

PUBLIC INVOLVEMENT PLAN

Florida Department of Transportation, District One

Interstate 75 (I-75) (State Road (SR) 93)
North Corridor Master Plan

From South of River Road (CR 777) to North of MoccasIn Wallow Road

Sarasota and Manatee County

FPID Number: 442518-1-12-01

Federal Aid Project Number: TBD

ETDM Number: 14399

In accordance with *Part 1, Chapter 11 of the PD&E Manual*, this Public Involvement Plan (PIP) is submitted to the manager of the District office in charge of PD&E studies as appropriate based on District organizational structure for his/her review and approval.

Submitted by: Will Suero

Date: April 14, 2021

Will Suero, P.E.
Consultant Project Manager, HDR, Inc.

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by FDOT pursuant to 23 U.S.C. §327 and a Memorandum of Understanding dated December 14, 2016, and executed by the FHWA and FDOT. FDOT may adopt this planning product into the environmental review process, pursuant to Title 23 U.S.C. § 168(d)(4), or to the state project development process.

Approved by: Joshua Jester

Date: 7/17/23

Joshua Jester, E.I.
FDOT Project Manager, District One

Public Involvement Plan

I-75 (SR 93) North Corridor Master Plan

*from South of River Road (CR 777)
to North of Moccasin Wallow Road*

Sarasota and Manatee County

The purpose of this Public Involvement Plan (PIP) is to assist in providing information to and obtaining input from concerned citizens, agencies, private groups (residential/business), and governmental entities. The overall goal of this plan is to help ensure that the study reflects the values and needs of the communities it is designed to benefit.

This plan is in compliance with the Florida Department of Transportation’s (FDOT) *Project Development and Environment (PD&E) Manual, Part 1, Chapter 11*.

I. Description of Proposed Improvements

Financial Project ID: 442518-1-12-01

Federal Aid Project Number: TBD

ETDM Number: 14399

Project Limits: The study area is I-75 (SR 93) from South of River Road (CR 777) in Sarasota County to North of Moccasin Wallow Road in Manatee County. The project is approximately 40 miles in length and traverses the major urban areas of Sarasota and Bradenton in southwest Florida. It also crosses the navigable Manatee River in Manatee County near the northern project terminus, as shown in **Figure 1**.

Proposed Activity: The purpose of the Master Plan (Plan) is to identify long-term capacity needs along the I-75 mainline and develop interchange and managed lanes design concepts to address any segments identified as operating below the Level of Service (LOS) target adopted for this facility as part of the Strategic Intermodal System (SIS) designation.

The Plan shall provide recommendations based on alternatives analysis that bring the corridor into compliance with Department Standards, enhance mobility, and improve safety. The Plan shall include a Priority List which identifies interim and long-term improvements. The recommendations and Priority List will support the development of the District Interstate Implementation Plan, which will be developed by the Department.

Tentative Class of Action: Not applicable

II. Project Background

I-75 (SR 93) from South of River Road (CR 777) in Sarasota County to North of Moccasin Wallow Road in Manatee County was presented to the public as a PD&E Study evaluating managed lanes in a virtual kickoff meeting in April 2020. The project began transitioning to a master planning study instead of a PD&E in November 2020. The Master Plan will identify a Priority List of improvements along the corridor to advance to PD&E.

I-75 (SR 93) supports vital commerce and tourism of the state as it connects employment and population centers within the western regions of Florida. It functions as the only north-south limited access facility on the state's west coast. I-75 (SR 93) is a designated state hurricane evacuation route and part of Florida's SIS highway network.

The functional classification of I-75 within the project limits is Urban Principal Arterial - Interstate. The project segment of I-75 (SR 93) consists of a six-lane divided typical section. Existing right-of-way along the corridor ranges from approximately 300 feet to 550 feet in width.

III. Project Goals

The following goals and objectives have been defined for this Plan:

- Provide a comprehensive analysis identifying traffic operational deficiencies along the I-75 mainline and interchanges from South of River Road to North of Moccasin Wallow Road, along with the prioritization of when improvements are needed.
- Engage with corridor stakeholders to obtain input on the corridor and proposed improvements.
- Develop an ultimate capacity improvement plan for the corridor to improve reliability and flow of traffic along the corridor. The need for, type of, and cost of improvements shall be defined. This ultimate improvement will include adding express lanes while maintaining the existing number of general-purpose lanes and may include:
 - Adding additional general-purpose lanes or auxiliary lanes;
 - Adding a collector distributor roadway system; and
 - TSM&O strategies.
- Perform a preliminary assessment of environmental elements along the corridor to identify constraints.
- Compare design constraints, benefits, construction and operation costs, right-of-way impacts and public support of typical section alternatives, and recommend a typical section for further evaluation during the Project Development & Environment (PD&E) Study phase or for Design and Construction.

