the project. Other community features within the 200-foot project buffer that may be sensitive to noise and vibration effects include: four mobile home and RV parks, one homeowner and condominium association, one group care facility, one cemetery, two health care facilities, one laser facility [The Eye Associates], three libraries, one religious center, two golf courses, four park and recreational facilities, six existing recreational trails, six Office of Greenways and Trails (OGT) multi-use trail opportunities [three of which are also OGT hiking trail priorities and two of which are part of the Shared-Use Nonmotorized (SUN) Trail Network], two OGT paddling trail opportunities, and cultural resources. It should be noted that eight FDOT precast concrete noise barriers presently exist along the corridor. Increased noise levels during construction and presumable noise level increases from higher traffic volumes/enhanced flow as a result of improved operational conditions along I-75 (SR 93) could have impacts on nearby residences and recreational features. However, given that the proposed improvements are anticipated to be constructed primarily within the existing right-of-way and additional abatement criteria will be considered to offset any potential unavoidable adverse effects, overall noise and vibration related impacts as a result of the project are anticipated to be minimal. A Noise Study Report will be included in the Project Development and Environment Study scoping recommendations.

### **2. Air Quality**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

The project is not located within a USEPA-designated Air Quality Maintenance Area or Non-Attainment Area for any of the six pollutants [ozone, carbon monoxide, sulfur dioxide, nitrogen dioxide, lead, and small particulate matter] specified by the USEPA in National Ambient Air Quality Standards; therefore, the Clean Air Act conformity requirements do not currently apply to this project. Minimal, localized impacts to air quality could occur as a result of fugitive dust and exhaust emissions generated from equipment during project construction; no permanent effects to air quality are anticipated. An Air Quality Technical Memorandum will be included in the Project Development and Environment Study scoping recommendations.

### **3. Contamination**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

The following potential sources of sub-surface contamination are reported within the 200-foot project buffer: two brownfields [Former Workman Electronics Area and Fruitville Brownfield Area]; 0.32-mile of abandoned railway; 31 storage tank contamination monitoring sites [of these sites: 21 are also petroleum contamination monitoring sites, 12 are Super Act risk sources, two are USEPA Resource Conservation and Recovery Act (RCRA) regulated facilities, and one is a hazardous waste facility]; five additional Super Act risk sources [one is also a hazardous waste facility]; six additional USEPA RCRA regulated facilities [two are also hazardous waste facilities and one is a Superfund hazardous waste site]; one additional hazardous waste facility; and one closed waste cleanup responsible party site. Moderate involvement regarding contamination is anticipated due to the proximity of these sources to the project corridor and the potential presence of unreported sources of subsurface contamination, especially given the presence of the brownfields located adjacent to the I-75 (SR 93) at SR 780 (Fruitville Road) interchange. A Contamination Screening Evaluation Report will be included in the Project Development and Environment Study scoping recommendations.

## **4. Infrastructure**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

Infrastructure-related features reported within the 200-foot project buffer include: three Federal Aviation Administration obstructions [towers], four limited use drinking water wells, 24 ORNL electric power transmission lines, one ORNL electric substation, 14 onsite sewage facilities, two solid waste facilities, three wastewater facilities, four wireless antenna structure locations, four USEPA water quality data monitoring stations, four BTS grade level railroad crossings, four RCI railroad crossings, and 1,204 linear feet of railroad [mainline and spur]. I-75 (SR 93) crosses a gas pipeline north of SR 70. Fiber optic cable markers, street lights, power lines, and utility cabinet boxes are scattered throughout the length of the corridor. Further, power lines, traffic lights, street lights, utility cabinet boxes, pedestrian signals, etc. are concentrated along the roadways connecting to the interstate via on- and off-ramps. Moderate involvement regarding infrastructure-related features is anticipated given potential conflicts with the extensive utilities present and the likelihood of additional right-of-way being required. A Utility Assessment Technical Memorandum will be included in the Project Development and Environment Study scoping recommendations.

## **5. Navigation**

### **Project PED Comments**

Refer to Analysis Area PED Comments.

### **Analysis Area PED Comments**

#### **Alternative #1**

The project corridor crosses the Manatee River and Myakka River; both are navigable waterways. The project additionally crosses a number of canals, creeks, and the Braden River. It should be noted that the Braden River is not navigable around I-75 (SR 93) due to a flood control structure, located south of SR 70, that hinders access to open water. During project construction, only temporary closures of the waterways under the I-75 (SR 93) bridges [as approved by the USCG] are anticipated. However, moderate involvement regarding navigation is expected due to the need for USCG authorization for potential construction of any new structures over the waterways or improvements to the existing bridges. Any new structures will comply with USCG clearances for the waterways. A USCG Bridge Questionnaire and Navigation/Vessel Study will be included in the Project Development and Environment Study scoping recommendations.

## **v. Special Designations**

### **1. Special Designations: Outstanding Florida Waters**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

##### **Alternative #1**

One Outstanding Florida Water (OFW) [Myakka River (lower part)] is reported within the 200-foot project buffer. The project, including the proposed stormwater management system, will be developed to meet the design and performance criteria established in the SWFWMD Environmental Resource Permit Applicant's Handbook Volumes I and II for the treatment and attenuation of discharges to OFWs. Best management practices will also be utilized during project activities to prevent impacts [primarily siltation] to nearby estuarine habitats. For these reasons, minimal involvement regarding this specially-designated resource is anticipated.

### **2. Special Designations: Aquatic Preserves**

#### **Project PED Comments**

Refer to Analysis Area PED Comments.

#### **Analysis Area PED Comments**

**Alternative #1**

No designated Aquatic Preserves are reported within the 200-foot project buffer; therefore, no involvement regarding this specially designated resource is anticipated.

**3. Special Designations: Scenic Highways**

**Project PED Comments**

Refer to Analysis Area PED Comments.

**Analysis Area PED Comments**

**Alternative #1**

One scenic highway, Tamiami Trail Scenic Highway - Windows to the Gulf Coast Waters [also known as US 41], is located west of I-75 (SR 93) within the 200-foot project buffer. While an additional elevated structure(s) could be needed to accommodate the proposed project improvements, impacts of views/vistas from/of the scenic highway and surrounding area are anticipated to be limited. Therefore, minimal involvement regarding this specially-designated resource is anticipated.

**4. Special Designations: Wild and Scenic Rivers**

**Project PED Comments**

Refer to Analysis Area PED Comments.

**Analysis Area PED Comments**

**Alternative #1**

The Myakka River is designated as a Wild and Scenic River. No waters that are part of the Nationwide Rivers Inventory (NRI) are reported within the 200-foot project buffer. The project [including the proposed stormwater management system] will be designed to meet state water quality and quantity requirements, avoidance and minimization measures will be utilized for the proposed design, and best management practices will be adhered to during construction to prevent impacts to proximate sensitive waters. For these reasons, minimal involvement regarding this specially-designated resource is anticipated.

**d. Anticipated Permits**

Permit	Type	Conditions	Assigned By	Date
Bridge Permit	USCG		FDOT District 1	02/12/19
Section 404 - Individual or General	USACE		FDOT District 1	06/24/19
Environmental Resource Permit	Water	[SWFWMD]	FDOT District 1	06/24/19
National Pollutant Discharge Eliminated System	FDEP		FDOT District 1	06/24/19

**e. Anticipated Technical Studies**

Technical Study Name	Type	Conditions	Assigned By	Date
Location Hydraulics Report	ENGINEERING		FDOT District 1	06/24/2019
Noise Study Report	ENVIRONMENTAL		FDOT District 1	06/24/2019

## Florida Department of Transportation

RON DESANTIS  
GOVERNOR

801 N. Broadway Avenue  
Bartow, Florida 33830

KEVIN J. THIBAUT  
SECRETARY

March 20, 2020

**Subject: Notification of Public Kickoff Meeting**  
Interstate 75 (I-75) from North River Road to Moccasin Wallow Road  
Managed Lanes Study, Sarasota and Manatee Counties, Florida  
Financial Project ID Numbers: 442518-1, 442518-2, 442518-3  
Efficient Transportation Decision Making Number: 14399

Dear Property Owner or Other Interested Stakeholder:

The Florida Department of Transportation (FDOT), District One, invites you to attend a public kickoff meeting to learn about the Managed Lanes Study for I-75 from North River Road in Sarasota County to Moccasin Wallow Road in Manatee County. The purpose of this project is to analyze and put in place an integrated and comprehensive transportation solution that meets the needs of the near term, and accommodates the evolving and innovative transportation solutions of tomorrow.

For your convenience, the Department is holding two separate, but identical public kickoff meetings within the I-75 North Corridor project limits. Both meetings will be held in an informal, open-house format and are an opportunity to introduce the project and study process, present information regarding existing conditions, and receive feedback.

**Thursday, April 09, 2020**  
**5:30 P.M. to 7:30 P.M.**

Realtor Association of Sarasota and Manatee  
2320 Cattlemen Road  
Sarasota, Florida 34232

**Thursday, April 16, 2020**  
**5:00 P.M. to 7:00 P.M.**

Manatee Technical College  
6305 State Road 70 East  
Bradenton, Florida 34203

FDOT is sending notices to property owners located within 300 feet on either side of I-75 right-of-way within the project limits, in accordance with Florida Statutes Section 339.155(5)(c). FDOT encourages all interested people to attend and express their views regarding this study.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project is being, or has been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT.

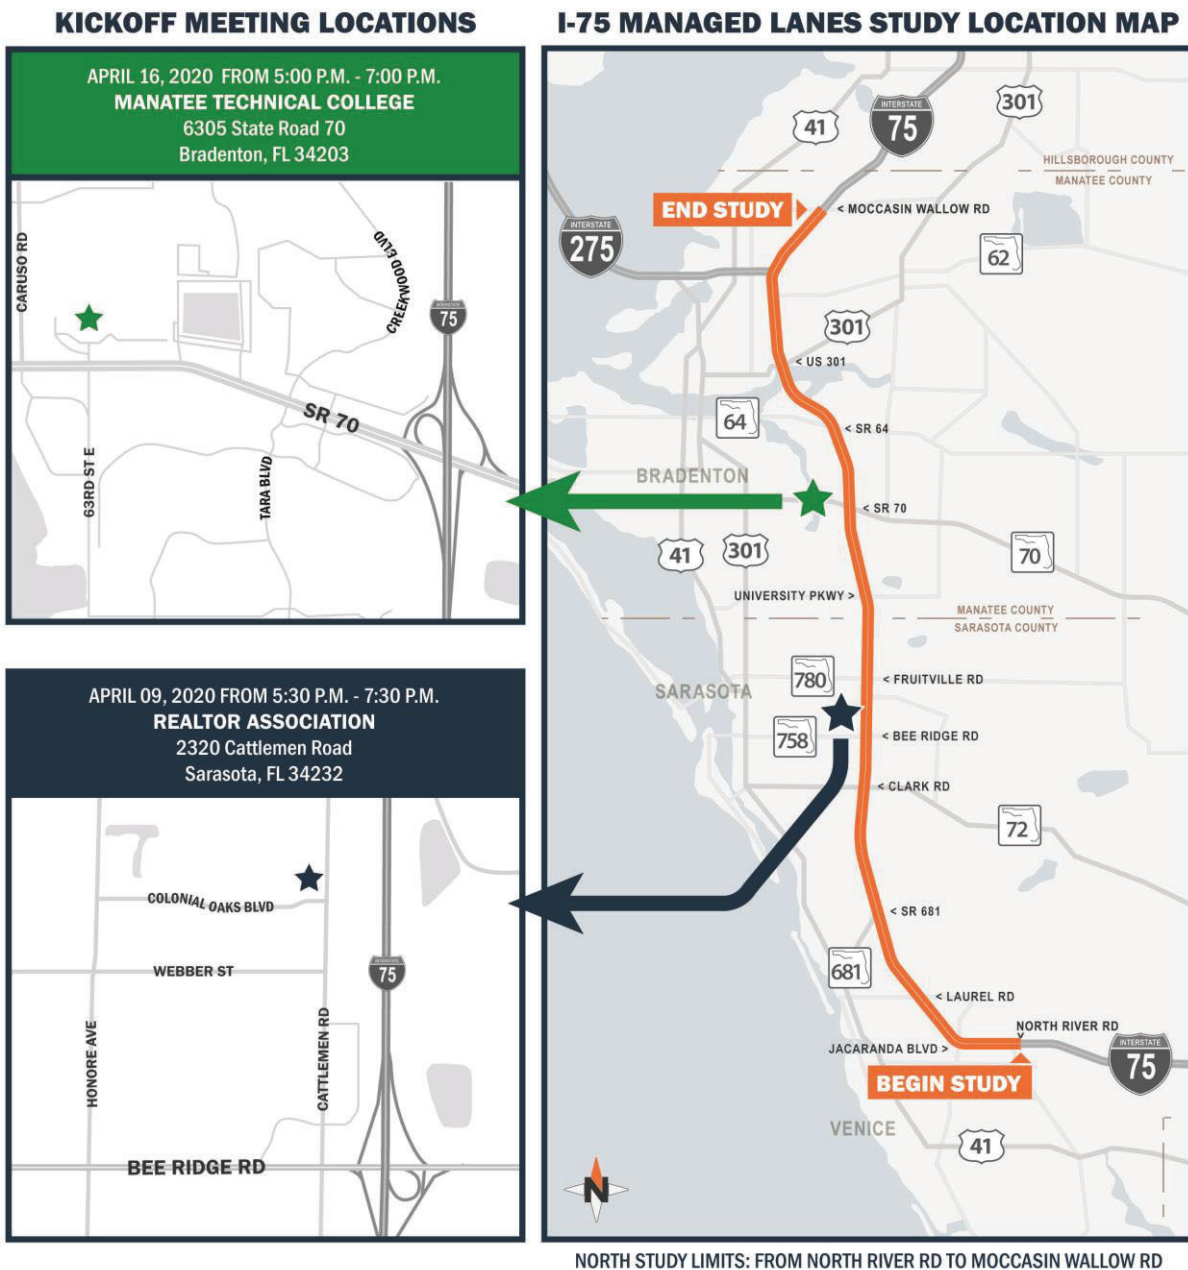

Persons who require accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Nicole Harris, by phone at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us) at least seven days prior to the meeting. If you are hearing or speech impaired, please contact us by using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Cynthia Sykes, FDOT District One Title VI Coordinator by email at [cynthia.sykes@dot.state.fl.us](mailto:cynthia.sykes@dot.state.fl.us).

If you require further information, please contact the Project Manager, Ms. Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). Good Afternoon,

In an effort to curb the spread of COVID-19, officials at the Florida Department of Transportation (FDOT), District One have postponed the public kickoff meetings to learn about the I-75 Connect Managed Lanes Study in Sarasota and Manatee counties. The meetings were previously scheduled for Thursday, April 9, 2020 at the Realtor Association of Sarasota and Manatee and Thursday, April 16, 2020 at the Manatee Technical College.

The Department will make every effort to reschedule these meetings at a future to-be-determined date. In the meantime, the meeting information will be available to the public through a virtual preview on the project website **beginning Thursday, April 9, 2020.**

# INTERSTATE 75 (I-75) NORTH CORRIDOR MANAGED LANES STUDY

STUDY LIMITS: I-75 from North River Road to Moccasin Wallow Road | FPID: 442518-1, 442518-2, 442518-3 | ETDM No: 14399

With this study's previously scheduled public kickoff meetings being postponed due to COVID-19, officials at the Florida Department of Transportation (FDOT), District One have decided to make the planned meeting materials available to the public through an online preview.

# PUBLIC MEETING PREVIEW

AVAILABLE **APRIL 9, 2020**

MOVING FORWARD TOGETHER

**Subject:** I-75 Connect North Managed Lanes Study Kickoff Meetings POSTPONED, Sarasota and Manatee Counties, Florida, FPIDs: 442518-1, 442518-2, 442518-3

Good Morning,

In an effort to curb the spread of COVID-19, officials at the Florida Department of Transportation (FDOT), District One are taking the precautionary steps of postponing the public kickoff meetings to learn about the I-75 Connect Managed Lanes Study in Sarasota and Manatee counties. The meetings were previously scheduled for Thursday, April 9, 2020 at the Realtor Association of Sarasota and Manatee and Thursday, April 16, 2020 at the Manatee Technical College.

The Department will make every effort to reschedule these meetings at a future to-be-determined date. Various format options for these meetings are being explored. When more information is available, you can expect to receive a follow-up invite with those details.

For more on COVID-19, the Florida Department of Health (DOH) is making up-to-date information available at <http://www.floridahealth.gov/diseases-and-conditions/COVID-19/>

If you require additional information, please contact the Project Manager, Ms. Nicole Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). # Florida Administrative Register Notice of Meeting/Workshop Hearing DEPARTMENT OF TRANSPORTATION

The Florida Department of Transportation, District One

Announces a public meeting to which all persons are invited.

DATE AND TIME Thursday, April 09, 2020, “open house” from 5:30 – 7:30 p.m. (Sarasota County) and Thursday, April 16, 2020, “open house” from 5 – 7 p.m. (Manatee County)

PLACE Sarasota County: Realtor Association of Sarasota and Manatee, 2320 Cattlemen Road, Sarasota, FL 34232 and  
Manatee County: Manatee Technical College, 6305 State Road 79 East, Bradenton, FL 34203

## GENERAL SUBJECT MATTER TO BE CONSIDERED:

The Florida Department of Transportation (FDOT), District One, will conduct two separate, but identical public kickoff meetings for the Interstate 75 (I-75) North Corridor Managed Lanes study. Study limits include I-75 from North River Road in Sarasota County to Moccasin Wallow Road in Manatee County. The purpose of this project is to analyze and put in place an integrated and comprehensive transportation solution, that meets the needs of the near term, and accommodates the evolving and innovative transportation solutions of tomorrow. These public meetings are being held as part of the current Managed Lanes Study. These meetings will be in an open house format with representatives from the FDOT available to answer questions. Informational handouts, maps, and graphic displays will be available at the meetings.

A copy of the agenda may be obtained by contacting:

Ms. Nicole Harris, P.E., I-75 Project Manager, by phone at 863-519-2335 or by email at [Nicole.Harris@dot.state.fl.us](mailto:Nicole.Harris@dot.state.fl.us)

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting:

Cynthia Sykes, Florida Department of Transportation, District One  
801 N. Broadway Street, Bartow, Florida 33830-3809  
Call: (863) 519-2287 or email: [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us)

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

If any person decides to appeal any decision made by the Board with respect to any matter considered at this meeting or hearing, he/she will need to ensure that a verbatim record of the proceeding is made, which record includes the testimony and evidence from which the appeal is to be issued. *Do NOT check this box unless there is a 'rule' associated with the meeting or hearing.*

For more information, you may contact:

Ms. Nicole Harris, P.E., I-75 Project Manager, by phone at 863-519-2335 or by email at Nicole.Harris@dot.state.fl.us

*Press Releases and Legal Notices*

## **PUBLIC KICKOFF MEETING**

**Interstate 75 North Corridor Managed Lanes Study  
from North River Road to Moccasin Wallow Road**

**PUBLIC MEETING NOTICE – Interstate 75 South Corridor Managed Lanes Study from  
North River Road to Moccasin Wallow Road  
Sarasota and Manatee Counties, Florida  
Financial Project ID Nos.: 442518-1, 442518-2, 442518-3; ETDM No.: 14399**

The Florida Department of Transportation (FDOT), District One, invites you to attend a public kickoff meeting to learn about the Managed Lanes Study for I-75 from North River Road in Sarasota County to Moccasin Wallow Road in Manatee County. The purpose of this project is to analyze and put in place an integrated and comprehensive transportation solution that meets the needs of the near term, and accommodates the evolving and innovative transportation solutions of tomorrow.

For your convenience, the Department is holding two separate, but identical public kickoff meetings within the I-75 North Corridor project limits. Both meetings will be held in an informal, open-house format and are an opportunity to introduce the project and study process, present information regarding existing conditions, and receive feedback.

FDOT is sending notices to property owners located within 300 feet on either side of I-75 right-of-way within the project limits, in accordance with Florida Statutes Section 339.155(5)(c). FDOT encourages all interested people to attend and express their views regarding this study.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project is being, or has been, carried out by the Florida Department of Transportation (FDOT) pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016 and executed by the Federal Highway Administration and FDOT.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Cynthia Sykes, FDOT District One Title VI Coordinator by email at [cynthia.sykes@dot.state.fl.us](mailto:cynthia.sykes@dot.state.fl.us).

If you require further information, please contact the Project Manager, Ms. Nicole Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). You may also visit the project website at: [www.swflinterstates.com/i75-connect-north-corridor](http://www.swflinterstates.com/i75-connect-north-corridor).

## I-75 North Corridor Public Meeting Preview

**ERSTATE 75 (I-75) NORTH CORRIDOR MANAGED LANES STUDY**  
The Department is seeking to curb the spread of COVID-19, officials at the Florida Department of Transportation (FDOT). District One have postponed the public kickoff meetings to learn about the I-75 Connect Managed Lanes Study in Sarasota and Manatee counties. The meetings were previously scheduled for Thursday, April 9, 2020 at the Realtor Association of Sarasota and Manatee and Thursday, April 16, 2020 at the Manatee Technical College. The Department will make every effort to reschedule these meetings at a future to-be-determined date. In the meantime, the meeting information will be available to the public through a virtual preview on the project website beginning Thursday, April 9, 2020. If you require additional information, please contact the Project Manager, Ms. Nicole Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). You may also visit the project website at <https://www.swfinterstates.com/75-connect-north-corridor>

**PUBLIC MEETING PREVIEW AVAILABLE APRIL 9, 2020**  
[WWW.SWFINTERSTATES.COM/75-CONNECT-NORTH-CORRIDOR](http://WWW.SWFINTERSTATES.COM/75-CONNECT-NORTH-CORRIDOR)  
The Department is seeking to curb the spread of COVID-19, officials at the Florida Department of Transportation (FDOT). District One have postponed the public kickoff meetings to learn about the I-75 Connect Managed Lanes Study in Lee and Collier counties. The meetings were previously scheduled for Tuesday, March 24, 2020 at the North Collier Regional Park – Exhibit Hall and Tuesday, March 31, 2020 at the Gulf County Courthouse.

## POSTPONED: I-75 South Corridor Public Kickoff Meetings

**POSTPONED:** I-75 South Corridor Public Kickoff Meeting 3/16/2020 – In an effort to curb the spread of COVID-19, officials at the Florida Department of Transportation (FDOT). District One are taking the precautionary steps of postponing the public kickoff meetings to learn about the I-75 Connect Managed Lanes Study in Lee and Collier counties. The meetings were previously scheduled for Tuesday, March 24, 2020 at the North Collier Regional Park – Exhibit Hall and Tuesday, March 31, 2020 at the Gulf County Courthouse.

~~Manatee, 6305 SR 70 East~~  
~~Bradenton, FL 34203~~  
**POSTPONED**

### WHAT ARE MANAGED LANES?

Managed Lanes are a set of lanes separated from general-use lanes to help manage congestion.

Managed Lanes work because users are given an option to use the Managed Lanes or remain in the general-use lanes. Managed Lane Users – like trucks, transit or the motoring public traveling longer distances, can avoid slowdowns, merging and congestion at exits – all while reducing the number of vehicles traveling in the general-use lanes. This choice helps reduce delays, manage congestion, and keep travel times reliable for motorists.

### WELCOME

The Florida Department of Transportation (FDOT) District One welcomes you to the public kickoff meeting for the I-75 North Corridor Managed Lanes Study. The purpose of this project is to analyze and put in place an integrated and comprehensive transportation solution that meets the needs of the near term and accommodates the evolving and innovative transportation solutions of tomorrow. This capacity improvement project involves the potential construction of Managed Lanes in each direction on I-75 from North River Road in Sarasota County to Moccasin Wallow Road in Manatee County. General-use lanes, collector-distributor roadways, auxiliary lanes and interchange operational improvements, are being considered.

### MEETING AGENDA

This informal, open house public meeting is one of two separate, yet identical meetings being conducted to provide an opportunity for attendees to learn about the project, become familiar with the study process and provide feedback. Informational handouts and display boards are available for review. A Managed Lanes video presentation is also available for viewing. FDOT and project team members will be available to discuss the project and answer questions. There will be no formal presentation.

### THE PROJECT DEVELOPMENT PROCESS

The project development process consists of five steps, including Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition and Construction.

*fast facts*

- LENGTH**: 39.9 MILES
- COUNTIES**: SARASOTA, MANATEE

## TALK. LISTEN. ENGAGE. INFORM.

### WANT MORE SPECIFIC INFORMATION AND TO GET INVOLVED?

[www.swflinterstates.com](http://www.swflinterstates.com)

@myfdot\_swfl

/myfdotswfl

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. § 327 and a Memorandum of Understanding dated December 14, 2016, and executed by the Federal Highway Administration (FHWA) and FDOT.

Comuníquese con nosotros: Nos interesa mucho la opinión del público sobre el proyecto. Si tiene preguntas o comentarios, o simplemente desea más información, por favor comuníquese con nosotros. Nuestro representante en español es: Luis Diaz, (407) 710-3341, luis.diaz@stantec.com.

### WHAT HAPPENS NEXT?

The next steps of the I-75 North Corridor Managed Lanes study include the development of alternative improvements that will be evaluated for effectiveness. We will hold another public meeting to present these proposed alternatives and to receive your comments and feedback in early 2022. The Project Development and Environment Study is scheduled to be completed in the fall of 2023.

### WE WANT TO HEAR FROM YOU.

We urge you to participate in this study. Please ask questions and provide comments to FDOT representatives at this meeting. There are several ways to submit your comments.