- Identify bottlenecks and hot spots along the corridor.

IV. Identification of Elected / Appointed Officials and Agencies

Federal and State agencies, as well as Native American Tribes, having a concern in this project due to jurisdictional review or expressed interest have been identified and will be contacted directly by the FDOT through their preferred form of communication (e.g. hard copy mailing or email) prior to public meetings. These contacts are listed in the following table and can also be found in **Appendix A**. Subsequent contact list updates will be prepared in advance of public meetings. These updated lists will be included in the *Public Involvement Summary Element* that will be compiled at project completion.

The following federal, state or regional agencies and Native American tribal officials, having a concern in this project due to jurisdictional review or expressed interest, have been identified. As other concerned agencies are identified throughout the study, they will also be listed and contacted.

FEDERAL AGENCIES

Federal Highway Administration
 Federal Transit Administration
 National Resources Conservation Service
 U.S. Army of Corps of Engineers
 U.S. Department of Interior – National Park Service
 U.S. Department of Interior – U.S. Fish and Wildlife Service
 U.S. Department of Commerce – National Marine Fisheries Service
 U.S. Environmental Protection Agency

NATIVE AMERICAN TRIBAL OFFICIALS

Miccosukee Tribe of Indians of Florida
 Muscogee (Creek) Nation
 Poarch Band of Creek Indians of Alabama
 Seminole Nation of Oklahoma
 Seminole Tribe of Florida

STATE AGENCIES

Florida Department of State
 Florida Department of Agriculture and Consumer Services
 Florida Department of Environmental Protection
 Florida Department of Environmental Protection - State Clearinghouse
 Florida Department of Fish and Wildlife Conservation Commission
 Florida Department of Economic Opportunity
 Florida Department of Transportation – Environmental Management Office
 Florida Department of Transportation – District One

REGIONAL AGENCIES

- Southwest Florida Regional Planning Council
- Southwest Florida Water Management District
- Sarasota-Manatee Airport Authority
- Manatee County Area Transit
- Sarasota County Area Transit Administration

The following elected officials will be contacted directly by FDOT. **Appendix A** lists contact information for the following elected officials at project execution.

FEDERAL DELEGATIONS FOR LOCAL DISTRICTS

Erik Arroyo	Vice Mayor, City of Sarasota
Liz Alpert, Chair	City of Sarasota
Joe Neunder	Council Member, City of Venice
Carlos Beruff	Commissioner, Sarasota-Manatee Airport Authority
Jack Daly	Commissioner, Town of Longboat Key
L.K. Nandam	Secretary, Florida Department of Transportation District One
Judy Titsworth	Mayor, ITPO Anna Maria, Holmes Beach and Bradenton Beach

V. Identification of Affected Communities and Stakeholders

This project is within Sarasota and Manatee Counties and traverses through the Cities of Palmetto, Bradenton, Sarasota, Venice, North Port and several unincorporated communities including Lakewood Ranch, Ellenton, and Osprey. The demographics of the study area were obtained through a Sociocultural Data Report (SDR) analysis. A copy of the SDR is attached to this PIP in **Appendix B**. Based on the demographics of the study area, there is a large number of elderly residents in the study area with 31.4% of the population 65 years and older. Therefore, the project team will hold all public meetings virtually or at a location accessible by transit and in an ADA compliant facility.

The following public interest groups, organizations or businesses having a direct or expressed interest in the project study have been identified and will be contacted by the FDOT District One. **Appendix C** lists contact information for potential stakeholders.

BUSINESS ORGANIZATIONS	
Manatee Chamber of Commerce	Osprey Nokomis Chamber of Commerce
Sarasota Chamber of Commerce	Venice Area Chamber of Commerce
Manasota Black Chamber of Commerce	Lakewood Ranch Chamber of Commerce
Lakewood Ranch Business Alliance	Gulf Coast Latin Chamber of Commerce
Greater Sarasota Chamber of Commerce	Sarasota Manatee Realtors
Manatee-Sarasota Building Industry Association	Sarasota Area Manufacturers Association
The Gulf Coast Builders Exchange	

ENVIRONMENTAL ORGANIZATIONS	
1000 Friends of Florida	Florida Sierra Club
Defenders of Wildlife	
Florida Defenders of the Environment	

OTHER ORGANIZATIONS

Florida Highway Patrol

Tampa Bay Regional Planning Council

Florida Department of Transportation

Additionally, all public and private groups, organizations, agencies and/or businesses that request placement on the project mailing list will be included.