You may complete a comment sheet this evening and drop it in our comment box or take it home and mail it later to:

**Nicole Harris, P.E.**  
 I-75 Project Manager  
 Florida Department of Transportation  
 801 N Broadway Avenue, MS 1-6  
 Bartow, FL 33830

Access our online comment form directly through the project website at:

# FDOT TRAFFIC NOISE EVALUATION PROCESS

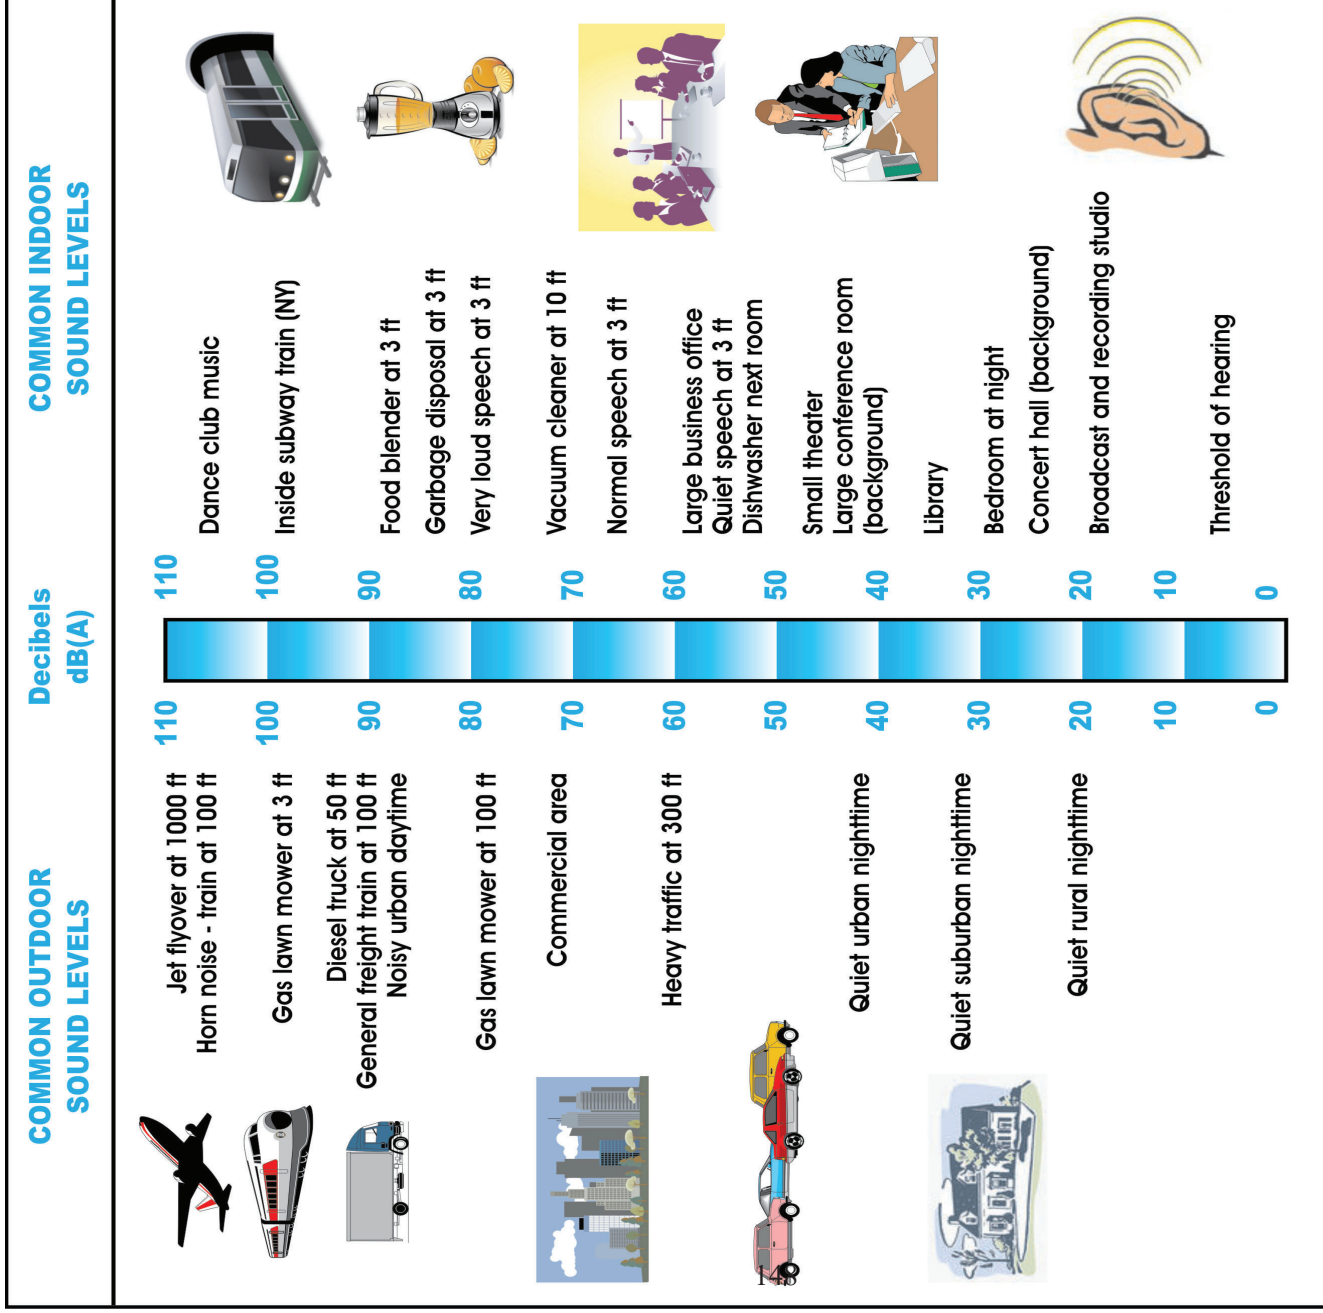

The Florida Department of Transportation (FDOT) performs traffic noise impact evaluations using Federal Highway Administration (FHWA) approved methodology. Highway projects evaluated for traffic noise impacts include the following:

- 1) Construction of a highway on new location;
- 2) Physical alteration of an existing highway which substantially changes either horizontal or vertical alignment; or
- 3) Physical alteration of an existing highway that increases the number of through traffic lanes, adds an auxiliary lane or expands or relocates interchange ramps.

## STEP 1: Identification of noise sensitive sites

FDOT gives primary consideration to exterior areas where frequent human use occurs. Typical noise sensitive sites include exterior areas of residences, schools, churches and recreational facilities.

## STEP 2:

### Determination of traffic noise impacts

The department determines future traffic noise levels that are attributed to the proposed highway project and compares the levels to FHWA noise abatement criteria. Typical noise sensitive sites with predicted noise levels that reach or exceed 66 decibels [dB(A)] or experience an increase of 15 dB(A) above existing noise levels require abatement consideration.

## STEP 3:

### Consideration of abatement measures

Federal regulation requires consideration of a noise barrier as a traffic noise abatement measure. A noise barrier is a concrete wall constructed on public right-of-way between the proposed highway improvements and the noise sensitive site.

FDOT is required by federal regulation to consider feasibility and reasonableness factors when evaluating a noise barrier. First, engineering constraints are reviewed to identify conflicts that may limit or preclude construction of a noise barrier. Noise barriers must provide a reduction in traffic noise of at least 7 dB(A) at an affected noise sensitive site to be considered feasible.

Once feasibility is determined, the department then gives consideration to cost effectiveness and viewpoints of property owners and residents. It is FDOT's responsibility to use prudent judgement when considering the expenditure of public funds. Finally, viewpoints regarding proposed noise barriers are solicited.

## STEP 4:

### Commitments to abatement measures

Following completion of the noise impact evaluation, the methodology and results are documented in the project's Noise Study Report.

If the department determines an abatement measure is potentially feasible and reasonable, a commitment is made to further evaluate the measure during the design phase of the project.

## TRAFFIC NOISE EVALUATION PHASES

### Project Development and Environment (PD&E) phase

FDOT begins the noise evaluation process during the PD&E study phase. The department developed this engineering and environmental process, which includes a preliminary analysis of alternatives developed for a project. We present the alternatives at a public information workshop. After the workshop, FDOT selects a preferred build alternative and performs a detailed noise analysis on this alternative. This analysis includes an evaluation of noise abatement measures with results presented at a public hearing.

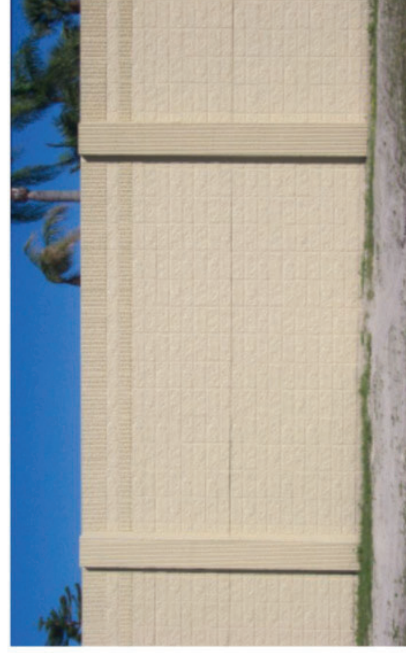

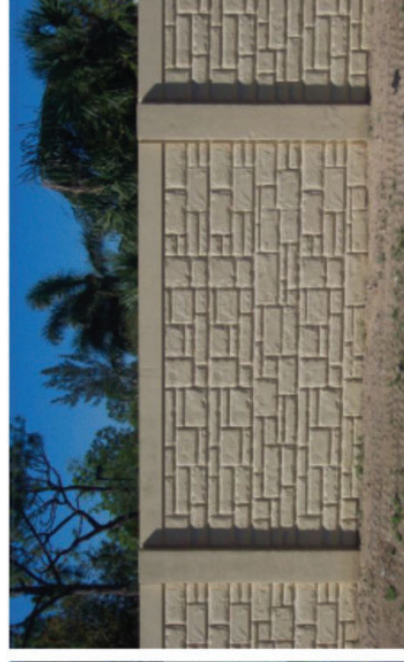

### Design phase

During the design phase of a project, FDOT develops detailed highway plans, right-of-way requirements are determined, and the right-of-way acquisition process begins. When plans are approximately 60 percent complete, engineering details are sufficient to allow for a thorough assessment of abatement measures determined to be potentially feasible and reasonable during the PD&E phase. Following public coordination, we incorporate all feasible and reasonable measures into the final design plans.

### Construction phase

FDOT includes feasible and reasonable traffic noise abatement measures as part of the construction project.

### Examples of noise barriers

# PROGRAM DESCRIPTION

Florida Department of Transportation (FDOT) District One is embarking on a program that will lead to the long-term improvement of the interstate corridors in Southwest Florida, first envisioned by prior planning studies.

This effort will allow District One to analyze and put in place an integrated and comprehensive transportation solution that meets the needs of the near term and accommodates the evolving and innovative transportation solutions of tomorrow.

Within the **Southwest Connect™** program, there are currently three project segments that are either in or entering their Project Development and Environment Study or Planning and Feasibility Study phase. Each project is focused on improving mobility and providing transportation options to support the region's economic development. These improvements are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

# ABOUT THE PROGRAM

## THE PROJECT DEVELOPMENT PROCESS

### WHAT IS A PLANNING AND FEASIBILITY STUDY?

A Planning and Feasibility Study defines a project's needs in terms of future improvements and identifies what strategies and types of improvements can best meet these needs. This study allows FDOT to focus future efforts and funding by prioritizing the most critical areas. This long-range approach provides a regional perspective to identify the areas where future demand is predicted and to assist in defining the Project Development and Environment (PD&E) Study limits for the project(s). Improvements identified in this phase may include widening, modifying interchanges, and evaluating requests for new interchanges.

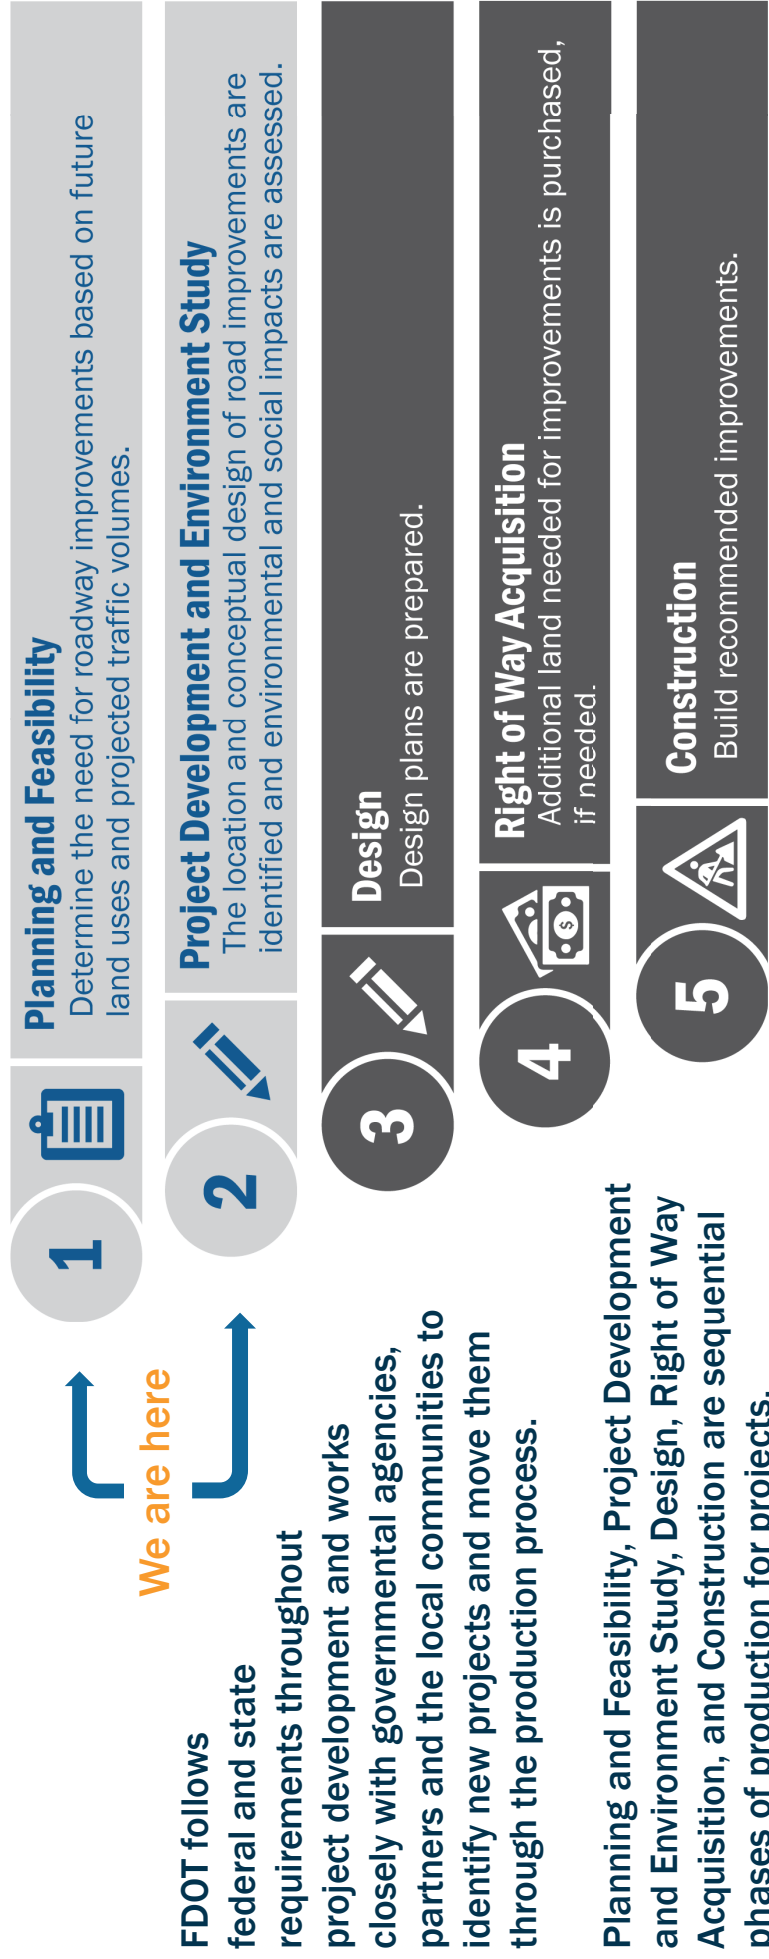

### WHAT IS A PD&E STUDY?

A PD&E study is an environmental and engineering process developed by FDOT to determine social, economic, natural and physical environmental impacts associated with a proposed transportation improvement project. The process follows the National Environmental Policy Act (NEPA) of 1969 and federal and state laws and regulations.

MANAGED LANES STUDY  
PUBLIC KICKOFF MEETING

FLORIDA DEPARTMENT OF TRANSPORTATION – DISTRICT ONE  
801 N. BROADWAY AVENUE, BARTOW, FL 33830

## THE PROJECT DEVELOPMENT PROCESS

# NOISE BARRIERS

As part of the I-75 Managed Lanes Study and once alternatives have been identified and preliminarily screened, a noise analysis will be completed for the entire study limits along I-75.

## Who gets a noise barrier?

- Areas predicted to experience future noise levels of 66 dB are eligible for consideration
- Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) require noise barriers to be *feasible and cost reasonable*.

### Feasible

- Reduces traffic noise by at least 5 dB at two or more sites and by 7 dB at one site
- Noise barrier can be constructed (*based on safety factors, access, right of way, maintenance, drainage and utilities*)

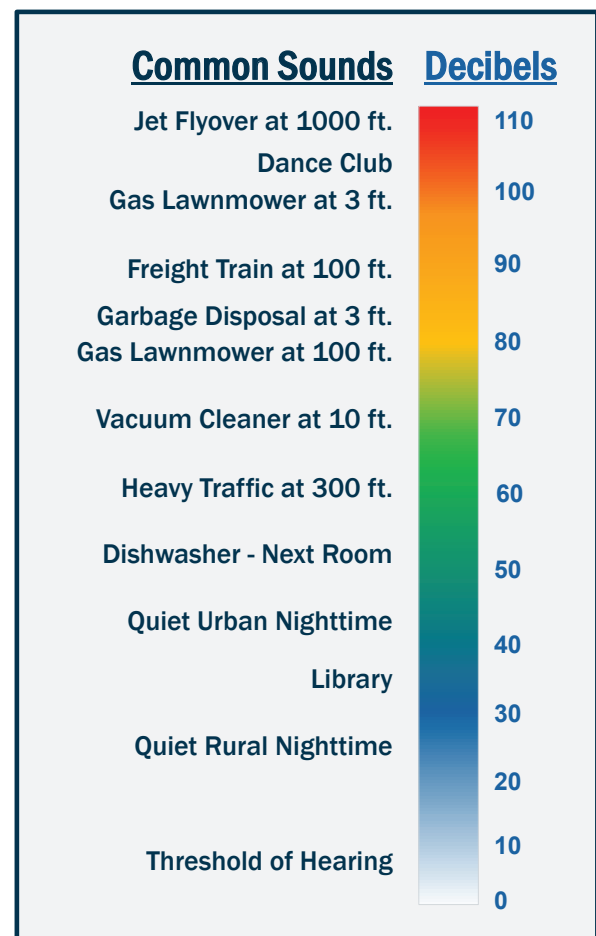

### Cost Reasonable

- Cost per site to build the noise barrier is \$42,000 or less

### Reasonable

- Consider the viewpoints of the benefitted site owners

Even if previous project(s) determined noise walls not to be cost reasonable or feasible, they may be feasible in the future with the proposed improvements and noise analysis from this study.

Common Sound Levels

## PROJECT DESCRIPTION

I-75 Southwest Connect™ (South Corridor) is a capacity improvement project that involves the potential construction of Managed Lanes in each direction on I-75, from North River Road to Moccasin Wallow Road in Sarasota and Manatee counties.

General-use lanes, collector-distributor roadways, auxiliary lanes and interchange operational improvements are being considered.

## PURPOSE AND NEED

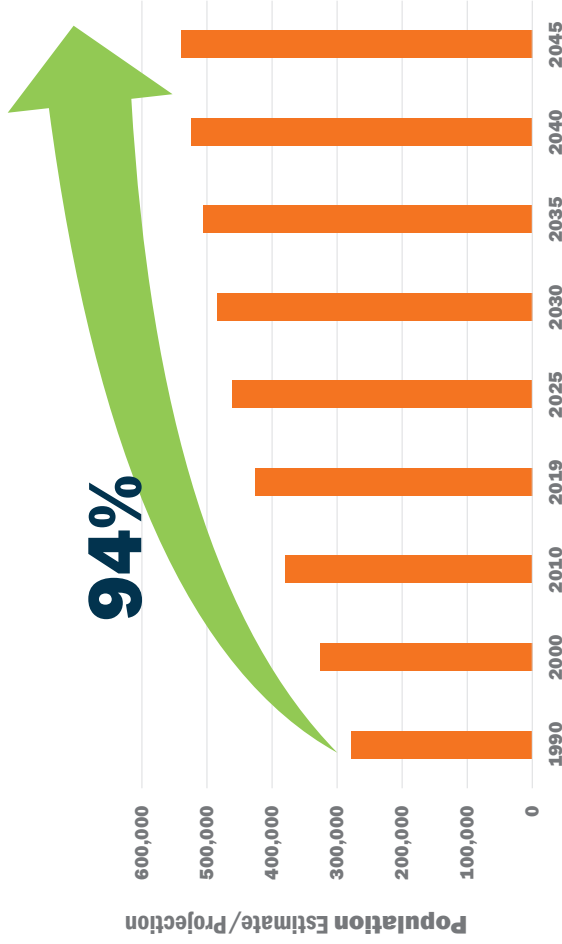

The purpose of this project is to address the existing operational deficiencies of the interstate within both Sarasota and Manatee Counties and accommodate future travel demand projections as a result of population and employment growth.

We have received your comments for both the North and South Corridor. The Department will be evaluating the viability of entry and exit points to the proposed Managed Lanes at all of the interchanges within the study limits. A traffic analysis is ongoing, and the location of entry and exit points will be identified and evaluated through this part of the study. Note that access points between the general use lanes and the potential managed lanes would not be located for each interchange along the project limits. Entry and exit points to the managed lanes are sited to maximize the number of upstream or downstream service interchanges served. That is because the intent of managed lanes is to serve longer distance trips, not short duration trips extending a small number of existing interchanges. We will have a significant amount of information at the Alternatives Public Workshop tentatively scheduled for early 2022, and we will be available to answer all of your detailed technical questions at that time, once the preliminary analysis and concepts have been developed. We have corrected your email address for our list of e-newsletter recipients seeking specific updates and information. When future newsletters, fact sheets and other important notifications are distributed, you should expect to receive them directly to your email inbox. Keep in mind in the months to come that our website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> is the online resource and will always include the most up-to-date information. Thank you once again for your interest.

### WHY IS FDOT STUDYING THIS CORRIDOR?

FDOT is studying the future needs of the corridors to efficiently plan for needed improvements that enhance mobility, reduce congestion, and improve safety.

- I-75 and I-4 have experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- The Planning and Feasibility phase will document current and future needs of the interstate in corridor Master Plans and provide recommended improvement priorities for implementation.

If you or anyone you know does not have access to the internet and would like copies of this information sent to them, please contact Nicole Harris, P.E., I-75 Project Manager (GEC) by phone at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us)

The Florida Department of Transportation is required to comply with various non-discrimination laws and regulations including Title VI of the Civil Rights Act of 1964. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Cynthia Sykes, FDOT District One Title VI Coordinator by phone at 863-519-2287, or via email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us).

Para información en español por favor comuníquese con nuestro representante, Luis Díaz al 407-710-3341. Nos interesa mucho la opinión del público sobre este proyecto.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

**Subject Line:** Subject: FPID 442518-1 Southwest Connect™ I-75 North Corridor Master Plan Virtual Public Outreach Meeting

Dear Elected Official,

The Florida Department of Transportation (FDOT), District One, is hosting a **Virtual Public Outreach Meeting** for the Southwest Connect™ Interstate 75 (I-75) North Corridor Master Plan from south of River Road (SR 777) to north of Moccasin Wallow Road in Sarasota and Manatee counties, Florida. This workshop will be held online and is available on the project website, [www.SWFLInterstates.com/North-Corridor-VPM](http://www.SWFLInterstates.com/North-Corridor-VPM).

The meeting materials will be available for viewing for 10 days, from **June 15 – 25, 2021**. In addition, FDOT is hosting a **LIVE Question and Answer Event ONLINE from 5 – 6:30 p.m. on Tuesday, June 15, 2021**. Please visit the project website listed above to register for the virtual Q&A event. If you would like to call into the question and answer session, please dial +1 (914) 614-3221 and enter access code 549-037-035. Attendees that use the call-in option will be able to listen only and will not be able to type in questions during the meeting.

The virtual public outreach meeting materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to update the public on the current status of the project and changes in its developmental direction. FDOT is mailing invitational postcards (attached) to property owners adjacent to the project and in surrounding areas.

I-75 Southwest Connect™ (North Corridor) is a capacity, safety and operational improvement project on I-75 in Sarasota and Manatee counties. This project is in the Planning and Feasibility Phase. FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven days prior to the public workshop.

*The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.*

If you or anyone you know does not have internet access and would like copies of this information, or if you have further questions about the project, please contact the I-75 Project Manager, Ms. Nicole Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). ## Notice of Meeting/Workshop Hearing

### OTHER AGENCIES AND ORGANIZATIONS HDR ENGINEERING, INC. - TAMPA

The Florida Department of Transportation (FDOT), District One announces a public meeting to which all persons are invited.

DATE AND TIME: Tuesday, June 15, 2021, 5:00 p.m. – 6:30 p.m.

PLACE: GoToWebinar, [www.SWFLInterstates.com/North-Corridor-VPM](http://www.SWFLInterstates.com/North-Corridor-VPM)

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT), District One, is hosting a Virtual Public Outreach Meeting for the Southwest Connect™ Interstate 75 (I-75) North Corridor Master Plan from south of River Road (SR 777) to north of Moccasin Wallow Road in Sarasota and Manatee counties, Florida. This workshop will be held online and is available on the project website, [www.SWFLInterstates.com/North-Corridor-VPM](http://www.SWFLInterstates.com/North-Corridor-VPM).

The meeting materials will be available for viewing for 10 days, from June 15 – 25, 2021. In addition, FDOT is hosting a LIVE Question and Answer Event ONLINE from 5:00 p.m. – 6:30 p.m. on Tuesday, June 15, 2021. Please visit the project website listed above to register for the virtual event. If you would like to call into the question and answer session, please dial +1 (914) 614-3221 and enter access code 549-037-035. Attendees that use the call-in option will be able to listen only and will not be able to type in questions during the meeting.

I-75 Southwest Connect™ (North Corridor) is a capacity, safety and operational improvement project on I-75 in Sarasota and Manatee counties. This project is in the Planning and Feasibility Phase. FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

A copy of the agenda may be obtained by contacting: Nicole Harris, P.E., I-75 Project Manager (GEC) by phone at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us).

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us). If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice). If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

**FDOT hosts I-75 Master Plan  
Virtual Public Outreach Meeting**  
*Including an online, live Question and Answer Session*

**BARTOW, Fla.** - The Florida Department of Transportation (FDOT), District One, is hosting a Virtual Public Outreach Meeting for the Southwest Connect™ Interstate 75 (I-75) North Corridor Master Plan from south of SR 777 (River Road) to north of Moccasin Wallow Road in Sarasota and Manatee counties, Florida.

This workshop will be held online and is available on the project website, [www.SWFLInterstates.com/North-Corridor-VPM](http://www.SWFLInterstates.com/North-Corridor-VPM). The meeting materials will be available for viewing and comment for 10 days, from June 15 – 25, 2021. In addition, FDOT is hosting a LIVE Question and Answer Event ONLINE from 5 – 6:30 p.m. on Tuesday, June 15, 2021. Please visit the project website listed above to register for the virtual event. If you would like to call into the question-and-answer session, please dial +1 (914) 614-3221 and enter access code 549-037-035. Attendees that use the call-in option will be able to listen only and will not be able to type in questions during the meeting.

I-75 Southwest Connect™ (North Corridor) is a capacity, safety and operational improvement project on I-75 in Sarasota and Manatee Counties. This project is in the Planning and Feasibility Phase. FDOT will analyze the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

Workshop materials will be available online for people to review and to provide comments. These materials will be available as part of the Virtual Public Outreach Workshop which will last for 10 days, from Tuesday, June 15 through Friday, June 25, 2021. If you would like hard copy packets of the workshop materials, please contact Nicole Harris, P.E., I-75 Project Manager (GEC) by phone at (863) 519-2335 or by email at [Nicole.Harris@dot.state.fl.us](mailto:Nicole.Harris@dot.state.fl.us).

You may submit any comments or questions on the project: through the project website at [www.SWFLInterstates.com/North-Corridor-VPM](http://www.SWFLInterstates.com/North-Corridor-VPM); by emailing Nicole Harris, P.E., I-75 Project Manager (GEC) at [Nicole.Harris@dot.state.fl.us](mailto:Nicole.Harris@dot.state.fl.us); or by mailing your comments to Nicole Harris, P.E. at FDOT District One, P.O. Box 1249, Bartow, FL 33831. Comments must be received or postmarked by June 25, 2021 in order to be included in the workshop record.

FDOT solicits public participation without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or require translation services (free of charge) should contact Cynthia Sykes, FDOT District One Title VI Coordinator, by phone at (863) 519-2287, or by email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven days prior to the Virtual Public Workshop. If you are hearing or speech impaired, please contact us by using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

Visit FDOT District One on [www.swflroads.com](http://www.swflroads.com), or Twitter at [@MyFDOT\\_SWFL](https://twitter.com/MyFDOT_SWFL), or [facebook.com/MyFDOTSWFL](https://facebook.com/MyFDOTSWFL) to stay informed.

# ACQUISITION PROCESS

The rights explained in this pamphlet are derived from Chapter 73, Florida Statutes. The relevant portions of Chapter 73 concerning the real estate acquisition process of real property are provided for your information at [www.FDOT.gov](http://www.FDOT.gov).

Effective: October 13, 2017

The Florida Department of Transportation's (FDOT) mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances the economic prosperity and preserves the quality of our environment and communities.

To accomplish our mission, sometimes it is necessary for us to acquire private property. Because you are the owner of property that will be needed for a transportation facility, we have prepared this pamphlet to briefly explain our acquisition process as well as your rights and options.

## PROPERTY/PROJECT INFORMATION LETTER

We will provide a letter that includes information about the property we are seeking to acquire, no later than the time we make you a written offer to purchase your property. This letter will explain the nature of the transportation project and will describe the portion of your property we need to acquire.

We will also provide a point of contact for you located within the Office of Right of Way.

## PROPERTY APPRAISAL

Prior to making an offer to purchase your property, a real estate appraiser or other real estate expert will contact you to arrange an onsite inspection of the property.

We encourage you to be present during the inspection and to provide any information which might affect the value of your property. Should you choose to obtain your own appraisal and share this opinion with us, the opinion will be considered during the negotiation process. Additionally, FDOT will reimburse you for reasonable costs of obtaining real estate appraisers or other experts' services to assist you with assessing the value of the property we are acquiring.

## OFFER TO PURCHASE

Our offer to purchase your property will be made in writing to you either in person or by certified mail and will not be less than the amount we have determined to be the fair market value of the property.

After you have reviewed our offer, you may choose to make a counteroffer. If you do so, we will consider your counteroffer and will seek to arrive at a mutually agreeable purchase price.

## OWNER REPRESENTATIVE & CONDEMNATION

You may designate someone to represent you during negotiations and we will work with your representative to resolve any issues. If you choose to be represented by an attorney licensed to practice law in Florida, you will be reimbursed for reasonable fees paid to the attorney. However, the amount of fees paid by FDOT may be limited by law.

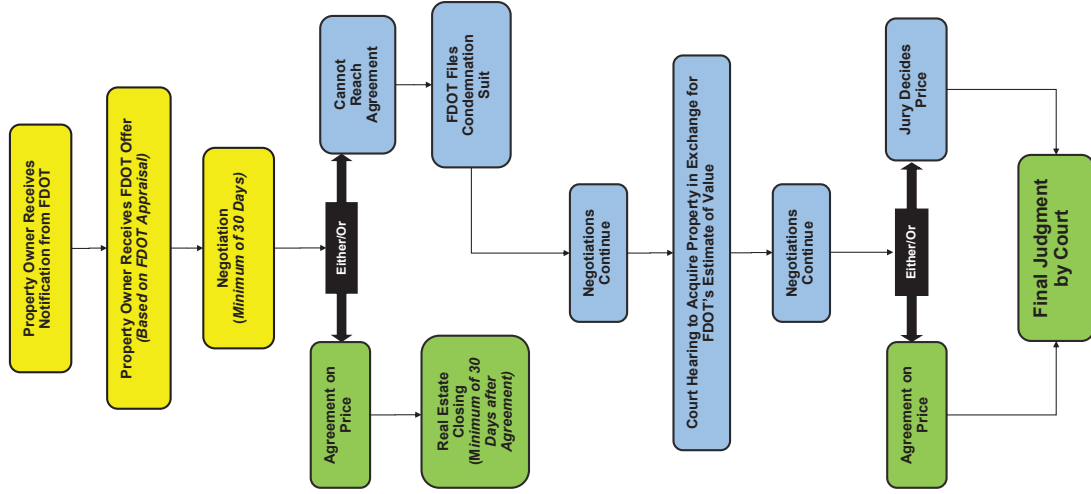

If we are unable to reach a mutually agreeable purchase price, we may choose to file a condemnation action, which will not occur less than 30 days from the date we make our written offer to purchase. But, FDOT will continue to negotiate with you or your representative throughout the litigation process.

## FDOT CONTACT INFORMATION

If you would like copies of the appraisal, right of way maps or construction plans, we will provide the documents within 15 days of your request. However, some of the documents may not be complete at the time of your request, but we will either inform you of when we will provide the completed version of the requested information or provide you the most recent information available.

Please feel free to contact us if you have additional questions or if you need more information about the project or the acquisition process.

# PROCESO DE ADQUISICIÓN

Los derechos explicados en este panfleto se derivan del Capítulo 73 de los Estatutos de Florida. Las porciones relevantes del Capítulo 73 concernientes al proceso de adquisición de inmuebles son suministradas para su información en [www.FDOT.gov](http://www.FDOT.gov).

La misión del Departamento de Transporte de Florida (FDOT) es proporcionar un sistema de transporte seguro que garantice la movilidad de las personas y los bienes, mejore la prosperidad económica y preserve la calidad de nuestro medio ambiente y nuestras comunidades.

A fin de cumplir con nuestra misión, en ocasiones nos vemos en la necesidad de adquirir propiedad privada. Puesto que usted es dueño de una propiedad que se necesitará para una vía de transporte, hemos preparado este panfleto en el que se explica brevemente nuestro proceso de adquisición, así como sus derechos y opciones.

## CARTA INFORMATIVA SOBRE LA PROPIEDAD Y EL PROYECTO

Enviaremos una carta que incluirá información sobre la propiedad que planeamos adquirir, no más tarde que al tiempo en que le hagamos una oferta por escrito para comprar su propiedad. En esta carta se explicará la naturaleza del proyecto de transporte y se describirá la porción de su propiedad que necesitaremos adquirir.

Asimismo le proporcionaremos un punto de contacto que esté ubicado dentro de la oficina de servidumbre de paso (*Office of Right of Way*).

## AVALÚO DE LA PROPIEDAD

Antes de hacerle una oferta de compra de su propiedad, un (tasador) u otro experto en bienes y raíces se pondrá en contacto con usted para acordar una inspección en persona de la propiedad.

Le aconsejamos que esté presente durante la inspección y proporcione cualquier información que pudiera afectar el valor de su propiedad. En caso de que usted decida obtener su propio tasación y compartir la con nosotros, esta será tomada en cuenta durante el proceso de negociación. Adicionalmente, el FDOT le reembolsará el costo razonable de obtención de la tasación o servicios de otros expertos que le ayuden a determinar el valor de la propiedad que estamos adquiriendo.

## OFERTA DE COMPRA

Le haremos nuestra oferta de compra de su propiedad por escrito, ya sea en persona o mediante correo certificado, y no por una suma menor a la que hayamos determinado como el valor de mercado justo de la propiedad.

Una vez que usted haya revisado nuestra oferta, puede optar por hacernos una contraoferta. Si así lo hiciera, someteremos su contraoferta a consideración y buscaremos llegar a un precio de compra de mutuo acuerdo.

## REPRESENTANTE DEL PROPIETARIO Y EXPROPIACIÓN FORZOSA

Usted puede designar a otra persona para que lo represente durante las negociaciones y trabajaremos con su representante para resolver cualquier problema. Si usted decidiera ser representado por un abogado de Florida, se le para ejercer derecho en el estado de Florida, se le reembolsarán los honorarios razonables que usted le pague al abogado. No obstante, la suma de los honorarios pagados por el FDOT podría estar limitada por las leyes.

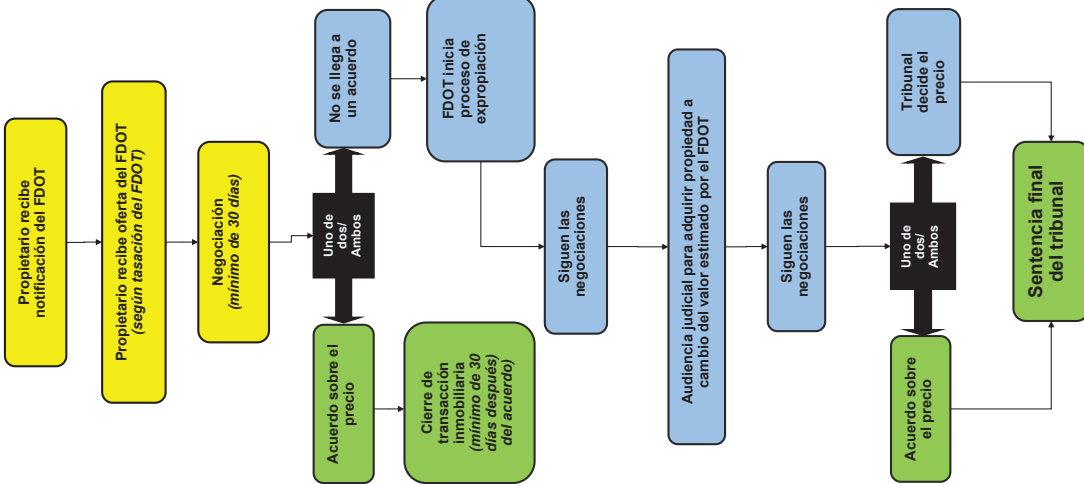

En caso de que no llegáramos a un acuerdo mutuo sobre el precio de compra, podríamos decidir iniciar un proceso de expropiación, lo cual no ocurrirá antes de 30 días a partir de la fecha en que le hagamos nuestra oferta de compra por escrito. Sin embargo, el FDOT seguirá negociando con usted o su representante durante todo el proceso de litigio.

## INFORMACIÓN DE CONTACTO DEL FDOT

Si deseara tener copias del avalúo, mapas de servidumbre de paso de vía o los planos de construcción, podemos ofrecerle estos documentos en un lapso de 15 días a partir de la fecha de solicitud. Sin embargo, es posible que algunos de estos documentos no estén listos al momento de su solicitud, por lo que le informaremos la fecha en que le enviaremos la versión completa de la información solicitada o le suministraremos la información más actualizada que tengamos al alcance.

No dude en contactarnos si tiene preguntas adicionales o necesita más información sobre el proyecto o el proceso de adquisición.

## TRAFFIC NOISE EVALUATION PHASES

### PROJECT DEVELOPMENT AND ENVIRONMENT (PD&E) PHASE

FDOT begins the noise evaluation process during the PD&E study phase. The Department developed this engineering and environmental process, which includes a preliminary analysis of alternatives developed for a project. FDOT presents the alternatives at a public information workshop. After the workshop, the Department selects a preferred build alternative and performs a detailed noise analysis on the alternative. This analysis includes an evaluation of noise abatement measures with results presented at a public hearing.

### DESIGN PHASE

During the design phase of a project, FDOT develops detailed highway plans, right-of-way requirements are determined, and the right-of-way acquisition process begins. When plans are approximately 60 percent complete, engineering details are sufficient to allow for a reassessment of any abatement measures determined to be potentially feasible and reasonable during the PD&E phase. Following public coordination, the department will incorporate all feasible and reasonable measures into the final design plans.

### CONSTRUCTION PHASE

FDOT includes feasible and reasonable traffic noise abatement measures as part of the construction project.

# TRAFFIC NOISE EVALUATION PROCESS

## WHEN IS A NOISE STUDY NEEDED?

The Florida Department of Transportation (FDOT) performs traffic noise impact evaluations using Federal Highway Administration (FHWA) approved methodology. Highway projects are evaluated for traffic noise impacts when:

- a new highway alignment is built;
- an alteration to an existing highway substantially changes its horizontal or vertical alignment; or
- the number of through traffic lanes is increased.

# STEPS OF EVALUATING TRAFFIC NOISE

## STEP 1:

### Identification of noise sensitive sites

FDOT gives primary consideration to exterior areas where frequent human use occurs. Seven categories of activity/land use are used to assess the potential impacts of noise. Some examples of noise sensitive sites include exterior areas of residences, schools, churches and recreational facilities.

## STEP 2:

### Determination of traffic noise impacts

The Department determines future traffic noise levels that are attributed to the proposed highway project and compares the levels to FHWA noise abatement criteria (NAC). Typical noise sensitive sites with predicted noise levels that reach or exceed 66 decibels [dB(A)] or experience an increase of 15 db(A) above existing noise levels (for NAC B/C) require abatement consideration.

## STEP 3:

### Consideration of abatement measures

Federal regulation requires consideration of a noise barrier as a traffic noise abatement measure. A noise barrier is a concrete wall constructed on public right-of-way between the proposed highway improvements and the noise sensitive site. Feasibility factors involve both noise reduction and engineering considerations. The barrier must provide a reduction of at least 5 dB(A) to a minimum of 2 impacted receptors. The barrier is reviewed to consider if it can be constructed using standard construction methods and techniques. Safety also plays a critical factor in determining if a barrier is feasible. Other feasibility factors include access, right of way, maintenance, drainage, and utilities.

The Department also gives consideration to cost effectiveness (\$42,000 per benefited receptor) and viewpoints of property owners and residents.

## STEP 4:

### Commitments to abatement measures

Following completion of the noise impact evaluation, the methodology and results are documented in the project's Noise Study Report.

If the Department determines an abatement measure is potentially feasible and reasonable, a commitment is made to further evaluate the measure during the design phase of the project.

< THRESHOLD OF HEARING

## What will a Noise Barrier do?

- The goal is to reduce traffic noise by at least 5 decibels (dB)
- The amount of noise reduction depends on:
  - Distance of the receptor from the barrier
  - Distance of the noise source from the barrier
  - Length and height of the barrier
  - Elevation differences among the road, barrier and receptor

All inquiries or complaints will be handled according to FDOT procedures and in a prompt and courteous manner.

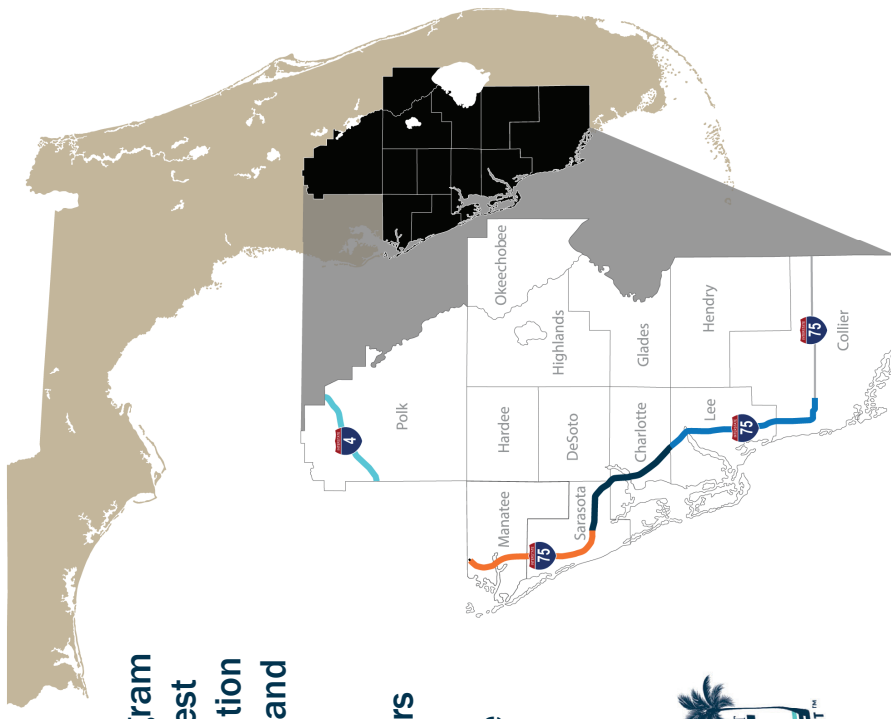

# ABOUT THE PROGRAM

## PROGRAM DESCRIPTION

Florida Department of Transportation (FDOT) District One is embarking on a program that will lead to the long-term improvement of the interstate corridors in Southwest Florida. This effort will allow District One to analyze and put in place a transportation solution that meets the needs of the near term and accommodates the evolving and innovative transportation solutions of tomorrow.

Within the Southwest Connect™ program, there are currently four project corridors in the Planning and Feasibility phase. Each phase is focused on identifying solutions that improve mobility and provide transportation options to support the region's economic development. These solutions are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

I-75 (South Corridor)

I-75 (Central Corridor)

I-75 (North Corridor)

I-4 Corridor

# ABOUT THE PROGRAM

## WHY IS FDOT STUDYING THESE CORRIDORS?

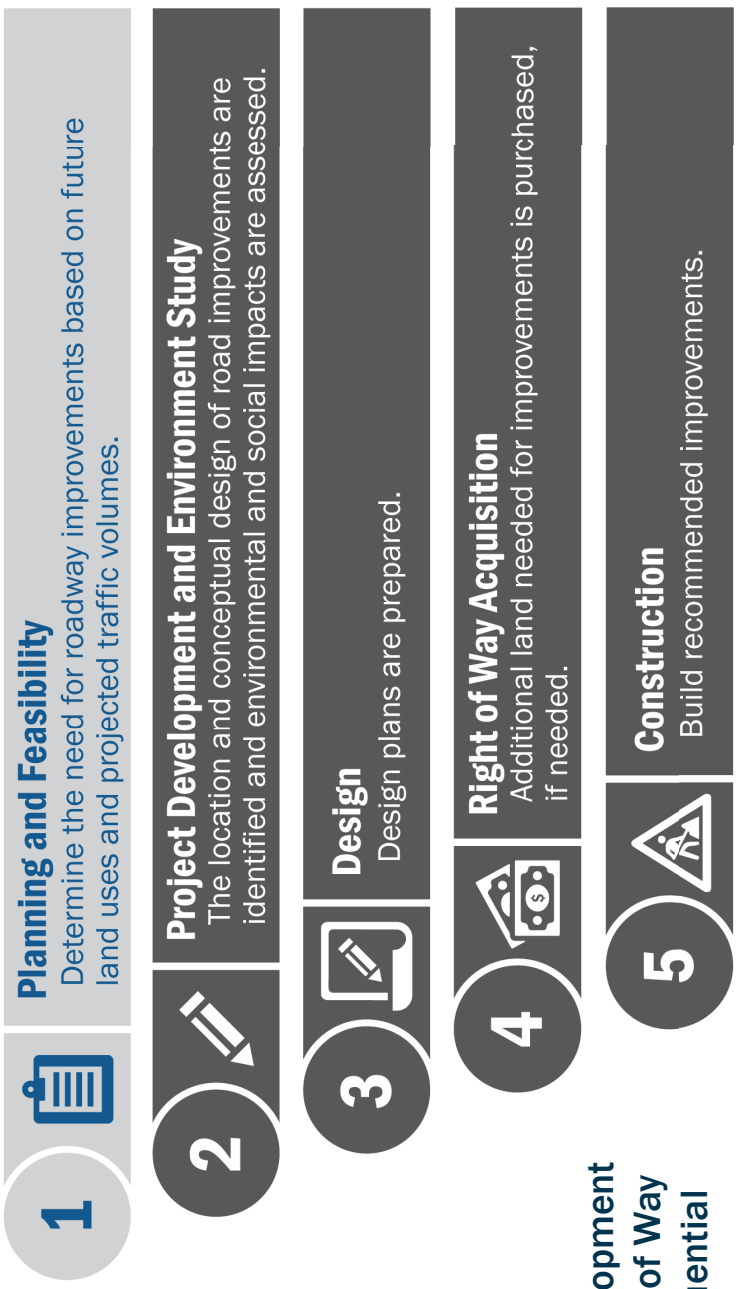

FDOT is studying the future needs of the corridors to efficiently plan for needed improvements that enhance mobility, reduce congestion, and improve safety.

- I-75 and I-4 have experienced an increase in traffic driven by many factors including population growth, development, additional tourism and special events.
- The Planning and Feasibility phase will document current and future needs of the interstate in corridor Master Plans and provide recommended improvement priorities for implementation.

## THE PROJECT DEVELOPMENT PROCESS

We are here

FDOT follows federal and state requirements throughout project development and works closely with governmental agencies, partners and the local communities to identify new projects and move them through the production process.

Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition, and Construction are sequential phases of production for projects.

# ABOUT THE PROGRAM

## WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility.

Development of a Master Plan involves data collection, public outreach, analysis of current and future transportation needs, and the identification and evaluation of potential projects to address those needs.

During the Planning and Feasibility phase, an analysis of the interstate system's existing and future transportation challenges is conducted, and the findings of the analysis and recommendations to enhance safety and mobility are documented in a Master Plan.

The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges.

The Master Plan will also include public outreach, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process.

This long-range approach provides a regional perspective to identify the areas where future demand is predicted and assists in defining subsequent Project Development and Environment (PD&E) Study limits for the project(s). This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

## PROJECT DESCRIPTION

**I-75 Southwest Connect (North Corridor)** is a project that will evaluate the current and future needs that improve safety, operational capacity, functionality, efficiency and connectivity along and across the corridor. The North Corridor project limits are from south of River Road (State Road 777) to north of Moccasin Wallow Road in Sarasota and Manatee counties.

Managed lanes, collector-distributor roadways, auxiliary lanes, interchange operational improvements or new interchanges are being considered.

## PURPOSE AND NEED

The purpose of this project is to address the existing operational deficiencies of I-75 within Sarasota and Manatee counties and to accommodate future travel demand projections as a result of forecasted population and employment growth.

Other goals of the project are to

- 1) preserve the operational integrity and regional functionality of I-75 (and, therefore, the regional transportation network) by complementing similar corridor improvements to the south and north on I-75 and
- 2) enhance emergency evacuation and response times.

# WHERE IN THE PROCESS RIGHT OF WAY

This corridor is currently in the Planning and Feasibility Phase.