VI. Outreach Activities

The following activities will be employed to notify the public of the proposed transportation improvements and to solicit public input into the project development process.

Notification Methods

In addition to working with the media, different notification techniques will be used throughout the project development process. A brief description of these techniques is provided below.

Newspapers

SARASOTA COUNTY

Business Observer (Gulf Coast Business Review)
1970 Main Street
Sarasota, FL 34236, Floor 3

Letters/Newsletters

Invitational and informational letters and newsletters will be distributed either by email, mail or hand delivered to elected and appointed officials, agencies, business owners/tenants, property owners/tenants and other interested persons or groups, as necessary. Newsletters will also be posted on the project website. The newsletters will give a detailed overview of the project, project team contact information, notice of public meetings, updates on study activities, a summary of the findings, and the next steps of the project development.

It is anticipated that two (2) newsletters will be distributed during the study process:

1. Project kickoff notification
2. Corridor workshops notification

Elected officials will receive notification via email from the District Director of Transportation Development. Appointed officials will receive notification via email from the District Environmental Manager or designee.

News/Press Releases

News/press releases will be submitted by the District's Public Information Office (PIO) seven days prior to each public meeting.

Public Notices/Legal Display Ads

Public advertisement will consist of a legal display advertisement published in the area newspaper with the largest circulation. Notices will also be published in the *Florida Administrative Register* at these times. Meeting notices will also be posted on FDOT's public meeting notices website and the project website.

Public Announcements

To distribute project information, fliers will be made available to local communities, cultural and civic groups, business organizations, religious groups, schools and others to publish in existing newsletters and on websites. Any such correspondence will be coordinated through the Districts PIO.

Direct Mail List for Notifications

The following will be contacted by direct mail/email to obtain input throughout the project development process and/or to provide project information:

- Those whose property lies, in whole or part, within at least 300 feet on either side of the centerline of each project alternative (Section 339.155 FS), as well as other location citizens who may be impacted by the construction of this project. This portion of the mailing list will be based on County Property Appraiser's tax rolls. A map showing the parcels to receive notification can be found in **Appendix D**.
- Public officials or individuals who request to be placed on the mailing list for this project. (Elected and appointed officials will receive notification via email from the District Director of Transportation Development.)
- Public and private groups, organizations, agencies, or businesses that request to be placed on the mailing list for this project.

Public Involvement Techniques

Presentations to Local Officials

Presentations may be given to local officials and agencies such as the Sarasota/Manatee MPO, and the Southwest Florida Regional Planning Council prior to the public information meeting(s) and the public hearing to apprise local officials of the project status, specific location and design concepts, and receive their comments.

Public Information Meetings

Two public information meetings will be conducted to present the project and the Plan materials being considered and to obtain comments from the general public.

Public Kick-off Meeting (Virtual)

A Public Kick-off Meeting will be conducted early in the project process to make the local community aware of the study and to give the general public an opportunity to express their views concerning the proposed improvements. Notification to officials, agencies, property owners and interested persons, display advertisements and media releases will be distributed as described above. A meeting summary will be compiled following the meeting to include a copy of all meeting materials, presentation, public comments and responses.

Corridor Workshops (Hybrid)

Corridor Workshops will be held virtually and in person, one in each county, to present review exhibits and Plan materials. These meetings will be promoted in the same manner as the Public Kick-off Meeting, with the objective of obtaining public input.

Informal Meetings

In addition to the scheduled public meetings, there may be additional unscheduled meetings with the public, elected and appointed officials, public agencies, or civic groups. The purpose of these meetings will be to apprise the attendees of the project status, specific location and design concepts, and to receive input. The Department will be available with appropriate notice to attend meetings or make presentations.