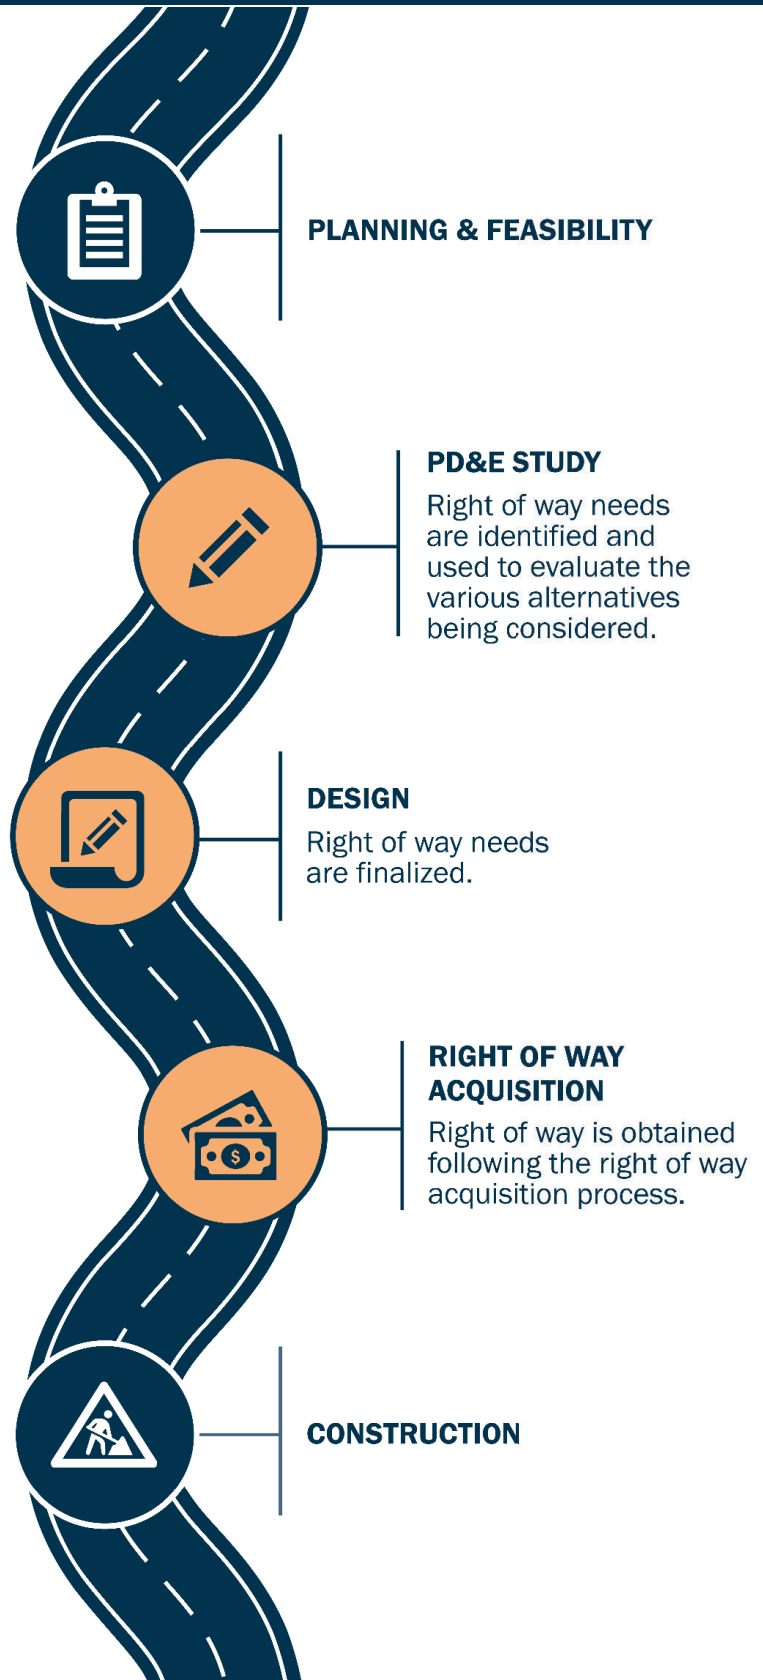

Once a project has been prioritized and funded to move to the next phase, the Project Development and Environment (PD&E) study, the Department will identify any potential right of way needs and use them in the evaluation of the various alternatives being considered.

Once the project is advanced to the Design Phase, all right of way needs are determined and finalized.

If additional land is needed to construct proposed improvements, the Department will notify property owners, explain the acquisition process, their rights and options.

FDOT's Right of Way Acquisition team has developed an informative handout with more details and information.

Click [HERE](#) to view handout.

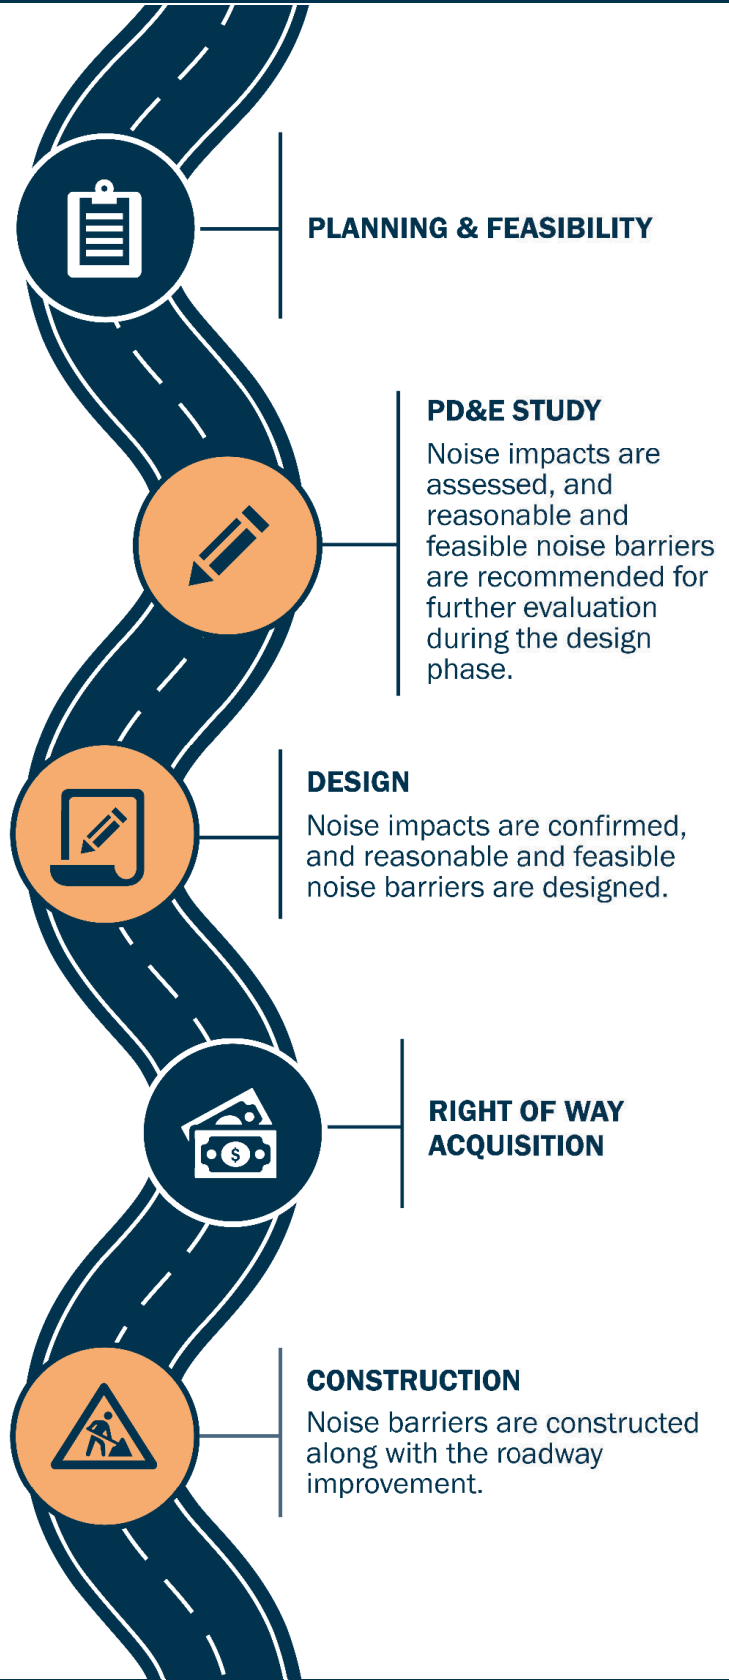

# WHERE IN THE PROCESS TRAFFIC NOISE

This corridor is currently in the Planning and Feasibility phase.

Once a project has been prioritized and funded to move to the next phase, the Project Development and Environment (PD&E) study, the Department will determine traffic noise impacts and potential locations that qualify for further consideration of noise abatement measures, including traffic noise barrier walls.

Traffic noise abatement is further evaluated during the Design phase, in accordance with federal and state requirements. For areas that meet feasibility and reasonableness criteria, traffic noise barrier walls are included in the project's design plans and constructed with the roadway improvement project.

A handout detailing the Traffic Noise Evaluation Process can be found by clicking [HERE](#).

# NOISE BARRIERS

## WHO GETS A NOISE BARRIER?

- When traffic noise impacts are identified during a noise analysis for an FDOT construction project that substantially changes the existing conditions of the typical section (horizontal or vertical alignment, profile, number of lanes, etc.), a noise barrier for that area must be considered.
- Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) require noise barriers to be *feasible and reasonable*.

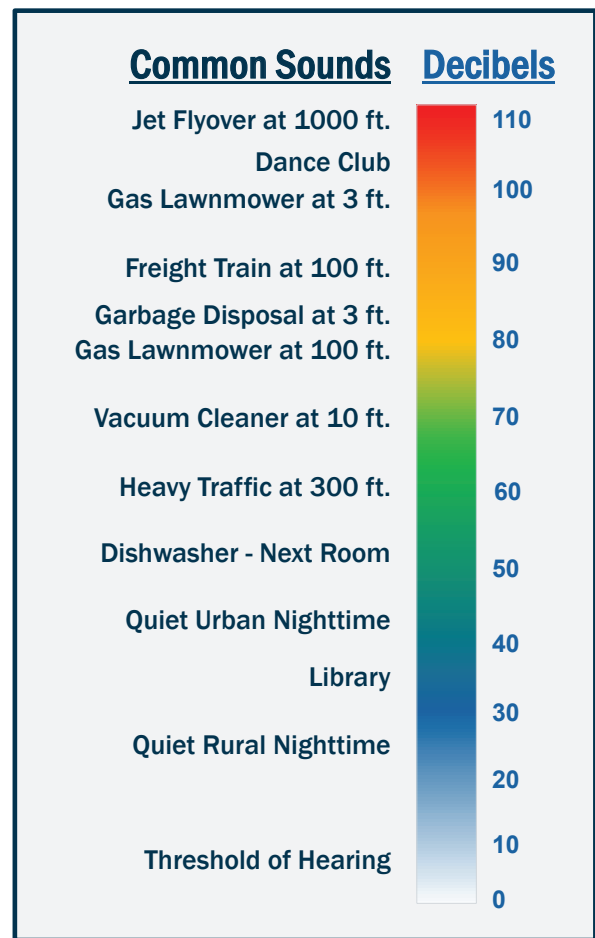

### Feasible

- Can be designed and built using standard construction methods and techniques with consideration of safety factors, access, right of way, maintenance, drainage and utilities

### Reasonable

- Reduces traffic noise by at least 5 dB at two or more impacted sites and by 7 dB at one site
- Cost to build the noise barrier averages \$42,000 or less per benefited receptor
- Consider the viewpoints of the benefited site owners and residents

Even if previous project(s) determined noise barriers are not feasible and reasonable, they may be feasible and reasonable in the future with the proposed improvements and noise analysis from future studies.

Comments Received During the Virtual Public Outreach Meeting

Name	Email	Phone Number (optional)	Commenter Interest (optional)	Business / Agency / Company Name (optional)	Home address (optional)	Comment/Question	Entry Date	Response (if requested)
Paula Steinert	<a href="mailto:paulajareo@gmail.com">paulajareo@gmail.com</a>	(941) 320-9303	Home Owner/Local Resident			As a full time resident for the past 31 years Sarasota and Manatee counties have exploded with new neighborhoods, mostly east of I-75, bringing a growing population that depends on N/S travel of I-75, in addition to full time traffic through Sarasota and Manatee counties there is a large population expansion of seasonal residents. Having moved south from Sarasota to North Venice in the past 3 years, I travel almost daily at different times between at Exit 195 (Laurel Rd) and Exit 224 (US 301), 29 miles. Having experienced many scenarios in both directions, and have comments on issues that I believe should be addressed in the upcoming improvements to keep the flow of traffic moving. 1. Exit 200 (SR 681) interchange needs to be completed for both directions. If there is an incident south of exit 205, there is no bailout for 10 miles between exit 195 and 205. I have been stuck for 1 hour and 45 minutes before being able to exit. Expansion east of 175 is planned and this is a must to address. 2. Entering and exiting at most interchanges back up and causes massive interruptions to travel. I believe that a reasonable resolve to backups on exits could be reduced by adding exit only lanes for .5 miles at each exit and similar. 5 mile entrance merge lanes to allow distance for oncoming vehicles to reach similar speeds to travel. It appears that entering vehicles do not know that they are supposed to increase speed to merge with moving traffic. 3. In addition to the exit only and entering traffic lanes, coordinating with street level roads need to be addressed. Traffic light timing needs to be shortened. Loading 40-50 vehicles at one time to on ramps is excessive to expect merges to not slow down traffic flow. The same issue on exits exists causing right lanes to back up on travel lanes. 4. Most, if not all of the miles within this improvement zone has a "No Trucks in Left Lane" regulation. What is considered a truck?? Almost daily "trucks" are driving in the left lane. If there is not an emergency in the upcoming area, post the regulation on the information signs that are in several locations. Another note that could be posted is Slower Traffic Keep Right...and Keep moving. Don't Rubberneck!	6/25/2021	
Nancy Kish	<a href="mailto:nkg1121@yahoo.com">nkg1121@yahoo.com</a>		Home Owner/Local Resident			Thank you. Our community (Hammock Preserve, Sarasota) is very interested in the project and possible noise mitigation. Nancy	6/25/2021	
Nancy Kish	<a href="mailto:nkg1121@yahoo.com">nkg1121@yahoo.com</a>		Home Owner/Local Resident			Thank you I When I tried this last night, it was not bringing me to the recording. Comments Received During the Virtual Public Outreach Meeting

Name	Email	Phone Number (optional)	Commenter Interest (optional)	Business / Agency / Company Name (optional)	Home address (optional)	Comment/Question	Entry Date	Response (if requested)
Greg Lantz	<a href="mailto:greg.lantz@hotmail.com">greg.lantz@hotmail.com</a>		Home Owner/Local Resident			I participated in the online public meeting on 6/15 and submitted a question about possible interchanges at 69th ST E/ Erie Rd and Buckeye Rd. The response was FDOT would need to have the county request that for consideration. I have followed up with the county. But wanted to ask if it is possible to include feasibility studies for these additional interchanges? Current traffic counts and perhaps projected counts may not necessarily justify an interchange. But with known growth and expected growth in the area it could be beneficial to include feasibility studies that determine at what level of traffic counts an interchange would be justified or even as a so called place holder that would make it easier to consider interchanges in 5-10 years as the county continues to grow. Also, I'm not sure why Erie Rd is used for the bridge that is actually only 69th ST E. Erie road is a few miles further to the east of I-75 from where the bridge that carries 69TH ST E over the interstate is located.	6/24/2021	
Clarrie Apaliski	<a href="mailto:capaliski@hmb.com">capaliski@hmb.com</a>	(570) 709-2423	Home Owner/Local Resident		6417 Spyglass Lane	I support the roadway expansion being evaluated during this feasibility phase and appreciate the current interchange improvements underway at SR 70. I see on a daily basis the traffic along this corridor and am in favor of interchange improvements as the DDI at University Parkway really helps with traffic flow and I see that drivers are calmer as they experience efficient movement. I'm also in favor of express lanes but do wonder based on the OD information shared and so many drivers using the interstate to go one or two exits, which location will be selected.	6/24/2021

Matthew Scheffel	<a href="mailto:scheffel@gmail.com">scheffel@gmail.com</a>	(952) 393-5357	Home Owner/Local Resident		212 Marawiya Blvd.	<p>I encourage you to strongly consider adding a new, northbound entrance ramp onto I75 near the SR681 interchange. Actually, it would ideally SHARE the SR681 entrance ramp. This would handle traffic from a new road, east of I75. (The new road is currently being planned by Sarasota County, as a new connection between Clark Road and Laurel Road.)</p> <p>Reason: One of the main purposes and advantage of this road would be to handle the large volume of garbage trucks handling northern Sarasota County. After dropping off a load at the Sarasota County Landfill on Knights Trail Road, they must travel from a position almost right next to SR681, south 4 miles to Laurel, then north on I75. While this may not affect nor help traffic directly related to I75, it would be a great help to both the current Knights Trail Road traffic and the many new homes being built in that area, and the future extension to Clark Road. The volume of trucks is a danger to the residential traffic.</p> <p>Geographic Bonus: By using existing the existing SR681 entrance ramp to merge this new connection into, no new lanes would need to be added directly to I75.</p> <p>Funding Bonus: I believe this idea has already been considered and discussed in Sarasota County, and there would most likely be county funds available to help with the costs of the new interchange. The City of Venice is also concerned about an increase in traffic on Laurel Road, and might also be willing to contribute funds to help divert traffic off that road.</p> <p>So for a potentially minimal land acquisition cost, combined with Sarasota County funds, and usage of an existing entrance ramp, this has a chance to be an inexpensive but helpful win for many around that area.</p>	6/23/2021

Roy Smith	<a href="mailto:roy_smith3@comcast.net">roy_smith3@comcast.net</a>	(941) 484-3535	Home Owner/Local Resident		367 Turtleback Crossing Venice, FL 34292	The additional lanes in Sarasota at I-75 & University include sound/visual barriers. Who was impacted, business. In the city of Venice where there is explosive growth nothing to reduce the road noise from additional lanes and traffic. More lanes faster and louder traffic results. Please consider at least some small efforts to reduce this problem.	6/22/2021	
Steven Havik	<a href="mailto:steve.havik2@gmail.com">steve.havik2@gmail.com</a>	(630) 450-4683	Home Owner/Local Resident		7420 47th Ave Cir E	Based on the data, population growth dictates additional lanes will be needed. Based on the origin/destination data at the different entries and exits, it is clear in the most heavily travelled section between 301 and Bee Ridge that almost 50 % of the vehicles destinations are 2 or three interchanges away, meaning most of the vehicles are local. Therefore, dedicated, expandable local lanes in the core zone would be beneficial to separate from long distance traveller's (maybe dedicated express/through lanes with HOV and limited on/off ramps to local would be useful. One question the data shared doesn't provide is how much of local traffic is tractor-trailer vs. auto - as that also would be useful to know and share.	6/22/2021	
Robert Miller	<a href="mailto:rw2miller@comcast.net">rw2miller@comcast.net</a>	(941) 467-4257	Home Owner/Local Resident		11030 Batello Dr.	With only 2 lanes, River Road is inadequate as a corridor to the Interstate. I strongly am in favor of the completion of the widening to at least 4 lanes from Tamiami Trail to the Interstate as soon as possible, given the increase of population density in the area.	6/18/2021	
Ralph Umama	<a href="mailto:larp195@yahoo.com">larp195@yahoo.com</a>		Home Owner/Local Resident			am I reading it correctly that the cost of the noise barrier is \$42,000 per affected resident that did not pay an impact fee? also the click "here" link on the right of way acquisition page or on the noise pages do not work is there a longer term plan to move more cars or add another non-toll road in the plan	6/17/2021	RESPONSE BY NICOLE HARRIS 07/20/2021  Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting. Kristine Thornton	k.thornt@gmail.com		Home Owner/Local Resident			<p>Widening I-75 is definitely something I would support. I commute from North Port to Sarasota every day for work. Most of the time traffic is not that horrible. However, if there is a vehicle stopped on the shoulder for any reason, whether it be a police officer writing a speeding ticket, or an accident, the interstate gets extremely congested and sometimes, if there is a particularly bad crash, the interstate will be at a complete standstill or altogether shut down. In these scenarios there is often times no good alternate route. There is US 41, which is never a good choice because it in turn becomes a traffic nightmare. Additionally, there are no exits for 9 miles between Sumter Blvd and River Road. Getting stuck is especially frustrating on that long stretch with nowhere to go. River Road is another major concern, as it cannot handle the amount of traffic from US 41 to I-75. Worse yet, it is a hurricane evacuation route! Clearly serious thought and planning needs to go into this enormous project. Adding lanes and more exit ramps would be helpful.</p>	6/17/2021

Tom Cannon	<a href="mailto:tomcannon65@gmail.com">tomcannon65@gmail.com</a>		Home Owner/Local Resident			<p>For the master plan near Moccasin Wallow.</p> <p>The bridge over Moccasin Wallow on the West side of the southbound 75 and at least a half mile of the 75 prior to and including the southbound off ramp to Moccasin Wallow could use a sound barrier wall because of the height of the 75 in relation to the new home tract currently being built and occupied.</p> <p>At that point the 75 is higher than the surrounding area and it creates an amphitheater level amplifier of the traffic noise level especially when the atmospheric ceiling is low due to changes in the weather. The noise level does vary, but in the low ceiling it becomes very loud by the sound reflecting from the ceiling. The atmosphere wind and rain also contribute to the sound levels.</p> <p>The future projection of traffic increasing significantly it would make sense to install the sound barrier at least in this section and other sections of the master plan where there's housing within a quarter mile of the 75.</p> <p>With future development on the east side of the 75 for northbound traffic that should be considered as well for future development of properties like Del Webb and other homes being built north of Moccasin Wallow.</p> <p>Thank you for taking the time and allowing the public to express comments for the future development of the 75.</p>	6/17/2021	<p>RESPONSE BY NICOLE HARRIS 06/17/2021 16:26</p> <p>Mr. Cannon,</p> <p>Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Your input is important to us and your comment has been received and entered into this corridor's public record.</p> <p>Noise studies will be conducted during the Project Development and Environment Phase of the projects, which comes after the completion of the Master Plan phase. During the noise studies, a comprehensive analysis will be conducted to determine if noise impacts are predicted for noise sensitive areas as a result of the proposed changes/improvements. When noise impacts are predicted, FDOT must consider noise abatement, typically in the form of sound barriers. The noise analysis will evaluate potential noise barrier configurations for those areas with predicted impacts to determine if any of those barriers meet the criteria for being reasonable and feasible, per Chapter 18 of the FDOT PD&amp;E Manual. Those barriers that meet these criteria will be recommended to be included in the future phases of the projects.</p> <p>This Master Plan concept will allow for noise studies to take place for any area with noise receptors, including all of those communities that have been built after the completion of any previous noise study. These noise studies would have occurred for the projects that widened I-75 to its current condition, and any other project that would have altered the noise environment in the area. These communities that have recently been built or are coming on line would not have been eligible to be part of a previous noise study (they would have had to have secured building permits prior to the conclusion of the study, a date known as the date of public knowledge), nor is there a mechanism to address noise from the current roadway.</p>

Mike Haering	<a href="mailto:mhaering@gmail.com">mhaering@gmail.com</a>		Home Owner/Local Resident		Venice, FL	Widening is critical given recent growth and projected future growth. But with this I beg for safety measures. I've driven the US back and forth several times and consider Florida's interstates the most dangerous, in part due to volume, but also for the inexcusable reckless speed and lane changing that many drivers undertake. While we may never be able to stop stupidity, can design features be employed to calm them down? Do express lanes that funnel folks going from point A to point K or even point Z and avoid local exits help? Even making these express lanes with a toll would be an option and funnel folks who only are local to those lanes designate for interchanges and funnel those who are traveling longer distances into those lanes. Please consider all safety features possible. The people are coming. Let's widen and make it safer. Thanks	6/17/2021	
Tim Martin	<a href="mailto:tm44@yahoo.com">tm44@yahoo.com</a>		Home Owner/Local Resident		North Port	Please add my contact information to this project's list of e-newsletter recipients.	6/16/2021	
Kevin Holt	<a href="mailto:kevnmich@hotmail.com">kevnmich@hotmail.com</a>		Home Owner/Local Resident		Venice, FL	Please widen I-75. We use it 4 times a week to commute to Sarasota and rush hour is just to condensed. The highway cannot handle the volume.	6/16/2021

Ann Potter	<a href="mailto:annpotter2@gmail.com">annpotter2@gmail.com</a>		Home Owner/Local Resident		1041 Capri Isles Blvd. Venice, FL	Hi I live in Venice, Fl. At 1041 Capri Isles Blvd, which is about 5 minutes from US 75 & Laurel Road Exit/interchange. I've lived here for 18 years, my parents lived here for 30+ years prior to their deaths. It has saddened me to see the amount of homes built without corresponding highway upgrades. It alarms me and all my neighbors and friends every hurricane season that those of us in this part of the state are totally gridlocked when it comes to evacuations due to the major lack of an effective, efficient, planned escape route.'s. I75 heading north from Venice is no longer a viable option as an escape route or as a route to the Tampa airport in a timely efficient manner. It's alarming to me as well that the lay citizens are being asked what should be done to relieve this outlandish situation. Isn't that what a transportation dept. is skilled and trained in providing to the citizens of each community? A) provide viable alternative routes north and south B) provide high speed rail north and south C) study the bottle neck created at university and I75 and figure out a solution!! D) create alternative lanes for anyone with more than one person in the car as they do in other cities E) widening I75 & taking years to do it only will only add to the gridlock now.... I would like to see all the way past university. Extend knights trail from Laurel Road past university. Extend river road past university. Provide rapid alternative north routes rather than the US-I75 death trap. Thank you for taking the time to read this Ann Potter Sent from my iPhone	6/16/2021	
Eileen DeLonge	<a href="mailto:del@delongeexcavating.com">del@delongeexcavating.com</a>	(941) 485-7799	Business Owner	DeLonge Excavating Contractors, Inc.		Absolutely there needs to be improvements made and more lanes added. We are adding so many homes and residents that our highway are now constantly crowded. Too many accidents are occurring and traffic jams are too often. This is very detrimental to our business which involves trucking.	6/16/2021

Sarah Potts	<a href="mailto:mpottst2@gmail.com">mpottst2@gmail.com</a>	(941) 779-4066	Home Owner/Local Resident		3328 46th Plaza E, Bradenton, FL	Thank you for all your hard work and planning. I have lived here most of my life and watched all the farm lands and orange groves become developments and retail. The largest problem you are facing with I75 in Manatee and Sarasota is volume. There is only one North to South alternative for I75 that is East of the interstate that fully connects Manatee and Sarasota Counties that could be used as a bypass if there is an accident. That is Lorraine Road, and it is significantly far away from the interstate that most people don't even know it exists. The second alternative is Lakewood Ranch Blvd, but it terminates at University Parkway, and for the most significant span, is a residential road with stop signs and speeds below 40mph. There are many I75 alternatives West of the interstate. Most of the development in the last 20 years has been to the East to produce large, low-speed residential communities with limited exits, which then drives all the traffic to a handful of exits. There desperately needs to be more extensive North to South infrastructure that would allow drivers to fully bypass I75. Otherwise, the only choice is for the interstate to absorb that volume and you would need to increase road width to 6+ lanes in each direction, and landscape is limited with the Braden River crossing and the various over/underpasses. Please help influence our community leaders to more seriously reflect on making travel easier East of the interstate.	6/16/2021	
Michael Penn	<a href="mailto:michaelpenn@verizon.net">michaelpenn@verizon.net</a>		Home Owner/Local Resident			The north corridor, Sarasota and Manatee County on I-75 needs some serious alleviation of traffic congestion. The roads also need to be repaved with a smoother surface so there is less road noise to surrounding residential areas.	6/16/2021	RESPONSE BY NICOLE HARRIS 06/17/2021 15:47  Mr. Penn,  Thank you for your interest in the Southwest Connect™ I-75 Master Plan Study. Gayle Namnette Hages	sarasotashotgun@yahoo.com		Home Owner/Local Resident			<p>There are many problems with I-75 but having more and visible law enforcement would bring many problems under control. Some drivers seem to think they are driving in a video game, there's no laws or safety concerns that they follow voluntarily.</p> <p>1. There are many and frequent drivers that drive excessive speed, improper lane changes—(no turn signal, passing on solid line) multiple lane changes weaving in and out, improper passing in right lane, cars are constantly cutting large commercial vehicles off in order to be in "front", and finally cars aren't traveling a safe distance apart. Tail gating is dangerous but at over 70 MPH it's deadly.</p> <p>2. There is no assistance for safe lane merging when there is an accident. The overhead traffic signs give warning but are spaced to far apart to give timely and correct lane information during long delays. It's dog eat dog and hazardous when drivers assess the situation necessitating the lane change due to lane closure. Sometimes drivers don't know the lane is closed until 2 or 3 vehicles from cause of lane closure and travel lane traffic refuses cars from closed lane to merge.</p> <p>3. Are the lanes the correct width? Many drivers are reluctant to drive in center lane (many drivers don't like to pull into the middle lane from the left to allow traffic to pass). The lanes are narrow.</p> <p>North of exit 226 the freeway lanes are wider. South of Ellenton exit to University Parkway lanes are narrow.</p> <p>If a vehicle drifts from middle lane the cars in either the left or right lane have the shoulder for safe margin.</p> <p>4. DOT needs to be more proactive as commercial trucks frequently travel in the left lane.</p>	6/16/2021

Paige Taylor	<a href="mailto:Taylorpaige146@gmail.com">Taylorpaige146@gmail.com</a>	(941) 468-1427	Home Owner/Local Resident			How will this impact property owners with equine and livestock living off of Jackson rd that backs 75.	6/15/2021	RESPONSE BY NICOLE HARRIS 06/17/2021 15:43  Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program  As you know, the FDOT is in the process of developing a Master Plan for the long-term improvements to the I-75 Corridor, throughout Sarasota and Manatee Counties. The Master Plan is evaluating the traffic needs and identifying the systemwide improvements that would allow the Department to meet the future needs, including accounting for traffic growth forecast through the year 2045.  We are currently in the traffic analysis phase of the study, so we have not yet determined the potential improvements in your vicinity or along the corridor thus far. The potential improvements may include widening, managed lanes, modifying existing interchanges, and/or evaluating requests for new interchanges.  Following the current North Corridor Master Plan, the entire project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project
Dustin Boff	<a href="mailto:dmanboff@gmail.com">dmanboff@gmail.com</a>		Home Owner/Local Resident			Build the road as wide as you can the first time instead of adding one lane at a time. It would save lots of money in the long . Or stop the building because it will be grid lock in 5 years and Florida will run out of drinking water. But the builders and commissioners don't care they are all getting rich. At the cost of our state being used up	6/15/2021

Benjamin Newman	<a href="mailto:bnnewman@cityofnorthport.com">bnnewman@cityofnorthport.com</a>	(941) 240-8320	Agency/Association	Kimley-Horn		How does a particular project get initiated, such as added lanes, interchange improvements, new interchanges?	6/15/2021	Mr. Newman,  Projects for major highways such as I-75 are added through a combination of the Long Range Transportation Plan (currently evaluating project needs through the year 2045), FDOT's 5-Year Work Program (developed in collaboration between the State Department of Transportation and local planning organizations - Sarasota-Manatee Metropolitan Planning Organization), and inclusion into the local and State Transportation Improvement Programs. These planning documents show the regional coordination and consensus required to move forward in pursuing and initiating projects.  We will include you in all future notifications and invitations for public meetings. You can also monitor the study website for updates.
Greg Lantz	<a href="mailto:gregory.lantz@hotmail.com">gregory.lantz@hotmail.com</a>		Home Owner/Local Resident			When will updated documents be available online? To date I've only seen the report vdated 2009. Obviously there should be newer documents.	6/15/2021	

Comments Received During the Virtual Public Outreach Meeting

Name	Email	Phone Number (optional)	Commenter Interest (optional)	Business / Agency / Company Name (optional)	Home address (optional)	Comment/Question	Entry Date	Response (if requested)
Scott Stone	<a href="mailto:lemon_ave@outlook.com">lemon_ave@outlook.com</a>		Home Owner/Local Resident		2220 Lemon Avenue Englewood, FL 34223	I support identifying proposed future improvements to Interstate 75 from River Road near Venice to Moccasin Wallow Road at the Sarasota-Manatee county line and including those improvements the an I-75 Master Plan. Although I am a retired Professional Engineer - MD, I offer no specific suggestions. Instead, I leave it to the planners and traffic engineers to make appropriate recommendations for widening, managed lanes, modifying interchanges, new interchanges, etc.  Thank you for the opportunity to offer comments on the I-75 North Corridor Master Plan.	6/15/2021	
Jackson Hurst	<a href="mailto:ahostuijghmister@yahoo.com">ahostuijghmister@yahoo.com</a>	(678) 628-4232	Other			Adding Managed Lanes to I-75 from River Road (FL 777) to Moccasin Wallow Road will help reduce congestion and improve travel times. Also, please look at reconstruction the I-75/I-275 Interchange.	6/15/2021	RESPONSE BY NICOLE HARRIS 06/17/2021 15:29  Mr. Hurst,  Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting.  The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Your input is important to us and your comment has been received and entered into this corridor’s public record.  As a reminder, this meeting’s collection of informative materials, including its display boards, videos, supplemental handouts, etc., are all currently available on this corridor’s project page located at <a href="https://www.swflinterstates.com/i75-north-corridor/">https://www.swflinterstates.com/i75-north-corridor/</a> . (Simply click DOCUMENTS at the top of the page and open the ‘JUNE 2021’ folder by clicking the + to the right.) Also found within this folder is a video recording of the 90 minute LIVE Q&A event held on June 15, 2021 from 5:00 p.m. to 6:30 p.m. Many of the questions asked and answered during this session could help provide viewers with an even greater understanding of the project.  Though the open comment period for this particular outreach event closes on June 25, 2021, your ability to leave comments and questions for project
Chris Porter	<a href="mailto:chris.porter@vour.sun.com">chris.porter@vour.sun.com</a>	(941) 681-3022	Home Owner/Local Resident			Please add my contact information to this project's list of e-newsletter recipients.	6/15/2021

## WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility.

Development of a Master Plan involves data collection, public outreach, analysis of current and future transportation needs, and the identification and evaluation of potential projects to address those needs.

## fast facts

- LENGTH**  
39.9 MILES
- COUNTIES**  
SARASOTA, MANATEE
- PHASE**  
PLANNING

The Florida Department of Transportation (FDOT) invites you to a public meeting for the Southwest Connect™ I-75 North Corridor Master Plan from south of State Route (SR) 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County. This Master Plan will lead to the long-term improvement of the interstate corridors in Southwest Florida by identifying solutions that are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

### CORRIDOR LIMITS:

I-75 from south of SR 777 (River Road) to north of Moccasin Wallow Road

For your convenience, FDOT is providing multiple ways to participate:

### AVAILABLE TO VIEW ONLINE:

Monday, February 20 - March 6, 2023

via the project website at:

[www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/).

### LIVE ONLINE EVENT:

Tuesday, February 21, 2023, 6 p.m.

Register at:

<https://bit.ly/I-75North>

### IN-PERSON OPEN HOUSE:

Thursday, February 23, 2023, 5 p.m. - 7 p.m.

The Realtor Association of Sarasota & Manatee  
2320 Cattlemen Road, Sarasota, FL 34232

The online meeting includes a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments can be provided through the project website and questions can be answered by calling the FDOT Project Manager, Nicole Harris, P.E., at (863) 519-2335 or via e-mail at nicole.harris@dot.state.fl.us. In addition, FDOT is hosting a LIVE Question and Answer Event ONLINE beginning at 6 p.m. on Tuesday, February 21, 2023. A registration link for the LIVE Online Q&A event can be found at [www.SWFLInterstates.com/north-corridor-vpm](http://www.SWFLInterstates.com/north-corridor-vpm).

While comments about the project are accepted at any time, please note that comments must be received or postmarked by Monday, March 6, 2023, to be included in the formal workshop record. A summary of the workshop comments and responses will be available on the webpage approximately 30 days following the close of the comment period.

The Florida Department of Transportation is required to comply with various non-discrimination laws and regulations, including Title VI of the Civil Rights Act of 1964. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Para información en español por favor comuníquese con nuestro representante, Luis Díaz al 407-710-3341. Nos interesa mucho la opinión del público sobre este proyecto.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

LIVE EVENT ONLINE

**EXTERNAL SENDER: Use caution with links and attachments.**

The Florida Department of Transportation and the SW Connect Interstate Project Teams evaluated and decided to take a proactive approach to revise the previous direction of the I-75 SW Connect PD&E Projects ETDM Numbers 14399 and 14400. This new direction allowed for more opportunities and funding flexibility for future phases. The Department revised the Planning Phase to produce an I-75 Master Plan. This Master Plan will lead to the long-term improvement of the interstate corridors in Southwest Florida by identifying solutions that are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns. The anticipated completion of the Master plan is summer 2023. The completed Master Plan will include projects to advance as smaller individual PD&E studies. The Department is placing the current SW Connect PD&E studies on hold until the Master Plan has identified projects to advance. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

Both virtual and in-person meetings will be held for the I-75 Master Plans see attached for dates and times.

## Notice of Meeting/Workshop Hearing

### OTHER AGENCIES AND ORGANIZATIONS

#### HDR, Inc.

The Florida Department of Transportation (FDOT), District One announces a public meeting to which all persons are invited.

DATES AND TIMES: Tuesday, February 21, 2023, 6:00 p.m. (online); Thursday, February 23, 2023, 5:00 p.m. – 7:00 p.m. (in-person)

PLACE: Online through a computer, tablet, or mobile device (visit <https://bit.ly/I-75North> to register), or online at [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/)

In-person at Realtor Association of Sarasota and Manatee County, 2320 Cattlemen Road, Sarasota, FL 34232

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT) invites you to a public meeting for the Southwest Connect™ I-75 North Corridor Master Plan from south of State Route (SR) 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County. There will be a live online question and answer session on Tuesday, February 21, 2023, 6:00 p.m. and an In-Person Open House on Thursday, February 23, 2023, 5:00 p.m. – 7:00 p.m.

The meeting materials will be available online from February 20-March 6, 2023 at [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/) The online public outreach materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments can be provided through the project website and questions can be answered by calling the FDOT Project Manager, Nicole Harris, P.E., at 1(863)519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us).

While comments about the project are accepted at any time, please note that comments must be received or postmarked by Monday, March 6, 2023, to be included in the formal workshop record. A summary of the workshop comments and responses will be available on the webpage approximately 30 days following the close of the comment period.

FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as this, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.

FDOT is sending notices to property owners, business owners, interested persons and organizations adjacent to I-75 to provide the opportunity to give comments to FDOT regarding this project.

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

A copy of the agenda may be obtained by contacting: Nicole Harris, P.E., at 1(863)519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us).

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting: Cynthia Sykes, FDOT District One Title VI Coordinator by email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) or by phone at 1(863)519-2287. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

For more information, you may contact: Nicole Harris, P.E., at 1(863)519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us).

### **FDOT hosts Southwest Connect™ I-75 North Corridor Master Plan Public Outreach Meeting**

*I-75 from south of SR 777 (River Road) in Sarasota County to  
north of Moccasin Wallow Road in Manatee County*

Including an In-Person Open House, Online Virtual Tour and LIVE Q&A Event

**Sarasota & Manatee County, FL** -- The Florida Department of Transportation (FDOT), District One, is hosting a Public Outreach Meeting for the Southwest Connect™ I-75 North Corridor Master Plan from south of State Route (SR) 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County.

For convenience, FDOT is providing multiple ways to participate: at an In-Person Open House and online at the project website: [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/)

The In-Person Open House will occur Thursday, February 23, 2023, from 5 – 7 p.m. at the Realtor Association of Sarasota & Manatee, 2320 Cattlemen Road, Sarasota, FL 34232.

The meeting materials will also be available for viewing and comment online at [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/) from Monday, February 20 through Monday, March 6. The online public outreach meeting materials include a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open-house meeting will provide the same materials and information as the online meeting materials.

In addition, FDOT is hosting a LIVE Question and Answer (Q&A) Event ONLINE beginning at 6 p.m. on Tuesday, February 21, 2023. To register for the virtual Q&A event, please go to [www.SWFLInterstates.com/north-corridor-vpm](http://www.SWFLInterstates.com/north-corridor-vpm).

## PUBLIC MEETING

Southwest Connect™ I-75 North Corridor Master Plan

Financial Project ID No.: 442518-1  
Sarasota and Manatee Counties, Florida

**PUBLIC MEETING NOTICE – Southwest Connect™ I-75 North Corridor Master Plan from south of State Route (SR) 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County.**

The Florida Department of Transportation (FDOT) invites you to a public meeting for the Southwest Connect™ I-75 North Corridor Master Plan from south of SR 777 (River Road) in Sarasota County to north of Moccasin Wallow Road in Manatee County. This Master Plan will lead to the long-term improvement of the interstate corridors in Southwest Florida by identifying solutions that are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.

For your convenience, FDOT is providing multiple ways to participate:

**AVAILABLE TO VIEW ONLINE:** Visit the project website at [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/) to view project materials from Monday, February 20 through Monday, March 6.

**LIVE ONLINE EVENT:** This online event will be held on Tuesday, February 21 beginning at 6 p.m. Please register at: <https://bit.ly/I-75North>.

**IN-PERSON OPEN HOUSE:** Attend the public meeting on Thursday, February 23, 2023, at the The Realtor Association of Sarasota & Manatee, 2320 Cattlemen Road, Sarasota, FL. Visit the meeting any time between 5 and 7 p.m. to view the project video and displays, speak with project team members and submit comments or questions.

The online meeting includes a virtual tour with multiple interactive stations containing video and other static displays all designed to introduce the project and study process, present information regarding existing conditions, and receive feedback. The in-person open house will provide the same materials and information as the online meeting materials. Comments can be provided through the project website and questions can be answered by calling the FDOT Project Manager, Nicole Harris, P.E., at (863) 519-2335 or via e-mail at [nicole.harris@dot.state.fl.us](mailto:nicole.harris@dot.state.fl.us). In addition, FDOT is hosting a LIVE Question and Answer Event ONLINE beginning at 6 p.m. on Tuesday, February 21, 2023. A registration link for the LIVE Online Q&A event can be found at [www.SWFLInterstates.com/north-corridor-vpm](http://www.SWFLInterstates.com/north-corridor-vpm).

The Florida Department of Transportation is required to comply with various non-discrimination laws and regulations, including Title VI of the Civil Rights Act of 1964. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. People who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at 863-519-2287 or by email at [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven (7) days prior to the meeting.

Para información en español por favor comuníquese con nuestro representante, Luis Díaz al 407-710-3341. Nos interesa mucho la opinión del público sobre este proyecto. The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

### WHAT IS A MASTER PLAN?

A Master Plan is a document that summarizes a community's vision for future transportation and provides a set of recommended improvements to enhance safety and mobility. Development of a Master Plan involves:

- *Data Collection*
- *Public Outreach*
- *Current and Future Transportation Needs Analysis*
- *Identification and Evaluation of Potential Projects*

The Master Plan will document the corridor's needs, define and prioritize necessary improvements, and identify ways to fund these improvements. The FDOT will develop an Implementation Plan based on priorities identified in the Master Plan. Funded priorities will become individual projects which progress through the Project Development Process.

### INTERCHANGE PROJECTS PROPOSED

PROJECT NAME	LENGTH (miles)	YEAR OF NEED	IMPROVEMENT TYPE
River Rd. (SR 777) Interchange	0.514	2025	Signalize Ramp Terminals
Jacaranda Blvd. Interchange	0.666	2032	Interchange Configuration and Improve Adjacent Intersections
SR 681	5.118	>2045	Interchange Configuration
University Pkwy. Interchange	0.682	2029	Interchange Configuration and Improve Adjacent Intersections
Moccasin Wallow Rd. Interchange	2.367	2029	Interchange Configuration and Improve Adjacent Intersections

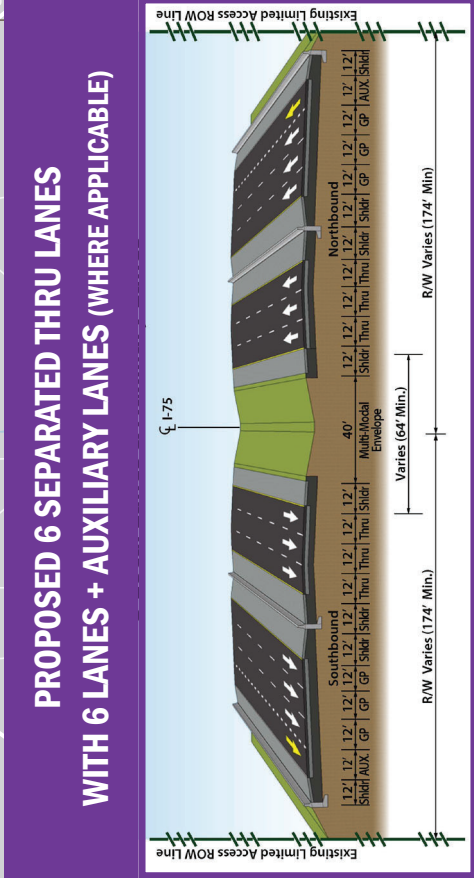

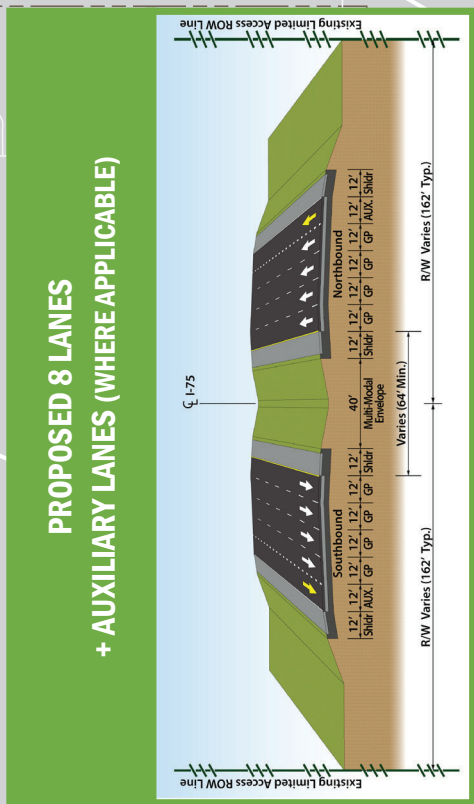

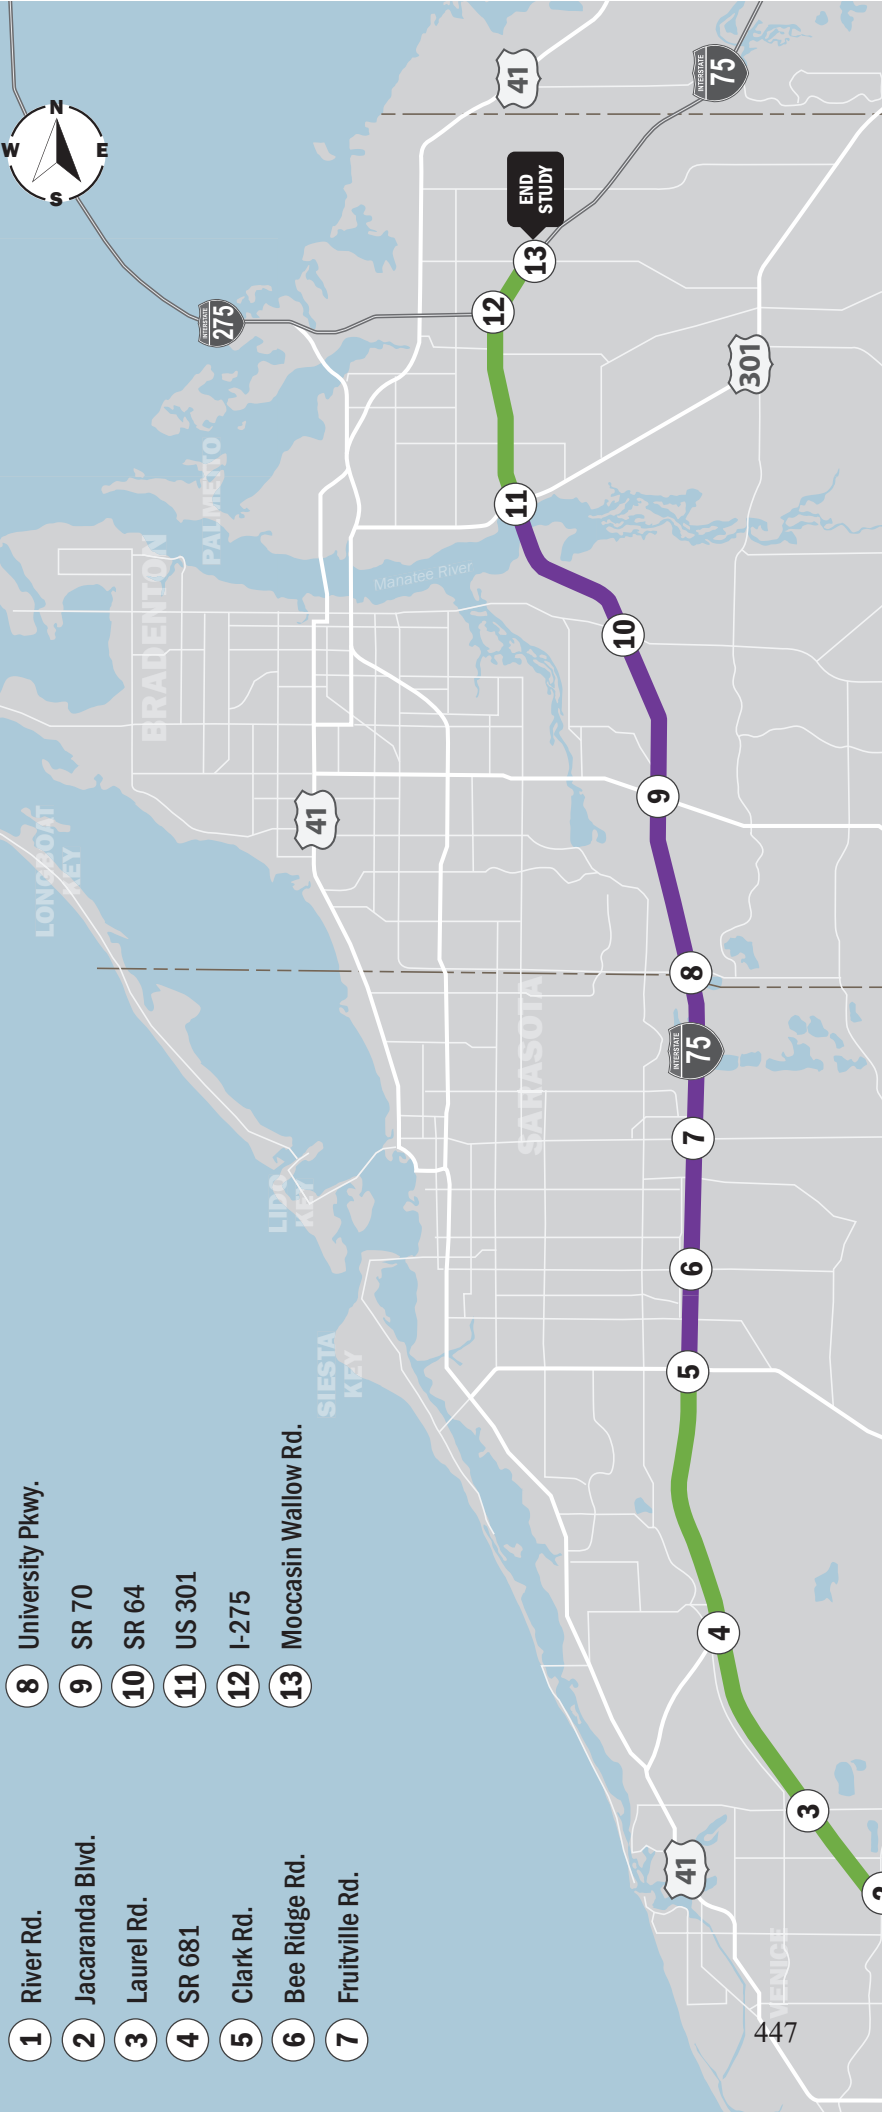

### MAINLINE PROJECTS PROPOSED

PROJECT NAME	LENGTH (miles)	YEAR OF NEED
I-75 from north of Sumter Blvd. to south of Clark Rd.	22.888	2026
I-75 from south of Clark Rd. to north of Fruitville Rd.	5.355	2038
I-75 from north of Fruitville Rd. to north of SR 70	7.168	2034
I-75 from north of SR 70 to north of US 301	7.295	2035
I-75 from north of US 301 to south of I-275	2.823	2031

The Florida Department of Transportation may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process. The Florida Department of Transportation is required to comply with various non-discrimination laws and regulations, including Title VI of the Civil Rights Act of 1964. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Para información en español por favor comunicarse con nuestro representante, Luis Díaz al 407-710-3341. Nos interesa mucho la opinión del público sobre este proyecto. People who require special accommodations under the Americans with Disabilities Act or who require translation services (free of charge) should contact Cynthia Sykes, District One Title VI Coordinator, at (863) 519-2287, or email [Cynthia.Sykes@dot.state.fl.us](mailto:Cynthia.Sykes@dot.state.fl.us) at least seven days prior to the meeting.