Project Website

A program webpage has been developed by the IPM to provide current project information to elected officials, agencies, and the public. The website menu includes a PROJECTS page with an I-75 Connect (North Corridor) subpage that includes information for this project including:

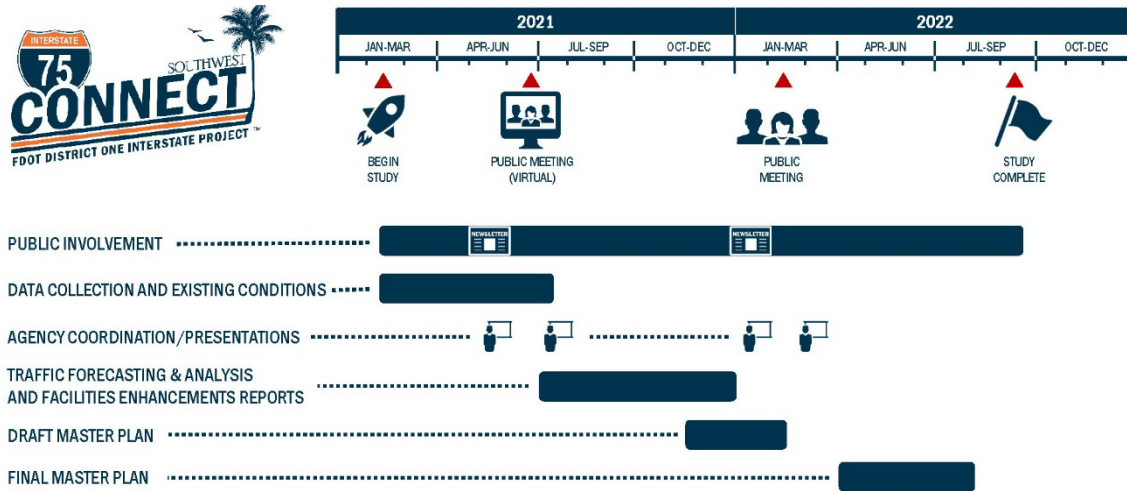

- Project Description
- Public Involvement
- Project Documents
- Public Outreach Schedule (see Figure 2)
- Contact Information
- Stay Informed

Links will be provided to allow the public to submit a comment, sign up for the mailing list and to view or download project documents.

The direct link for this website is: www.swflinterstates.com/i75-north-corridor.

Public Outreach Schedule

Figure 2 | Public Outreach Schedule

Tracking Public Comments and Responses Tracking

A Public Comments and Responses log form will be used internally by the project team to document all questions, requests and concerns received from project stakeholders, including the general public outside the forum of public meetings. The log will also include comments received from the website link. The Comments and Responses log will list the name of the person making the comment, their name and organization, the date the comment was received, a summary of the comment, the date a response was given, and who provided the response. This log will be included in the final *Public Involvement Summary Element* at the conclusion of the study.

VII. Coordination with Local Agencies

Copies of aerial maps depicting all alignment and design concepts under consideration, along with draft copies of engineering and environmental study documentation, will be furnished to the County Engineers, with their review and written comments solicited. Updated information will also be forwarded to the county(s) for review and comment prior to the scheduled public hearing.

The Consultant will notify the Department’s liaisons for Sarasota and Manatee counties of project execution. The Department’s liaison will coordinate with the Project Manager to schedule meetings with the counties and their respective planning organizations.

Community Facilities

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.

Data Sources

Area

The geographic area of the community based on a user-specified community boundary or area of interest (AOI) boundary.

Jurisdiction

Jurisdiction(s) includes local government boundaries that intersect the community or AOI boundary.

Demographic Data

Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census (1990, 2000) and the American Community Survey (ACS) 5-year estimates from 2006-2010 and 2013-2017. The

data was gathered at the block group level for user-specified community boundaries and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS).

About the Census Data:

User-specified community boundaries and AOIs do not always correspond precisely to block group boundaries. In these instances, adjustment of the geographic area and data for affected block groups is required to estimate the actual population. To improve the accuracy of such estimates in the SDR report, the census block group data was adjusted to exclude all census blocks with a population of two or fewer. These areas were eliminated from the corresponding years' block groups. Next, the portion of the block group that lies outside of the community or AOI boundary was removed. The demographics within each block group were then recalculated, assuming an equal area distribution of the population. Note that there may be areas where there is no population.

Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 or 2.5% of U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: <http://mcdc.missouri.edu/pub/data/acs/Readme.shtml>) The U.S. Census Bureau provides help with this process:

<https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2017.html>

Use caution when interpreting changes in Race and Ethnicity over time. Starting with the 2000 Decennial Census, respondents were given a new option of selecting one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <http://www.census.gov/prod/2001pubs/c2kbr01-1.pdf>; <http://www.census.gov/pred/www/rpts/Race%20and%20Ethnicity%20FINAL%20report.pdf>)

The "Minority" calculations are derived from Census and ACS data using both the race and ethnicity responses. On this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities.

Disability data is not included in the 2010 Decennial Census, or the 2006-2010 ACS. This data is available in the 2013-2017 ACS.