# I-75 MASTER PLAN (North Corridor) PROPOSED TYPICAL SECTIONS

Manatee  
Sarasota

## TRAFFIC NOISE EVALUATION PHASES

### PROJECT DEVELOPMENT AND ENVIRONMENT (PD&E) PHASE

FDOT begins the noise evaluation process during the PD&E study phase. The Department developed this engineering and environmental process, which includes a preliminary analysis of alternatives developed for a project. FDOT presents the alternatives at a public information workshop. After the workshop, the Department selects a preferred build alternative and performs a detailed noise analysis on the alternative. This analysis includes an evaluation of noise abatement measures with results presented at a public hearing.

### DESIGN PHASE

During the design phase of a project, FDOT develops detailed highway plans, right-of-way requirements are determined, and the right-of-way acquisition process begins. When plans are approximately 60 percent complete, engineering details are sufficient to allow for a reassessment of any abatement measures determined to be potentially feasible and reasonable during the PD&E phase. Following public coordination, the department will incorporate all feasible and reasonable measures into the final design plans.

### CONSTRUCTION PHASE

FDOT includes feasible and reasonable traffic noise abatement measures as part of the construction project.

## EXAMPLES OF NOISE BARRIER WALLS

[www.SWFLINTERSTATES.COM](http://www.SWFLINTERSTATES.COM)

# TRAFFIC NOISE EVALUATION PROCESS

## WHEN IS A NOISE STUDY NEEDED?

The Florida Department of Transportation (FDOT) performs traffic noise impact evaluations using Federal Highway Administration (FHWA) approved methodology. Highway projects are evaluated for traffic noise impacts when:

- a new highway alignment is built;
- an alteration to an existing highway substantially changes its horizontal or vertical alignment; or
- the number of through traffic lanes is increased.

# STEPS OF EVALUATING TRAFFIC NOISE

## STEP 1:

### Identification of noise sensitive sites

FDOT gives primary consideration to exterior areas where frequent human use occurs. Seven categories of activity/land use are used to assess the potential impacts of noise. Some examples of noise sensitive sites include exterior areas of residences, schools, churches and recreational facilities.

## STEP 2:

### Determination of traffic noise impacts

The Department determines future traffic noise levels that are attributed to the proposed highway project and compares the levels to FHWA noise abatement criteria (NAC). Typical noise sensitive sites with predicted noise levels that reach or exceed 66 decibels [dB(A)] or experience an increase of 15 db(A) above existing noise levels (for NAC B/C) require abatement consideration.

## STEP 3:

### Consideration of abatement measures

Federal regulation requires consideration of a noise barrier as a traffic noise abatement measure. A noise barrier is a concrete wall constructed on public right-of-way between the proposed highway improvements and the noise sensitive site. Feasibility factors involve both noise reduction and engineering considerations. The barrier must provide a reduction of at least 5 dB(A) to a minimum of 2 impacted receptors. The barrier is reviewed to consider if it can be constructed using standard construction methods and techniques. Safety also plays a critical factor in determining if a barrier is feasible. Other feasibility factors include access, right of way, maintenance, drainage, and utilities.

The Department also gives consideration to cost effectiveness (\$42,000 per benefited receptor) and viewpoints of property owners and residents.

## STEP 4:

### Commitments to abatement measures

Following completion of the noise impact evaluation, the methodology and results are documented in the project's Noise Study Report.

If the Department determines an abatement measure is potentially feasible and reasonable, a commitment is made to further evaluate the measure during the design phase of the project.

## COMMON OUTDOOR SOUND LEVELS

JET PLANE FLYOVER @ 1000 ft. >  
HORN NOISE - TRAIN @ 100 ft. >

< INSIDE SUBWAY TRAIN (NY)  
< FOOD BLENDER @ 3 ft.  
< GARBAGE DISPOSAL @ 3 ft.

< VERY LOUD SPEECH @ 3 ft.  
< VACUUM CLEANER @ 10 ft.  
< NORMAL SPEECH @ 3 ft.

< LARGE BUSINESS OFFICE  
< DISHWASHER NEXT ROOM  
< SMALL THEATER  
< LARGE CONFERENCE CENTER (BACKGROUND)

< LIBRARY

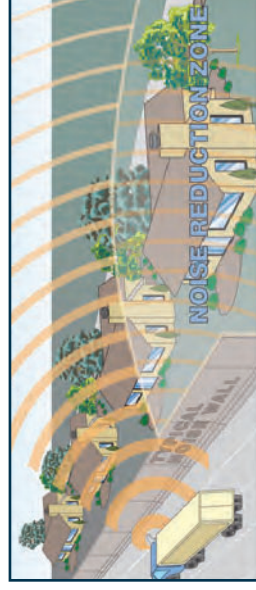

< BEDROOM AT NIGHT  
< CONCERT HALL (BACKGROUND)

< BROADCAST AND RECORDING STUDIO

< THRESHOLD OF HEARING

## What will a Noise Barrier do?

- The goal is to reduce traffic noise by at least 5 decibels (dB)
- The amount of noise reduction depends on:
  - Distance of the receptor from the barrier
  - Distance of the noise source from the barrier
  - Length and height of the barrier
  - Elevation differences among the road, barrier and receptor

# ACQUISITION PROCESS

The rights explained in this pamphlet are derived from Chapter 73, Florida Statutes. The relevant portions of Chapter 73 concerning the real estate acquisition process of real property are provided for your information at [www.FDOT.gov](http://www.FDOT.gov).

Effective: October 13, 2017

The Florida Department of Transportation's (FDOT) mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances the economic prosperity and preserves the quality of our environment and communities.

To accomplish our mission, sometimes it is necessary for us to acquire private property. Because you are the owner of property that will be needed for a transportation facility, we have prepared this pamphlet to briefly explain our acquisition process as well as your rights and options.

## PROPERTY/PROJECT INFORMATION LETTER

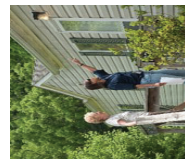

We will provide a letter that includes information about the property we are seeking to acquire, no later than the time we make you a written offer to purchase your property. This letter will explain the nature of the transportation project and will describe the portion of your property we need to acquire.

We will also provide a point of contact for you located within the Office of Right of Way.

## PROPERTY APPRAISAL

Prior to making an offer to purchase your property, a real estate appraiser or other real estate expert will contact you to arrange an onsite inspection of the property.

We encourage you to be present during the inspection and to provide any information which might affect the value of your property. Should you choose to obtain your own appraisal and share this opinion with us, the opinion will be considered during the negotiation process. Additionally, FDOT will reimburse you for reasonable costs of obtaining real estate appraisers or other experts' services to assist you with assessing the value of the property we are acquiring.

## OFFER TO PURCHASE

Our offer to purchase your property will be made in writing to you either in person or by certified mail and will not be less than the amount we have determined to be the fair market value of the property.

After you have reviewed our offer, you may choose to make a counteroffer. If you do so, we will consider your counteroffer and will seek to arrive at a mutually agreeable purchase price.

## OWNER REPRESENTATIVE & CONDEMNATION

You may designate someone to represent you during negotiations and we will work with your representative to resolve any issues. If you choose to be represented by an attorney licensed to practice law in Florida, you will be reimbursed for reasonable fees paid to the attorney. However, the amount of fees paid by FDOT may be limited by law.

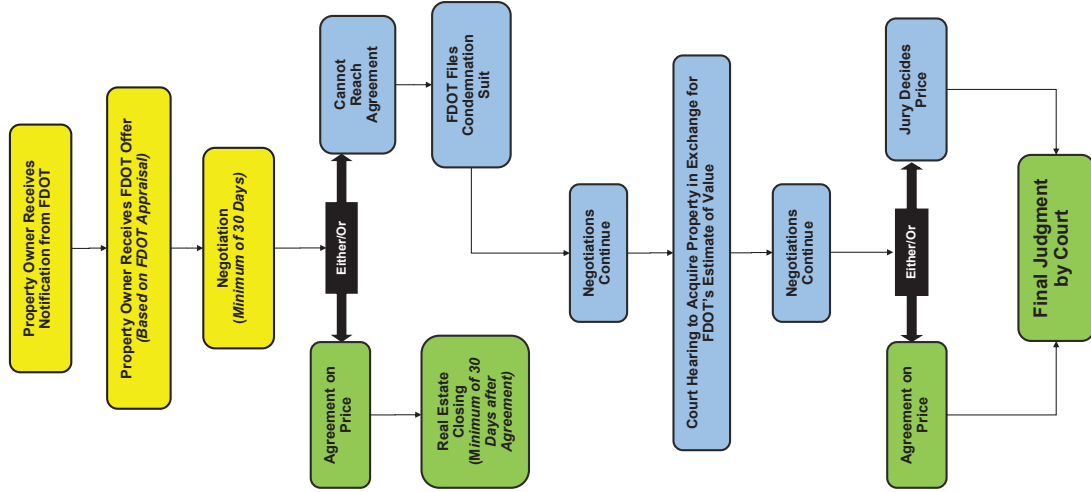

If we are unable to reach a mutually agreeable purchase price, we may choose to file a condemnation action, which will not occur less than 30 days from the date we make our written offer to purchase. But, FDOT will continue to negotiate with you or your representative throughout the litigation process.

## FDOT CONTACT INFORMATION

If you would like copies of the appraisal, right of way maps or construction plans, we will provide the documents within 15 days of your request. However, some of the documents may not be complete at the time of your request, but we will either inform you of when we will provide the completed version of the requested information or provide you the most recent information available.

Please feel free to contact us if you have additional questions or if you need more information about the project or the acquisition process.

# PROCESO DE ADQUISICIÓN

Los derechos explicados en este panfleto se derivan del Capítulo 73 de los Estatutos de Florida. Las porciones relevantes del Capítulo 73 concernientes al proceso de adquisición de inmuebles son suministradas para su información en [www.FDOT.gov](http://www.FDOT.gov).

La misión del Departamento de Transporte de Florida (FDOT) es proporcionar un sistema de transporte seguro que garantice la movilidad de las personas y los bienes, mejore la prosperidad económica y preserve la calidad de nuestro medio ambiente y nuestras comunidades.

A fin de cumplir con nuestra misión, en ocasiones nos vemos en la necesidad de adquirir propiedad privada. Puesto que usted es dueño de una propiedad que se necesitará para una vía de transporte, hemos preparado este panfleto en el que se explica brevemente nuestro proceso de adquisición, así como sus derechos y opciones.

## CARTA INFORMATIVA SOBRE LA PROPIEDAD Y EL PROYECTO

Enviaremos una carta que incluirá información sobre la propiedad que planeamos adquirir, no más tarde que al tiempo en que le hagamos una oferta por escrito para comprar su propiedad. En esta carta se explicará la naturaleza del proyecto de transporte y se describirá la porción de su propiedad que necesitaremos adquirir.

Asimismo le proporcionaremos un punto de contacto que esté ubicado dentro de la oficina de servidumbre de paso (*Office of Right of Way*).

## AVALÚO DE LA PROPIEDAD

Antes de hacerle una oferta de compra de su propiedad, un (tasador) u otro experto en bienes y raíces se pondrá en contacto con usted para acordar una inspección en persona de la propiedad.

Le aconsejamos que esté presente durante la inspección y proporcione cualquier información que pudiera afectar el valor de su propiedad. En caso de que usted decida obtener su propio tasación y compartir la con nosotros, esta será tomada en cuenta durante el proceso de negociación. Adicionalmente, el FDOT le reembolsará el costo razonable de obtención de la tasación o servicios de otros expertos que le ayuden a determinar el valor de la propiedad que estamos adquiriendo.

## OFERTA DE COMPRA

Le haremos nuestra oferta de compra de su propiedad por escrito, ya sea en persona o mediante correo certificado, y no por una suma menor a la que hayamos determinado como el valor de mercado justo de la propiedad.

Una vez que usted haya revisado nuestra oferta, puede optar por hacernos una contraoferta. Si así lo hiciera, someteremos su contraoferta a consideración y buscaremos llegar a un precio de compra de mutuo acuerdo.

## REPRESENTANTE DEL PROPIETARIO Y EXPROPIACIÓN FORZOSA

Usted puede designar a otra persona para que lo represente durante las negociaciones y trabajaremos con su representante para resolver cualquier problema. Si usted decidiera ser representado por un abogado de Florida, se le para ejercer derecho en el estado de Florida, se le reembolsarán los honorarios razonables que usted le pague al abogado. No obstante, la suma de los honorarios pagados por el FDOT podría estar limitada por las leyes.

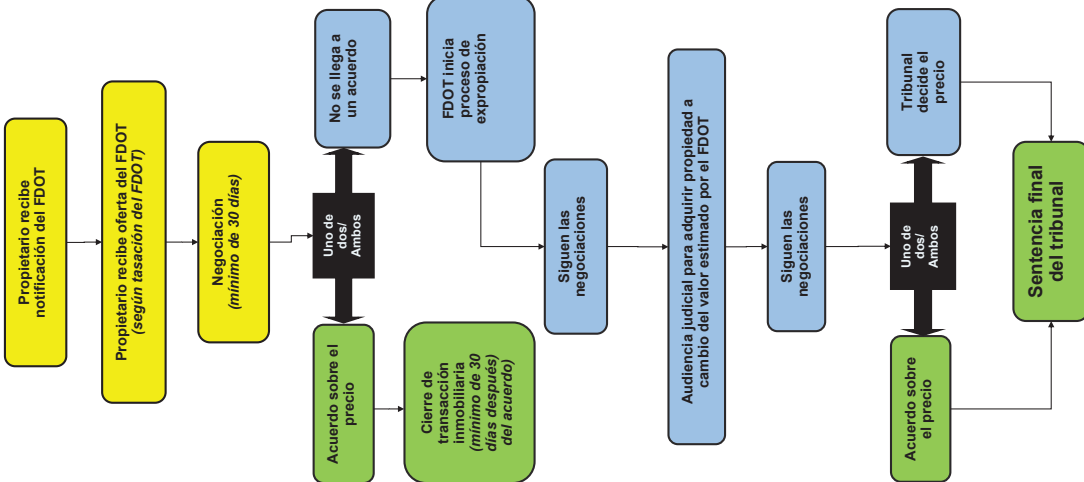

En caso de que no llegáramos a un acuerdo mutuo sobre el precio de compra, podríamos decidir iniciar un proceso de expropiación, lo cual no ocurrirá antes de 30 días a partir de la fecha en que le hagamos nuestra oferta de compra por escrito. Sin embargo, el FDOT seguirá negociando con usted o su representante durante todo el proceso de litigio.

## INFORMACIÓN DE CONTACTO DEL FDOT

Si deseara tener copias del avalúo, mapas de servidumbre de paso de vía o los planos de construcción, podemos ofrecerle estos documentos en un lapso de 15 días a partir de la fecha de solicitud. Sin embargo, es posible que algunos de estos documentos no estén listos al momento de su solicitud, por lo que le informaremos la fecha en que le enviaremos la versión completa de la información solicitada o le suministraremos la información más actualizada que tengamos al alcance.

No dude en contactarnos si tiene preguntas adicionales o necesita más información sobre el proyecto o el proceso de adquisición.

Pat Kiehn - P.Kiehn@hotmail.com -  
8219 Indigo Ridge Terrace  
University Park

Noise

- ① Can you direct me to the last study done & completed on the I75 expansion on University Pkwy. & North 170 Interchange?
- ② Under (ADES) when was it last done?
- ③ When in the <sup>Near</sup> future when will it be done?
- ④ Will it still be computer generated?
- ⑤ Will someone "physical" come out - & measure Decibels?
- ⑥ Is there any grants available for walls/ plantings/ fencing??
- ⑦ What process is for "Exceptions" since we were turned down in 2019 - who do we talk too / #

I-75 NORTH CORRIDOR MASTER PLAN PUBLIC MEETING

PUBLIC OUTREACH MEETING: **FEBRUARY 23, 2023**

Your comment is important. Please print in the space provided below and place in the comment box here tonight or mail to the address printed on the back of this form.

MOVING FORWARD TOGETHER

## COMMENTS (Please Print)

1. Can you direct me to the noise study that was completed on the I-75 expansion between the University Pkwy and Rt-70 Interchanges (Prior to 2019)
2. Can actual studies be conducted by FDOT in the Univ. Place community vs computer generated models.
3. Are there grants or funding for plantings to help with noise reductions?
4. Do you have suggestions other than a wall to help with noise abatement? New technology or products that may be available? What is used at airports.

## COMMENTS (Please Print)

FDOT - in 2019 you came to our Community & Rejected All Our Concerns but you would come back... When - @ Re address we have had noise studies done... etc. The dates /

Our Community was built in 2000 before UTC Mall / Highway <sup>2004</sup> / 8 lanes currently @ Roundabout (Diverging Diamond)

- ② Why was Noise Wall Placed ~~to~~ ON I-75 - North Bound Lane ... No homes 4 years +
- ③ Are there any grants Available to help us Plant / Fencing / Wall on our Property.

MOVING FORWARD TOGETHER

## COMMENTS (Please Print)

Slip lanes appear to be short approach & exit. More Room should be provided to allow drivers time to adjust. Washington DC has what I find to be very short slip ramps between HOV paid lanes & general lanes. a deceleration lane similar to Exits to main roads would be preferred.

Noise - how to limit noise without creating a canyon. Berms? Trees?

Traffic Safety: Does design reduce accidents?

Public Input - as many meetings, presentations as possible, so we are aware of project.

① would a representative readdress the extensive noise levels in our community - University Place

② PLANS FOR A WALL AS INSTALLED along I 75 and Cattleman south of University Parkway?

③ PLANS FOR FOLIAGE replacement taken down during construction of OFFICE PARK ON COOPER CREEK?

④ ARE THERE GRANTS AVAILABLE for expenses?

I live in UNIVERSITY PLACE AT 8234  
INDIGO RIDGE TERRACE, 34201. MY  
HOUSE HAS THE KANAI FACING EAST AND  
IT IS UNUSABLE, FOR 10 YEARS. WHEN I  
MOVED THERE, I WROTE TO MR. NEAL ABOUT  
HOW THE BERM IS TOO SHORT ON THE SOUTH  
END AND THE LITTLE FENCE DIPS BELOW THE  
LEVEL OF I-75. I COULD SEE CARS FROM  
MY KITCHEN WINDOW. I ALSO KNOW THAT  
THERE ARE NO TREES ON THE MOWING AREA  
ON THE INTERSTATE SIDE, LEAVING A GAP  
OF NO TREES ON EITHER SIDE OF THE SMALL  
FENCE. IF WE CAN'T GET A FENCE, CAN WE GET  
HELP WITH PLANTING MORE TREES?

UNIVERSITY PLACE

THE NOISE IN OUR NEIGHBORHOOD FROM I-75 IS UNACCEPTABLE! WE NEED ANY KIND OF NOISE BARRIER (TREES, WALL, ETC.) WE ARE THE ONLY COMMUNITY ALONG 75 WITH NO NOISE BARRIER.

THE PREVIOUS NOISE SURVEY WAS BOGUS AND NEEDS TO BE READDRESS ASAP!!! WE CANNOT HEAR THE T.V. WITH THE SLIDERS OPEN AT NIGHT DUE TO TRAFFIC NOISE. WE HAVE TO SLEEP WITH 2 NOISE MAKERS AT NIGHT TO DROWN OUT THE TRAFFIC NOISE SO WE CAN SLEEP! PLEASE HELP!

OUR PROPERTY BORDERS I75 & WE ARE CONCERNED ABOUT NOISE. WE HAVE BEEN THERE SINCE 1983 & NOISE HAS GOTTEN WORSE SINCE THE LAST TIME IT WAS WIDENED, SO WE CERTAINLY CONCERNED SINCE TRAFFIC HAS BEEN SO MUCH MORE.

WE ARE ALSO CONCERNED IF IT WILL IMPACT HOW MUCH CLOSER TO OUR PROPERTY THIS WILL COME.

There should be no tolls. Florida is known for its tourist friendly atmosphere. This would deter people from coming to Florida.

Phyllis Weitzner	phyllisweitzner@aol.com		Home Owner/Local Resident		off Bee Ridge Rd.	<p>I believe the success of increasing the efficiency of traffic I-75 between Naples and Tampa relies mostly upon having several north-south roads parallel to I-75, east of the interstate, to handle local traffic and emergency traffic and weather egress. I am mainly concerned with the Sarasota-area traffic.</p> <p>+North-south roads east of I-75, such as Lorraine and further east, would take some local traffic off I-75 and make it flow better.</p> <p>+The Clark Road exit 205 is so busy and dangerous as it is a 20 minute minimum round-trip if you miss the exit. Another exit built between 200 and 205, as well as possibly between 195 and 200, would help with this. Exit 200 should have both north and south access to I-75.</p> <p>+Bee Ridge Road-style roundabouts (and not the new amoeba-shaped ones at US 41 in downtown Sarasota) seem to work very well to keep traffic flowing but slow it down at intersections. However, I think they would cause gridlock at busier streets like Fruitville Road in traffic and weather emergencies.</p> <p>+Having additional overpasses over I-75 without interstate access would help local traffic immensely. For example, between Lakewood Ranch Blvd and Cattleman just south of Benderson Park.</p> <p>Thank you.</p>	3/6/2023

Nancy Kish (Gargiulo)	nkg1121@yahoo.com	(203) 767-8042	Home Owner/Local Resident		5821 Hidden Willow court, Sarasota, FL Hammock Preserve	<p>Hello Nicole,</p> <p>I attended the Live Q &amp; A Session. I am discouraged by the information regarding sound and traffic studies around exit 200 /Osprey and 681 exit. My takeaway is that such studies will not take place until 2028 .. is this correct and a definite timetable?</p> <p>Traffic noise has exploded since we built in 2017. We can not even sit on our lanai many days and evenings and are contemplating leaving the area. I am not sure if sound barriers would even benefit us - our home may be too far from potential sound walls, and the noise would travel over any potential walls. Is this information you would be able to share with us ? It would help us make a decision on whether or not to move - or try to stick it out. We would be so appreciative of any information and can share it with our community and neighbors, many of whom have the same concerns. A few have already sold and are moving because of the traffic noise.</p> <p>Thank you.</p> <p>Best, Nancy and Joe Gargiulo 5821 Hidden Willow Court, Sarasota FL Hammock Preserve</p>	3/1/2023	<p>RESPONSE PROVIDED BY NICOLE HARRIS 03/01/2023 13:01</p> <p>Thank you for your interest in the Southwest Connect™ I-75 Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to send a question to us.</p> <p>This Master Plan will lead to the long-term improvement of the interstate corridors in Southwest Florida by identifying solutions that are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.</p> <p>FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master</p>

Jeannette Anderson	horseg25@yahoo.com		Home Owner/Local Resident		3360 Bonita Dr., Venice, FL 34292	<p>You speak of Noise barriers has anyone thought of safety barriers for the property owner?</p> <p>My house is what I would consider far enough off the interstate however about 30 years ago we ended up with a semi tire in our house.-minutes later this would have had dire circumstances. Another instance a small tanker lost control in wet conditions and came through the wire fence on I75 and continued into our barn and knocked a portion of it down.</p> <p>Again luckily no animals were in the structure at the time.</p> <p>Another car north bound high rate of speed crossed over median and ended up in our fence heading south.</p> <p>We have no protection from any of the above and then to get the fence repaired is another issue. In regards to the fence this is the original fence and no maintenance has been done.. It should be mandatory to erect the "noise barrier" wall that would also serve as protection from any of the above where there are houses that back up to I75. Also to protect homeowners from individuals entering such properties by climbing over the current wire fence in which has also happened several times in the past. Having such a wall would help with the negative property value that we face by having I75 in our backyard.... Noise would be further down our list- safety , property value, then noise is what I am sure many others would rate the same.</p>	2/26/2023	<p>RESPONSE PROVIDED BY NICOLE HARRIS 2/27/2023 9:24</p> <p>Thank you for your interest in the Southwest Connect™ I-75 South Corridor Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to submit your comment to us.</p> <p>We look forward to working with you on this project moving forward.</p> <p>Nicole Harris, PE</p>

Name	Email	Phone Number (optional)	Commenter Interest (optional)	Business / Agency / Company Name (optional)	Home address (Optional)	Comment/Question	Entry Date	Response (if requested)
Bob Kloss	<a href="mailto:bobkflorida@aol.com">bobkflorida@aol.com</a>	(941) 355-1011	Home Owner/Local Resident		7718 Rio Bella Place, University Park, FL 34201	<p>A notice by the Florida Dept. of Transportation (FDOT) stated that it is receiving comments concerning the I-75 North Corridor Master Plan. The notice indicated that FDOT is analyzing the I-75 existing transportation challenges, which may include widening managed lanes, modifying interchanges and identifying projects. FDOT has said that the Master Plan will also include public outreach, which will serve as input in the identification and prioritization of projects to move forward into the Project Development process.</p> <p>The Riva Trace Community is requesting a project be considered for the Project Development process. This project would be constructing a sound barrier wall along I-75 to reduce the significant amount of traffic noise caused by the expansion of I-75 traffic lanes and removing trees along I-75. FDOT has been constructing sound barrier walls just north and south of the Riva Trace Community for the past several years. FDOT would not consider constructing a sound barrier wall for the Riva Trace Community because of an agreement which was approved on December 8, 2011. The Riva Trace Community consist of eighty-six single family homes and borders Honor Road and I-75. The Riva Trace Community is approximately two miles north of the University Parkway exit 213. We received a letter from FDOT dated January 17, 2020. In that letter FDOT informed us that a Project Development and Environmental Study was approved by the Federal Highway Administration on December 8, 2021. This date sets what is known as the Date of Public Knowledge. Development that is permitted for construction after this date is not considered for noise abatement by FDOT, unless there is a request that the FDOT consider as part of this project to extend River Road north across Curry Creek to Border Road. This would provide improved traffic flow and evacuation routes. In addition, I request that FDOT provide access to the northwest property at the interchange to facilitate commercial development.</p>	2/19/2023	<p>RESPONSE PROVIDED BY NICOLE HARRIS 2/21/2023 13:57</p> <p>Mr. Kloss, Thank you for your interest in the Southwest Connect™ I-75 Master Plan. Susan Jones	<a href="mailto:susangracejones@gmail.com">susangracejones@gmail.com</a>	(865) 384-4587				Nicole,  Thank you for the quick response. If at some point River Road was to be extended across Curry Creek, would that be FDOT scope, or would the county be responsible for that type of project? Also, would FDOT be the responsible party for providing access to the Northwest interchange property?  Thank you, Susan Jones	2/21/2023	RESPONSE PROVIDED BY NICOLE HARRIS 2/21/2023  I am not 100% sure but I would think the scope and improvements of that area would fall under the County or a private developer.
Ike Koziol	<a href="mailto:ikekoziol@me.com">ikekoziol@me.com</a>					Thank you for taking questions. The highway south of Clark has become busier and noisier and the sound is intolerable on both sides of I-74. Is there a plan to erect sound barriers? The many houses were built 20 years ago when there was far less traffic.  Ike Koziol	2/21/2023	RESPONSE PROVIDED BY NICOLE HARRIS 2/21/2023  Mr. Koziol, Thank you for your interest in the Southwest Connect I-75 North Corridor Master Plan. The Florida Department of Transportation (FDOT) - District One and the entire Southwest Connect Interstate Program team appreciates you taking the time to submit your comment to us. Please reach out to Brian Bolas, <a href="mailto:brian.bollas@atkinglobal.com">brian.bollas@atkinglobal.com</a> , for the Clark interchange improvements and locations (if any) of the noise barriers.  Thank you once again for your interest and input. We look forward to working with you on this project moving forward.  Nicole Harris, PE
Peter Schneider	<a href="mailto:pschneider1@tampabay.rr.com">pschneider1@tampabay.rr.com</a>					I can't attend the webinar —however, in Manatee County building is out of control and traffic getting like California —the road systems need chance to catch up —should be a stop on development until all the approved housing is built and an assessment made about the quality of life.  Peter Schneider	2/21/2023	RESPONSE PROVIDED BY NICOLE HARRIS 2/21/2023  Mr. Schneider, Thank you for your interest in the Southwest Connect I-75 South Corridor Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect Interstate Program team appreciates you taking the time to submit your comment to us.  We look forward to working with you on this project moving forward.  Nicole Harris, PE

Susan Jones	susangracejones@gmail.com	(865) 384-4587				<p>Nicole Harris, PE.</p> <p>I would like to propose that FDOT consider providing Border Road access to I-75 at the River Road interchange. This could be accomplished by extending River Road north across Curry Creek and connecting it to Border Road. This could be vital to the safe evacuation of properties along and north of Border Road. In addition to evacuation concerns, this improvement would also provide better everyday access and traffic flow for the Border Road residents.</p> <p>Would this proposed improvement be within FDOT scope?</p> <p>Thank you, Susan Jones 865.384.4587</p>	2/21/2023	<p>RESPONSE PROVIDED BY NICOLE HARRIS 2/21/2023</p> <p>Ms. Jones, Thank you for your interest in the Southwest Connect™ I-75 South Corridor Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to submit your comment to us. Currently, I am not aware of the extension of Border Road and this is not a part of the proposed improvements with the I-75 North Corridor Master Plan.</p> <p>We look forward to working with you on this project moving forward.</p> <p>Nicole Harris, PE</p>

Sunny Starcher	<a href="mailto:sunnystarcher@yahoo.com">sunnystarcher@yahoo.com</a>	(941) 417-9818	Home Owner/Local Resident		9027 Vista Verde Dr Palmetto, FL 34221	is this area off of the Buffalo Creek road area getting a sound wall. It's the Palmetto area and the sound from the freeway is non stop . Just wondering if that was in the works since the highway is getting expanded by 4 lanes on each side.	6/1/2022	RESPONSE PROVIDED BY NICOLE HARRIS 06/07/2022 13:38  Sunny, Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program.  The FDOT is in the process of developing a Master Plan for the long-term improvements to the I-75 Corridor, throughout Sarasota and Manatee Counties. The Master Plan is evaluating the traffic needs and identifying the systemwide improvements that would allow the FDOT to meet the future needs, including accounting for traffic growth forecast through the year 2045.  Following the current North Corridor Master Plan, the entire project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&E) Study. It is during this PD&E Study that a preliminary noise analysis will be conducted, the need for potential noise abatement evaluated, and the findings shared with the public. During the next phase of project development, which is design, the noise analysis is revisited to confirm the feasibility and reasonableness of any proposed noise abatement measures. If any proposed noise abatement measures, such as noise barriers, are determined to be reasonable and feasible, they will be included in the funding for the design and construction of the project.  As a result, at this time it is too soon for us to be able to let you know whether or not noise barrier walls will be added to the Interstate in your vicinity as you note in your question. The answer to that question would be available in that future PD&E Study. You will continue to remain in our mailing list for future notifications about public meetings, including the public meetings related to the master plan, and the future public meetings related to the PD&E study.

Tracy Smith	<a href="mailto:tracy@palmeranch.net">tracy@palmeranch.net</a>	(941) 922-3866	Employee	Palmer Ranch Master Property Owners Assoc. Inc.		What are the plans to make the SR681/I-75 exit a full interchange?	1/26/2022	RESPONSE BY NICOLE HARRIS 01/26/2022 15:49  Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program.  The current Master Plan Study is evaluating improvements along I-75. We are currently in the traffic analysis phase of the study, so we have not yet determined the improvements at SR 681 as part of this Master Plan. The improvements under consideration in the study include widening, managed lanes, modifying existing interchanges, and evaluating requests for new interchanges. Following the current Master Plan study, the entire project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&E) Study.  For additional information please visit our project website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> as this online resource and will always include the most up-to-date information.

Carol Leonard	carol_leonard@venizon.net	(914) 185-5188	Home Owner/Local Resident		7228 Sunnybrook Blvd.	There is dire need for new interchange between Fruitville and University where we could go east onto 301 and then north around the Manatee River bridges up through Foxleage, etc and then get back onto 75 north or go further up 301 and east when 75 gets all tied up (often) due to accidents, etc. Widening of the 75 corridor is imperative with lengthening of the lanes before well used existing exits such as what was done at the University exit. Travel on 75 is sometimes a nightmare with heavy traffic, large semis, backups due to driving conditions and accidents and SPEEDERS. I almost always exit to 275 and then go up the alternate of 275, then around the airport onto the new highway that parallels 75 further to the west when going up to Gainesville or traveling out of FL. During Irma I made it to ainesville in 4.5 hours vs 10 hours it took my friend who stayed on 75. Question: is a new interchange between Fruitville and University planned?	6/17/2021	RESPONSE BY NICOLE HARRIS 06/22/2021 17:37  Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program  The purpose of this project is to identify the existing operational deficiencies for I-75 within Sarasota and Manatee Counties, and to determine the transportation solutions to best accommodate the expected growth in population and highway traffic.  Determination of the potential need for new interchanges will be performed in the next 6-9 months, as the master plan solutions are developed and evaluated, and then by early 2022, a follow up public meeting will be held to present the potential long-term transportation solutions such as new interchanges.  We will maintain your contact information in our database and you will be included on the invitation for the early 2022 public meeting, where we can further discuss your concerns and questions.  Thank you,

William Stein	wstein@me.com	(941) 400-3398	Home Owner/Local Resident			I just want to state I75 from 275 south to university flows fine. It's a little busy at rush hour. I drive this everyday during the week and sometimes on weekends. The big problem is elderly people driving in the inside lane. At times below the speed limit. This at times becomes a hazard. Some of them will slow down for no apparent. FHP needs to be watching for these drivers who at times are weaving as well as unpredictable. Perhaps enforcing the law on at what age you should be evaluated for the ability to be mentally and physically with it when driving. Judging by some of the comments it would be safe to say some of these same drivers are giving you some of the input	6/16/2021	<p>RESPONSE BY NICOLE HARRIS 06/17/2021 16:15</p> <p>Mr. Stein,</p> <p>Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting.</p> <p>The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Jenny Waldee	<a href="mailto:jwaldee@gmail.com">jwaldee@gmail.com</a>					As someone who has been commuting from North Port to Sarasota (Bee Ridge) for the past seven years, you NEED to widen the entire interstate from NP to Bradenton. It would be more than helpful to implement commuter-only lanes. We are experiencing a population growth explosion yet it's the same old interstate and it's just not keeping up with the influx of residents. I worry every single day if I will make it to work or back home alive. In March of 2020 I lost TWO people in a multi-vehicle crash just before Fruitville Road. Two friends killed driving two separate vehicles! I truly hope that you will take this information to heart and actually DO something about it. If it's a matter of funding, then put in toll booths. I would be MORE THAN willing to purchase a Sun Pass to ensure funding for this project. Thank you for the opportunity to present this information.	6/16/2021	
Jack Hillman	<a href="mailto:jkhob5@aol.com">jkhob5@aol.com</a>	(401) 263-4606	Home Owner/Local Resident		Palmetto	The speed limit between 64 and Clark Rd MUST BE REDUCED TO 55. Yes this will save lives. Florida drivers are not equipped to drive safely in this area of 75. Make it as well known in Florida as the 301 "Speed Trap". SPEED LIMIT OF 55!!!!!!!	6/16/2021	RESPONSE BY NICOLE HARRIS 06/17/2021 15:57  Thank you for your interest in the Southwest Connect™ I-75 Master Plan Study. It is during this PD&amp;E Study that a preliminary noise analysis will be conducted, the need for potential noise abatement evaluated, and the findings shared with the public. During the next phase of project development, which is design, the noise analysis is revisited to confirm the feasibility and reasonableness of any proposed noise abatement measures. If any proposed noise abatement measures, such as noise barriers, are determined to be reasonable and feasible, they will be included in the funding for the design and construction of the project.</p> <p>As a result, at this time it is too soon for us to be able to let you know whether or not noise barrier walls will be added to the Interstate in your vicinity as you note in your question. The answer to that question would be available in that future PD&amp;E Study. I have included the Department's Noise Specialist to speak on any previous studies and the associated noise analysis in your area.</p> <p>Thank you for your interest</p> <p>Nicole Harris, PE</p>

Ike Koziol	ikekoziol@me.com	(239) 253-2274	Home Owner/Local Resident		5808 Valente Place Sarasota, FL 34238	Is there any consideration of a sound barrier on the east side of I-75 south of Clark Road? The noise is constant and severe, especially on days when the wind is from the east. The traffic has increased. The major noise is from trucks and motorcycles. Thanks	5/19/2021	5/25/2021 11:22 - RESPONSE PROVIDED BY NICOLE HARRIS  Dear Mr. Koziol,  The Florida Department of Transportation (FDOT) is in the process of developing a Master Plan for the long-term improvements to the I-75 Corridor, throughout Sarasota and Manatee Counties. The Master Plan is evaluating the traffic needs and identifying the systemwide improvements that would allow the FDOT to meet the future needs, including accounting for traffic growth forecast through the year 2045.  Following the current North Corridor Master Plan, the entire project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&E) Study. It is during this PD&E Study that a preliminary noise analysis will be conducted, the need for potential noise abatement evaluated, and the findings shared with the public. During the next phase of project development, which is design, the noise analysis is revisited to confirm the feasibility and reasonableness of any proposed noise abatement measures. If any proposed noise abatement measures, such as noise barriers, are determined to be reasonable and feasible, they will be included in the funding for the design and construction of the project.  As a result, at this time it is too soon for us to be able to let you know whether or not noise barrier walls will be added to the Interstate in the vicinity of Clark Road as you note in your question. The answer to that question would be available in that future PD&E Study. You will continue to remain in our mailing list for future notifications about public meetings, including the public meetings related to the master plan, and the future public meetings related to the PD&E study.  Thank you for your interest in the work FDOT will evaluate for the I-75 corridor in Sarasota and Manatee Counties.

Lorrina Doyle	loridoyleflorida@yahoo.com	(239) 462-9950	Home Owner/Local Resident		5264 Fiddleleaf Drive, Fort Myers, FL 33905	We are right next to I-75 between the Luckett Road Exit & the Rice Road overpass. There are two walls between our back yard & I-75 Northbound, will we lose any of our land?	6/14/2020	6/16 13:44 RESPONSE BY NICOLE HARRIS Ms. Doyle, Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program.  At this point in time, we are still very early in the study and have not yet developed conceptual design alternatives for the project. However, based on the location of your residence at 5264 Fiddleleaf Drive in Fort Myers and our intent to utilize the existing right of way to the maximum extent possible for any proposed mainline improvements, it is unlikely that the project would need to acquire land from your parcel.  We will have a significant amount of information at the Alternatives Public Workshop tentatively scheduled for early 2022, once the preliminary analysis and concepts have been developed. Keep in mind in the months to come that our website www.swflinterstates.com is the online resource and will always include the most up-to-date information.  Thank you again for your interest.

Kevin Kloepper	<a href="mailto:kevin.kloepper@gmail.com">kevin.kloepper@gmail.com</a>		Home Owner/Local Resident		Chatum Light Run in the Heritage Harbour community	<p>Hello Nicole,</p> <p>There has been some recent news about the construction of sound walls along some developments as part of the I-75 Connect project in Sarasota/Manatee County. Could you tell me if there were plans to include a sound wall at the north east boundary of exit 220 at SR-64? I live on Chatum Light Run in the Heritage Harbour community. Our subdivision is not directly adjacent to the highway, but there was a recent development to the land behind 30 homes that cleared a number of trees that provided a sound buffer between us and the highway. If you could please, reply by email to <a href="mailto:kevin.kloepper@gmail.com">kevin.kloepper@gmail.com</a> or you can call me at 407-982-0146 to discuss.</p>	11/12/2019	<p>11/5 12:00 RESPONSE SENT BY NICOLE HARRIS. Mr. Kloepper,</p> <p>Thank you for your interest in learning more about Southwest Connect, a Florida Department of Transportation (FDOT) and District One Interstate Program.</p> <p>At this time, the I-75 North PD&amp;E study has not yet begun the detailed data collection for noise conditions or begun the alternatives development to be able to determine if a Noise Barrier at this location will be justified and cost feasible. As part of the PD&amp;E Study, a noise analysis will be completed for the entire study limits along I-75 in Sarasota and Manatee County, once alternatives have been identified and preliminarily screened. If the previous project(s) determined your neighborhood noise walls not cost reasonable or feasible, they may be feasible in the future with the proposed improvements and noise analyses from the I-75 North PD&amp;E study.</p> <p>If you would like, we can add your name and email address to our list of e-newsletter recipients seeking specific updates and information on I-75 at US 301 interchange and the I-75 Connect (North Corridor) projects. When future newsletters, fact sheets and other important notifications are distributed, you should expect to receive them directly to your email inbox. Separately, we suggest returning to the project websites (<a href="http://www.i75-us301.com">www.i75-us301.com</a> and <a href="http://www.SWFLinterstates.com">www.SWFLinterstates.com</a>) often as this online resource will always include the most up-to-date information.</p> <p>Thank you once again for your interest.</p>

Christine	<a href="mailto:christine12@gmail.com">christine12@gmail.com</a>					Good morning, Nicole!  Could you please tell me the current status of project 4425183? Has the PD&E study been rescheduled And are there any upcoming meetings-  Thank you for your help, Christine	1/19/2021	Response provided by: Nicole Harris 1/19/2021 Good Afternoon.  The Department and the SW Connect Interstate Project Teams have evaluated and decided to take a proactive approach to revise the current direction of the I-75 SW Connect Projects (South, Central and North Corridors). The Department is currently revising the Planning Phase to produce an I-75 Master Plan that will document the future needs of the I-75 corridor. The anticipated completion of the Master plan is early Spring 2022. The completed Master Plan will identify needs which result in prioritized projects that will advance as smaller individual PD&E studies. While the current Planning & Feasibility Study is ongoing, the Department is placing the SW Connect PD&E studies on hold. This new direction will allow more opportunities for flexibility in funding future phases. No public meetings dates are currently scheduled however please visit the website for the most up to date information at <a href="https://www.swflinterstates.com/">https://www.swflinterstates.com/</a> .  Thanks,

William Lockwood	wlockwood@comcast.net	18606144247			302 Avenue of Dukes, Nokomis, FL 34275	<p>Ladies and Gentlemen:</p> <p>I am a part owner and resident in a small adult manufactured home community in Nokomis by the name of Kings Gate Club. The club is located North of Laurel Road and adjacent to Honore Avenue. An 8 foot high concrete block wall separates the club campus from Honore Avenue. The Southbound Lanes of I - 75 are just east of Honore Avenue. Traffic noise from I - 75 and the recent extension of Honore Avenue from SR 681 to Laurel Avenue/Pinebrook Avenue is becoming more obvious on a daily basis.</p> <p>My purpose in writing is to ask for help. The entire area is booming with development with much more slated from the future. Studies have been performed which suggest that Honore Avenue is destined to become a four lane highway in the future??</p> <p>Who can we turn to for some assistance in mitigating the traffic noise? The noise is beginning to affect our quality of life. Do you have a recommendation?</p> <p>Thank you for your time and attention.</p>	3/3/2021	<p>Response provided by: Brian Bollas 3/3/2021 Greetings Mr. Lockwood,</p> <p>Thank you for contacting FDOT about the noise concern in your neighborhood.</p> <p>Currently, FDOT does not have any plans to construct noise walls along I-75 within the range of Kingâ€™s Club Gate. However, FDOT has recently started a Master Plan and Project Development &amp; Environment studies to analyze the future conditions of I-75 from Bradenton to Naples. The purpose of this effort is to identify managed lane options along the interstate to meet our future population and employment growth. These studies will include noise analyses to determine if noise walls are feasible. The noise wall process is also dictated by federal and state laws which look at the number of sites benefited, cost per site, reduction in decibels, etc. Noise walls typically only provide those sites within 600 feet or so measurable reduction in noise. Federal Highway Administration and State laws and regulations dictate that noise walls are only considered when a project increases capacity (new lanes) or changes in alignment (horizontal or vertical). This is not any indication that the area in question will qualify for a noise barrier.</p> <p>You can follow the study by visiting <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> where you can also sign up for project notices.</p> <p>As for County roads, I am not sure of County regulations, policies, etc regarding noise barriers. I would suggest reaching out to Sarasota County and/or your County Commissioner. The Countyâ€™s main number is 941-861-5000. They will also be able to provide you any information on the future of Honore Avenue as well as any other transportation projects in your area that is in their Work Program.</p> <p>Please let me know if you have any questions or if I can be of further assistance.</p> <p>Thank you,</p> <p>Brian Bollas, GISP</p>

Gail Solivan	gail@coachai.us	18139618300			10014 N. Dale Mabry Hwy., Suite 201, Tampa, FL 33618	<p>Good afternoon Nicole,</p> <p>Could you please give me an update on these two projects and send me the latest ROW map?</p> <p>Are there any upcoming meetings?</p> <p>When are appraisals scheduled?</p> <p>Any advanced acquisitions?</p> <p>Thank you!</p>	3/5/2021	<p>Response provided by: Nicole Harris 3/5/2021 Good Afternoon Gail,</p> <p>Thank you for your interest in learning more about Southwest Connect, a Florida Department of Transportation (FDOT) "District One Interstate Program.</p> <p>We have recently placed the PD&amp;E studies you referenced below on hold. We have modified our approach to this corridor by developing a Master Plan for I-75. The Master Plan Study is currently scheduled to be completed by the summer of 2022. We plan to have a public meeting virtually this summer.</p> <p>Following the current Master Plan study, the project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&amp;E) Study. It is difficult to say at this time when and in what order the PD&amp;E studies will be programmed until the priorities and the availability of funding are determined, but a rough time frame would be in the next 5 to 10 years. The PD&amp;E studies would be followed by design, right-of-way acquisition and construction. The appraisals process will come after the PD&amp;E and Design Phase.</p> <p>Keep in mind in the months to come that our website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> is the online resource and will always include the most up-to-date information.</p>
Albert Lyman	coachai@coachai.com	18609120818			1037 Truman Cir, Nokamis, FL 34275	<p>Greetings! Like many, I'm concerned about the increasing traffic on Laurel Rd., and am very curious to know if a southbound ramp is being planned for the 681 connector to I-75. This would alleviate some traffic concerns as there is no other way for travelers to access I-75 southbound other than Laurel or Honore. Thank you.</p> <p>Message from Mr. Lyman was forwarded to John Kotyk &gt; Wayne Gaither &gt; Brian Bollas &gt; Nicole Harris.</p>	3/11/2021	<p>Thank you again for your interest.</p> <p>Response provided by: Nicole Harris 3/12/2021 RESPONSE SENT TO BRIAN BOLLAS:</p> <p>Mr. Lyman,</p> <p>The Department has begun the Planning Phase of the Project Development Process to develop three Master Plans for I-75 within District One. The Master Plan that will evaluate and document the findings of the SR 681 interchange falls within the I-75 SW Connect North Corridor study limits. The limits for this segment of I-75 are from North River Road to Moccasin Wallow Road in Sarasota and Manatee Counties. Project website <a href="https://www.swflinterstates.com/i75-north-corridor/">https://www.swflinterstates.com/i75-north-corridor/</a></p> <p>The I-75 Master Plans will document the future needs of the corridor. The needs identified will result in prioritizing projects along all of I-75 which will be documented in an implementation Plan. This new approach will allow FDOT to advance projects as smaller individual PD&amp;E studies and will allow for more opportunities and flexibility in funding the future phases for these individual projects. We anticipate to complete the Master Plan by spring of 2022.</p> <p>The Department is aware of the request by area stakeholders to prioritize this interchange and are currently partnering with these stakeholders by holding coordination meetings in order to fulfill this request.</p> <p>I hope that answers your question. Feel free to give me a call if you prefer to discuss.</p> <p>Thanks,</p> <p>Nicole Harris, PE (FL) Project Manager</p>

Please provide info.	6/11/2021	Response provided by: Nicole Harris 6/16/2021 Good Evening Ms. Ballard, Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program.  I have attached the meeting material packet for the North Corridor. This material can be found on our website and you can also watch the live Q&A recording if desired Project website: <a href="http://www.swflinterstates.com">www.swflinterstates.com</a>  If you still prefer a hard copy please let me know your address and I will get one in the mail later this week.  Thanks,

Nancy Kish Gargiulo	<a href="mailto:nkg1121@yahoo.com">nkg1121@yahoo.com</a>	203-767-8042				<p>Dear Nicole,</p> <p>We are in flight and may not be able to log in to the webinar tonight.</p> <p>Question: Will there be a new sound study conducted in the Osprey-Nokomis stretch of I-75 given the recent, present and permitted building boom along Honore, 681 and proximity to I-75? Traffic noise and pollution has increased significantly since we built our home in the Isles of Palmer Ranch in 2013 and Hammock Preserve in 2017.</p> <p>Will we receive a transcript of this Q and A session since we are registered but may not be able to participate live? Will it be posted on the FDOT project webpage?</p> <p>Thank you for hosting the 10 day webinar and Q and A session.</p> <p>Nancy and Joe Gargiulo</p>	6/14/2021	<p>Response provided by: Nicole Harris 6/17/2021 Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program.</p> <p>The North Corridor Master Plan is evaluating improvements to I-75. We are currently in the traffic analysis phase of the study, so we have not yet determined the potential number of lanes to be added in each direction. Improvements to the corridor being considered by the study include widening, managed lanes, modifying existing interchanges, and evaluating requests for new interchanges.</p> <p>Following the Master Plan, the entire I-75 project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&amp;E) Study. It is during the PD&amp;E Study that a preliminary noise analysis will be conducted, the need for potential noise abatement evaluated, and the findings shared with the public. During the next phase of project development, which is design, the noise analysis is revisited to confirm the feasibility and reasonableness of any proposed noise abatement measures. If any proposed noise abatement measures, such as noise barriers, are determined to be reasonable and feasible, they will be included in the funding for the design and construction of the project.</p> <p>In regards to your second question, the recording of the "live Q&amp;A" has been posted to our website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a>.</p> <p>Keep in mind, the virtual meeting is still available for viewing and for the upcoming months to come that our website is the online resource and will always include the most up-to-date information.</p> <p>Thank you again for your interest.</p>
Gregory Lantz	<a href="mailto:gregory.lantz@hotmail.com">gregory.lantz@hotmail.com</a>					<p>Are there any plans or consideration for a new interchanges from I-75 at 69th St/ Erie Rd bridge? And/or Buckeye Rd bridge?</p>	6/15/2021	<p>Response provided by: Nicole Harris 7/20/2021 Good Morning Gregory, I am not aware of any planned interchanges at the locations mentioned below. Thanks</p>