Because of changes made to the Census and ACS questions between 1990 and 2017, disability variables should not be compared from year to year. For example: 1) With the 1990 data the disabilities are listed as a "work disability" while this distinction is not made with 2000 or 2017 ACS data; 2) The 2017 ACS data includes the institutionalized population (e.g. persons in prisons and group homes), while this population is not included in 1990 or 2000; 3) the age groupings changed over the years.

Please take the following two concerns into account when viewing this data: 1) With the 1990 data the disabilities are listed as a "work disability" while this distinction is not made with 2000 or 2017 ACS data; 2) The 2017 ACS data includes the institutionalized population (e.g. persons in prisons and group homes), while this population is not included in 1990 or 2000.

The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

Age Trends median age for 1990 is not available.

Land Use Data

The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcel-specific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.

Community Facilities Data

- Assisted Rental Housing Units - Identifies multifamily rental developments that receive funding assistance under federal, state, and local government programs to offer affordable housing as reported by the Shimberg Center for Housing Studies, University of Florida.
- Mobile Home Parks - Identifies approved or acknowledged mobile home parks reported by the Florida Department of Business and Professional Regulation and Florida Department of Health.
- Migrant Camps - Identifies migrant labor camp facilities inspected by the Florida Department of Health.
- Group Care Facilities - Identifies group care facilities inspected by the Florida Department of Health.
- Community Center and Fraternal Association Facilities - Identifies facilities reported by multiple sources.
- Law Enforcement Correctional Facilities - Identifies facilities reported by multiple sources.
- Cultural Centers - Identifies cultural centers including organizations, buildings, or complexes that promote culture and arts (e.g., aquariums and zoological facilities; arboreta and botanical gardens; dinner theaters; drive-ins; historical places and services; libraries; motion picture theaters; museums and art galleries; performing arts centers; performing arts theaters; planetariums; studios and art galleries; and theater producers stage facilities) reported by multiple sources.
- Fire Department and Rescue Station Facilities - Identifies facilities reported by multiple sources.
- Government Buildings - Identifies local, state, and federal government buildings reported by multiple sources.
- Health Care Facilities - Identifies health care facilities including abortion clinics, dialysis clinics, medical doctors, nursing homes, osteopaths, state laboratories/clinics, and surgicenters/walk-in clinics reported by the Florida Department of Health.
- Hospital Facilities - Identifies hospital facilities reported by multiple sources.
- Law Enforcement Facilities - Identifies law enforcement facilities reported by multiple sources.
- Parks and Recreational Facilities - Identifies parks and recreational facilities reported by multiple sources.
- Religious Center Facilities - Identifies religious centers including churches, temples, synagogues, mosques, chapels, centers, and other types of religious facilities reported by multiple sources.
- Private and Public Schools - Identifies private and public schools reported by multiple sources.
- Social Service Centers - Identifies social service centers reported by multiple sources.
- Veteran Organizations and Facilities

County Data Sources

Demographic data reported is from the U.S. Decennial Census (1990, 2000) and the American Community Survey (ACS) 5-year estimates from 2006-2010 and 2013-2017. The data was gathered at the county level. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS).

About the Census Data:

Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 or 2.5% of U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: <http://mcdc.missouri.edu/pub/data/acs/Readme.shtml>) The U.S. Census Bureau provides help with this process:

<https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2017.html>

Use caution when interpreting changes in Race and Ethnicity over time. Starting with the 2000 Decennial Census, respondents were given a new option of selecting one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <http://www.census.gov/prod/2001pubs/c2kbr01-1.pdf>;
<http://www.census.gov/pred/www/rpts/Race%20and%20Ethnicity%20FINAL%20report.pdf>)

The "Minority" calculations are derived from Census and ACS data using both the race and ethnicity responses. On this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities.

Disability data is not included in the 2010 Decennial Census, or the 2006-2010 ACS. This data is available in the 2013-2017 ACS.

Because of changes made to the Census and ACS questions between 1990 and 2017, disability variables should not be compared from year to year. For example: 1) With the 1990 data the disabilities are listed as a "work disability" while this distinction is not made with 2000 or 2017 ACS data; 2) The 2017 ACS data includes the institutionalized population (e.g. persons in prisons and group homes), while this population is not included in 1990 or 2000; 3) the age groupings changed over the years.

Please take the following two concerns into account when viewing this data: 1) With the 1990 data the disabilities are listed as a "work disability" while this distinction is not made with 2000 or 2017 ACS data; 2) The 2017 ACS data includes the institutionalized population (e.g. persons in prisons and group homes), while this population is not included in 1990 or 2000.