Robert Sebolt	<a href="mailto:rob.sebolt@gmail.com">rob.sebolt@gmail.com</a>					<p>Easily fixed by adding more lanes. You have plenty of room.</p> <p>Also you need to open up the south univ exit lanes much earlier and improve exit signage with 2 dedicated lanes.</p> <p>I see cars all the time in the far left lane cut over to the right at the last minute.</p> <p>North 64 exit lanes need to be opened up earlier with 2 dedicated lanes.</p> <p>University north on ramp lanes both need to be extended much farther.</p> <p>South Fruitville exit needs a longer dedicated exit lane.</p> <p>Clark rd south needs dedicated exit lanes. I'm surprised there aren't more accidents there with traffic stopped in the freeway there.</p>	6/15/2021	<p>Response provided by: Nicole Harris 6/17/2021 Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting.</p> <p>The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Your input is important to us and your comment has been received and entered into this corridor's public record.</p> <p>As a reminder, this meeting's collection of informative materials, including its display boards, videos, supplemental handouts, etc., are all currently available on this corridor's project page located at <a href="https://www.swflinterstates.com/75-north-corridor/">https://www.swflinterstates.com/75-north-corridor/</a>. (Simply click DOCUMENTS at the top of the page and open the 'JUNE 2021' folder by clicking the + to the right.) Also found within this folder is a video recording of the 90 minute LIVE Q&amp;A event held on June 15, 2021 from 5:00 p.m. to 6:30 p.m. Many of the questions asked and answered during this session could help provide viewers with an even greater understanding of the project.</p> <p>Though the open comment period for this particular outreach event closes on June 25, 2021, your ability to leave comments and questions for project team members will continue to be available at <a href="https://www.swflinterstates.com/contact-us/">https://www.swflinterstates.com/contact-us/</a>. Select your project corridor of interest on the form and a project team member will be notified.</p> <p>Thank you once again for your interest and input. We look forward to working with you moving forward.</p>
George Maggio	<a href="mailto:georgemaggio@gmail.com">georgemaggio@gmail.com</a>					<p>Hi Nicole,</p> <p>Just some input on 75 from a Sarasota resident here. 75 does not need to be widened or modified. The traffic flow needs to be slowed, highway patrol needs to be more aggressive on creating speed traps and handing out tickets for aggressive drivers going over 90mph!! Overhead signs warning drivers of speed! Also Lakewood Ranch needs to stop building out, that is the cause of all the damn traffic between University and 64. Focus needs to be on controlled growth and infill growth. Sprawl creates congestion. I am petitioning for more preservation of land from overdevelopment. Keep 75 as is and focus on driver safety and speed!</p> <p>We do not need to become like 95 in Miami!! No to 75 expansion</p> <p>Thank you,</p>	6/16/2021	<p>Response provided by: Nicole Harris 6/17/2021 George,</p> <p>Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting.</p> <p>The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Tom Mcardle	<a href="mailto:tom10551@bloud.com">tom10551@bloud.com</a>				8052 Rio Bella Pl University Park, FL 34201	<p>Good Morning Ms. Harris -</p> <p>First of all, I want to thank you and the staff of FDOT for the opportunity to participate in the Virtual Public Meeting yesterday, gain a better understanding for future plans for I-75 and have our questions and concerns addressed. It was very helpful and informative.</p> <p>As I've written in the past, the I-75 noise issue is very important to our small HOA. I've passed along the information I obtained on yesterday's call to our Board members.</p> <p>They had asked me to follow-up with FDOT on the sound barrier. It would be very helpful if we could take you up on the offer to meet with our HOA Board to discuss the I-75 situation. After the meeting you had with University Place in 2019, we estimated that the cost of a barrier for Riva Trace, which is much smaller than UP, would fall within the Federal Guidelines.</p> <p>It would be extraordinarily helpful to meet and discuss this and the plans with you and your staff.</p> <p>I've asked them to help ensure that we are coordinating this through a single source here in RT so you are not bombarded with requests.</p> <p>Please advise as to next steps to secure the meeting.</p> <p>Again, many thanks to you and your staff.</p>	6/16/2021	<p>Response provided by: Nicole Harris 6/17/2021 Mr. McArdle,</p> <p>Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting.</p> <p>The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to provide us with your comment(s). Your input is important to us and your comment has been received and entered into this corridor's public record.</p> <p>As a reminder, this meeting's collection of informative materials, including its display boards, videos, supplemental handouts, etc., are all currently available on this corridor's project page located at <a href="https://www.swflinterstates.com/i75-north-corridor">https://www.swflinterstates.com/i75-north-corridor</a>. Lorraine Currier	lorcur59@gmail.com					<p>Yes on. Widening. ALSO. we need Rest stops! why are there hardly any rest stops? We have many transient travelers who need rest might we add a .50cent charge for bathroom use. Engineer bathrooms so that drivers can pay 50cents to use the bathroom for revenue. Florida is so behind on energy conservation. Make them solar. ALSO we need more exits! Clark road backs up everyday because people need to many commercial and industrial areas between River road and Clark Road. All those travelers HAVE no other alternative. Put your Engineer degree from Mississippi State to good use and you are a contract worker, sadly a loophole of Florida's backward thinking. BTW. Florida needs pull offs for disabled RV's. Where do they pulloff for break downs!??? hmmm??? if you need anymore ideas email me. Lorraine</p>	6/16/2021	<p>Response provided by: Nicole Harris 6/17/2021 Ms. Currier, Thank you for joining us for the I-75 North Corridor Master Plan Virtual Public Meeting. Robert Elledge	<a href="mailto:RobertElledge@gmail.com">RobertElledge@gmail.com</a>					<p>Two things:</p> <ol style="list-style-type: none"> <li>1. I would like a hard copy packet of the June 15 workshop materials.</li> <li>2. One of my concerns is what are the noise abatement proposals for this project? I live near the I-75 corridor between I-275 on the north and US 301 interchange on the south. As traffic on I-75 has increased in the past few years so has the associated noise level.</li> </ol> <p>Thank You, Robert G. Elledge</p>	6/16/2021	<p>Response provided by: Nicole Harris 6/16/2021 Mr Elledge,</p> <p>Thank you for your interest in learning more about Southwest Connect™, a Florida Department of Transportation (FDOT) – District One Interstate Program</p> <p>As you know, the FDOT is in the process of developing a Master Plan for the long-term improvements to the I-75 Corridor, throughout Sarasota and Manatee Counties. The Master Plan is evaluating the traffic needs and identifying the systemwide improvements that would allow the FDOT to meet the future needs, including accounting for traffic growth forecast through the year 2045.</p> <p>Following the current North Corridor Master Plan, the entire project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&amp;E) Study. It is during this PD&amp;E Study that a preliminary noise analysis will be conducted, the need for potential noise abatement evaluated, and the findings shared with the public. During the next phase of project development, which is design, the noise analysis is revisited to confirm the feasibility and reasonableness of any proposed noise abatement measures. If any proposed noise abatement measures, such as noise barriers, are determined to be reasonable and feasible, they will be included in the funding for the design and construction of the project.</p> <p>As a result, at this time it is too soon for us to be able to let you know whether or not noise barrier walls will be added to the Interstate in your vicinity as you note in your question. The answer to that question would be available in that future PD&amp;E Study. In regards to your request for a hard copy of the meeting material, please respond to this email with the mailing address you wish to receive this information. I can have that in the mail to you this week.</p> <p>Thank you for your interest and as always keep in mind for the upcoming months to come that our website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> is the online resource and will always include the most up-to-date information.</p>
Nancy Kish Gargiulo	<a href="mailto:nkg1121@yahoo.com">nkg1121@yahoo.com</a>					<p>Hi Nicole,</p> <p>I missed the Q and A session because we were travelling. The link you provided below AND the one on the FDOT project website for the Q&amp;A do not work. They link back to a registration form for the Q&amp;A. I filled that out (again) just in case, but it doesn't link to the recorded session.</p> <p>Thank you for your assistance. Good morning Nicole,</p>	6/23/2021	<p>Response provided by: Nicole Harris 6/24/2021</p> <p>I just sent a response in a separate email. Please let me know if you still have trouble.</p>
Gail Sullivan	<a href="mailto:gail@cpinc.us">gail@cpinc.us</a>	(813) 961-8300			10014 N. Dale Mabry Hwy., Suite 201, Tampa, FL 33618	<p>I just checked the website and didn't see any new developments for these two projects.</p> <p>Are there any upcoming meetings?</p> <p>Any PD&amp;E maps available?</p> <p>Thanks!</p>	2/4/2022	<p>Response provided by: Nicole Harris 2/4/2022 Good Morning Gail,</p> <p>The North Corridor is on the same schedule as the South Corridor. Both corridors are currently in the Planning phase. The Master Plans will be available by the end of this year and will prioritize smaller projects within this corridor to move through the project development process. Unfortunately at this time there is not a public meeting date set. We will update the website and send out notifications once the projects are schedule for a public meeting.</p> <p>Thanks Nicole Harris, PE</p>

Tom Cannon	tkmha@gmail.com					Katti has initial information request.	8/4/2022	<p>Response provided by: Kati Sherrard 8/4/2022 Mr. Cannon,</p> <p>I hope this email finds you well. Your message was recently sent my way to follow-up and see if your comment was ever responded to. In the event that it was not, I sincerely apologize and I have provided information for you below related to an ongoing I-75 Southwest Connect Master Plan Study and a future noise impact evaluation.</p> <p>This Master Planning Study is evaluating improvements to I-75 in Sarasota and Manatee Counties. We are currently evaluating the traffic analysis and potential improvements along the corridor. Improvements being considered include widening, managed lanes, modifying existing interchanges, and evaluating requests for new interchanges. The Master Plan Study is currently scheduled to be completed in early 2023.</p> <p>Following the current Master Plan study, the project corridor will be divided into smaller segments based on priorities. Each of these smaller segments will then be subject to a more detailed Project Development and Environment (PD&amp;E) Study. It is during this phase, PD&amp;E Study, a noise analysis will be conducted. During the noise studies, a comprehensive analysis will be conducted to determine if noise impacts are predicted for noise sensitive areas as a result of the proposed changes/improvements. When noise impacts are predicted, FDOT must consider noise abatement, typically in the form of sound barriers. The noise analysis will evaluate potential noise barrier configurations for those areas with predicted impacts to determine if any of those barriers meet the criteria for being reasonable and feasible, per Chapter 18 of the FDOT PD&amp;E Manual. Those barriers that meet these criteria will be recommended to be included in the future phases of the project. Keep in mind in the months to come that our website <a href="http://www.swflinterstates.com">www.swflinterstates.com</a> is the online resource and will always include the most up-to-date information.</p> <p>Please feel free to contact the Project Manager, Nicole Harris, if you have additional questions. She can be reached at (863) 519-2335 or <a href="mailto:nicole.harris@dot.state.fl.us">nicole.harris@dot.state.fl.us</a>.</p> <p>Thank you, Kati Sherrard, PE</p>

Dan Fitz-Patrick	<a href="mailto:dffitzpatrick@seaportmanatee.com">dffitzpatrick@seaportmanatee.com</a>					<p>Nicole, Here's some feedback –</p> <ul style="list-style-type: none"> <li>• On-ramps. For the new sections of I-75, I like how the on-ramps continue until the next exit and traffic is not required to merge.</li> <li>• I-75 Southbound and Moccasin Wallow Road. Signalization is going to be needed during peak traffic periods.</li> <li>• 64 Eastbound to Northbound I-75. The turning lanes on 64 eastbound to I-75 Northbound are not long enough, and turning traffic backs up into the eastbound 64 traffic.</li> <li>• University Parkway Eastbound to Northbound I-75. For some reason, University Parkway eastbound traffic in the left lane always stops temporarily prior to the I-75 southbound off-ramp for eastbound traffic onto University Parkway. Appears like a good place for rear end collisions.</li> <li>• Fruitville Eastbound to Northbound I-75. The I-75 on ramp from Fruitville Eastbound to Northbound I-75 is too short.</li> </ul> <p>Thank you, Dan Fitz-Patrick Director of Planning &amp; Project Development Direct: (941) 720-4714 <a href="mailto:dffitzpatrick@seaportmanatee.com">dffitzpatrick@seaportmanatee.com</a></p>	1/30/2023	Comment sent to Donnie Holcomb 1/30/2023 20:25
Karen Reid	<a href="mailto:meandlennad01@yahoo.com">meandlennad01@yahoo.com</a>	(757) 675-6810	Home Owner/Local Resident		147 70th Ct E Bradenton, FL 34208	<p>Hello, Will there be any consideration to adding a sound barrier at the on ramp of I-75 from SR64? We recently purchased a home that is positioned beside this acceleration ramp, and the traffic noise is incessant- from vehicles "gunning it" to accelerate, to general non-stop traffic on the interstate. There are other homeowners as well whose property is directly adjacent to this on-ramp, and they have also told us of their previous attempts to gain a sound barrier of some sort to no avail. Will any of the upcoming projects in this corridor include a noise study or the addition of any sound barriers?</p>	3/13/2023

Miguel Flores	<a href="mailto:florism3030@gmail.com">florism3030@gmail.com</a>		Home Owner/Local Resident		4831 San Ortello Dr., Brandenton, FL 34208	My residence is currently exposed to I-75 traffic noise from state road 64 to the manatee river bridge. Is there an intention to build a noise reduction wall on this stretch of highway?	3/1/2023	<p>RESPONSE PROVIDED BY BRIAN BOLLAS 03/02/2023 09:00</p> <p>Greetings Mr. Flores,</p> <p>Thank you for contacting FDOT with your concern. Currently, there are no plans to erect a noise wall in your vicinity.</p> <p>The process to determine if noise walls will be built as a part of an interstate construction project is a federally dictated process. One of the components is what is known as the Date of Public Knowledge. FDOT only considers noise barrier walls for residences that were built, or received a building permit, prior to the date that the Federal Highway Administration approved the design concepts for I-75 shown in the Project Development and Environment Study for this segment of I-75. For this project, the Date of Public Knowledge was December 8, 2011. The building permits for the Cottages at San Casiano were applied for after this date.</p> <p>FDOT is commencing a planning study of I-75 throughout Manatee County for the future design of I-75. During this study, traffic noise will again be analyzed for potential noise impacts and the feasibility and reasonableness of providing noise barrier walls for impacted communities. The process will follow the described process above.</p> <p>Please let me know or contact me if you have any questions or wish to discuss.</p> <p>Thank you,</p> <p>Brian Bollas, GISP</p>

The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to speak to us about your community and your concerns with noise. Our team took a deeper look at the printed report you spoke on during the meeting. That updated noise study addendum was conducted for the I-75 SR 70 Interchange Project in 2017. The pages from that report shown (the figures brought to the public meeting) detailed the barrier configurations analyzed during that study which satisfied FDOT's reasonable and feasible criteria based upon the predicted noise impacts and the number of benefited receptors for each wall. Table 3-2 of that report detailed the barrier analysis for University Place, which had 2 receptors with predicted noise impacts (&gt; 66dB) and 15 receptors that would receive the required 5 dB of benefit from the proposed noise barrier. The cost of that noise barrier (\$3,235,980) exceeded the maximum cost per benefited receptor criteria of \$42,000 and therefore is not cost reasonable under FDOT criteria. There are not enough receptors within the proximity of the proposed barrier to make it work under the FDOT criteria. The configuration of the homes being set back off of I-75, running perpendicular away from to the road, and having the buffer of a pond site creating more distance between the traffic noise and the receptors makes it more difficult for the barrier to provide the required noise reduction. At the cost of the barrier analyzed, at least 78 receptors would have to be benefited in order to make the cost criteria. The other barriers in the study that did meet the FDOT reasonable and feasible criteria at Willowbrook, River Place, Tara Preserve, and Creekwood all were under the \$42,000 per benefited receptor cost criteria and provided benefit to a significantly higher number of receptors.</p>

Denise Moore	<a href="mailto:dmoore4030@aol.com">dmoore4030@aol.com</a>	(941) 266-9841	Home Owner/Local Resident		2305 Frederick Dr., Venice, FL 34292	First thank you for the webinar this evening. I was not aware of this project until I received the most recent flyer. I figured the interstate would have to have more lanes with the growth in this area. Anyway I assume the time lines are estimates. Am I correct that for the Jacaranda area the date would be 2025? One of you made a comment you are looking ahead to the next 20 years. Are you aware a developer has purchased my property along with the properties on both sides of me? I believe they plan to build housing. If widening 75 will be along our properties this could possibly make a difference in this sale going through.	2/21/2023

John Street	<a href="mailto:northporttower@gmail.com">northporttower@gmail.com</a>	(941) 624-4745	Business Owner	Master Towing Service, Inc.		Aside from the need for more lanes, there is really only one thing I would like to see fixed: The northbound I-75 transition to the Clark Road overpass bridge is just TERRIBLE! It has been this way, as near as I can remember, for over 20 years. The problem is that there is a very abrupt change in the roadway slope right at the bridge. This is mostly unnoticeable in most passenger vehicles, but for anything that has stiffer, more heavy duty suspension (I drive a light duty, cab-over-wheel-lift style wrecker), it is absolutely brutal. If I do not slow down to 50 miles an hour, the abrupt up-slope change will absolutely drive my head through the cab roof. If I have a car in tow, it's even worse. The last time the stretch was repaved (has to be 15 years now), I hoped and prayed that this little engineering screw-up would get fixed. Nope, as bad or worse afterwards and we've had to contend with this every time we have to drive past Clark Road. If there is a worse bridge transition on any Interstate in Florida, I don't know where it is, and I've driven on most of them.	2/15/2023	RESPONSE PROVIDED BY NICOLE HARRIS 2/17/2023 08:48  Mr. Street, Thank you for your interest in the Southwest Connect™ I-75 North Corridor Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to submit your comment to us. I will forward your concerns with the transition at the Clark Rd overpass with our team so they are aware.  Thank you once again for your interest and input. We look forward to working with you on this project moving forward.  Nicole Harris, PE

Gregory Lantz	gregory.lantz@hotmail.com	(615) 618-5624	Home Owner/Local Resident			Respectfully request that this plan consider including a provision for at least a feasibility study to add an interstate interchange at I-75 and 69TH ST E, Palmetto. It may not be needed in the near term, but with the approved and planned growth in the area such an interchange could be very beneficial in 10-20 years. 69TH ST E with 2 miles of Erie Rd from 69TH ST E to US 301 is the only direct connection between the major arteries of US 41 and US 301 between US 301 and Moccasin-Wallow Rd. And together with Buckeye Rd is one of only 4 such direct connections between US 41 and US 301 north of the Manatee river and south of the Hillsborough/Manatee county line. This would be a great benefit for daily traffic, but even more importantly it would provide another evacuation route for the area by allowing local residents access to the interstate system. With 10,000s of thousands of new homes planned for the Parrish area traffic on 69TH ST E is more than likely to increase dramatically. While Manatee county currently has a project to expand	2/14/2023

Harvey Rohlwing	<a href="mailto:hrhrlwing@yahoo.com">hrhrlwing@yahoo.com</a>	(352) 219-4689	Other	Sarasota County Property Owner	4927 69 Ct. E. Palmetto, FL	I see that the Master Plan includes recommendations for modifying interchanges. Can it also include recommendations for changes or additions to connecting roads? If so, I would like to suggest extending River Road (SR77) north from the I-75 interchange, across Curry Creek, to connect with Border Road. This would not only move traffic more efficiently, but would also improve safety by providing a more direct emergency evacuation route for people living along Border Road.	2/6/2023	RESPONSE PROVIDED BY NICOLE HARRIS 2/14/2023 18:44  Thank you for your interest in the Southwest Connect™ I-75 Master Plan. The Florida Department of Transportation (FDOT) – District One and the entire Southwest Connect™ Interstate Program team appreciates you taking the time to send a comment pertaining to the Master Plan to us.  This Master Plan will lead to the long-term improvement of the interstate corridors in Southwest Florida by identifying solutions that are expected to help move people and goods safely and efficiently while balancing regional transportation needs with community concerns.  FDOT is currently analyzing the interstate system's existing transportation challenges. The findings of the analysis, as well as recommendations to enhance safety and mobility, are documented in a Master Plan. The planned improvements identified in the Master Plan may include widening, managed lanes, modifying interchanges, and/or evaluating new interchanges. The Master Plan will also include public outreach, such as our Public Meeting scheduled on February 16th for Lee and Collier County and February 23rd for Sarasota and Manatee Counties, which will serve as input in the identification and prioritization of projects to move forward into the Project Development Process. This project is currently in the Planning and Feasibility Phase, the beginning of the process. This long-range approach provides a regional perspective to identify the areas where future demand is predicted. This Master Plan will serve as a guide to allow FDOT to focus future efforts and funding toward the most critical areas first.  Following the current Master Plan study, the project corridor will be divided into

**About**

The Southwest Connect™ I-75 North Corridor is 40 miles in length and traverses the major urban areas of Sarasota and Bradenton. It also crosses the navigable Manatee River in Manatee County near the northern project terminus. The functional classification of I-75 within the project limits is Urban Principal Arterial – Interstate.

This segment of I-75 consists of six and eight-lane divided typical sections. Existing right of way along the corridor ranges from approximately 300 feet to 550 feet in width.

The Department is conducting a **Planning Study** from south of River Road (SR 777) in Sarasota County to north of Moccasin Wallow Road in Manatee County that makes up and will evaluate the future needs of the I-75 North Corridor in District One. This study will evaluate strategies for the mainline and interchanges, including managed lanes, that will improve accessibility, mobility, and safety. Results of this study will be documented in this corridor's **Master Plan**.

The Master Plan will allow FDOT to focus future efforts and funding by prioritizing the most critical areas. It also analyzes the existing and expected future traffic, or demand, on the interstate system. This long-range approach provides a regional perspective to identify the areas where future demand is predicted and to assist in defining the Project Development and Environment (PD&E) Study limits for the corridor. Improvements identified in this Master Plan may include widening, managed lanes, modifying interchanges, and evaluating requests for new interchanges.

**North Corridor Limits:** Interstate 75 from south of River Road (SR 777) to north of Moccasin Wallow Road

For more information, please visit the project website at [www.swflinterstates.com/i75-north-corridor/](http://www.swflinterstates.com/i75-north-corridor/).

**Public Involvement**

To send a comment or ask a question about this project, visit [www.swflinterstates.com/get-connected/](http://www.swflinterstates.com/get-connected/).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. ## Southwest Connect™ I-75 North Corridor

**North Corridor Limits:** Interstate 75 from south of River Road (SR 777) to north of Moccasin Wallow Road

### ABOUT THE CORRIDOR:

The Southwest Connect™ I-75 North Corridor is 40 miles in length and traverses the major urban areas of Sarasota and Bradenton. It also crosses the navigable Manatee River in Manatee County near the northern project terminus. The functional classification of I-75 within the project limits is Urban Principal Arterial – Interstate.

This segment of I-75 consists of six and eight-lane divided typical sections. Existing right of way along the corridor ranges from approximately 300 feet to 550 feet in width.

**RELATED LINKS:** [I-75 SOUTH CORRIDOR](#) | [I-75 CENTRAL CORRIDOR](#) | [I-4 CORRIDOR](#)

### CURRENT I-75 NORTH CORRIDOR PROJECTS:

#### Planning & Feasibility Phase

FPID No.: 442518-1

The Department is conducting a **Planning and Feasibility** study from south of River Road (SR 777) in Sarasota County to north of Moccasin Wallow Road in Manatee County that makes up and will evaluate the future needs of the I-75

North Corridor in District One. This study will evaluate strategies for the mainline and interchanges, including managed lanes, that will improve accessibility, mobility, and safety. Results of this study will be documented in this corridors **Master Plan**.

The Master Plan will allow FDOT to focus future efforts and funding by prioritizing the most critical areas. It also analyzes the existing and expected future traffic, or demand, on the interstate system. This long-range approach provides a regional perspective to identify the areas where future demand is predicted and to assist in defining the Project Development and Environment (PD&E) Study limits for the corridor. Improvements identified in this Master Plan may include widening, managed lanes, modifying interchanges, and evaluating requests for new interchanges.

Other goals of this project are to

- preserve the operational integrity and regional functionality of I-75 (and, therefore, the regional transportation network) by complementing similar corridor improvements to both the north and south and
- enhance emergency evacuation and response times.

## ABOUT THE PROCESS:

Depending on transportation priorities, available funding, and complexities of the job, a project's progression from planning to construction may take up to 10 years. FDOT follows federal and state requirements throughout project development and works closely with governmental agencies, partners and the local community to identify new projects and move them through the production pipeline.

Planning and Feasibility, Project Development and Environment Study, Design, Right of Way Acquisition and Construction are sequential phases of production for projects.

**PROJECT SCHEDULE:**

**HOW CAN I PARTICIPATE?**

- FDOT is planning extensive public outreach, and will be announcing our meetings through mailouts, news outlets, by emails and various other media. In order to develop the best plan, we need your input. We will provide multiple avenues for ongoing public engagement to ensure the plan incorporates the needs and concerns of local communities and provides appropriate recommendations.
- FDOT will conduct extensive public outreach throughout the study process, holding focus group and public meetings at major study milestones.
- FDOT will work with local communities and public officials to get ideas on how the public involvement effort will proceed and to understand corridor needs based on input from the communities.
- The study will follow a process defined in close consultation with corridor communities and focus group members.
- Given the diverse nature of the corridor, effective communication and engagement will be conducted throughout the study effort.

**UPCOMING EVENTS:**

No events are currently scheduled.

**GET CONNECTED. STAY INFORMED.**
